TEST OF PATRIOTISM

(The following excerpts were taken from an editorial which appeared recently in the Salt Lake City Tologram-Editor)

It may have been senothing of a surprise to many Utahns to read about—Americans of Japanese amcestry and their fighting record in Uncle San's army. Americans—have fought bravely for their country—America—(and have) been killed, we unded, and taken prisoner, praised for performing "brilliently" in action and decorated for gallantry. And there are thousands more Japanese Americans now going into action or proparing to do so. The first Japanese American combat unit, the 100th infantry bettalion, was activated in May, 1942. It first went into action about a year ago in Italy. Since then up to last May members of this one battalion, fighting in many ongagements and singled out for high praise in a 5th army citation, have received 900 purple hearts, 3 distinguished service crosses, 36 silver stars and 21 brenze stars.

Japanese Americans have seen plonty of action in this war on many fronts. Japanese Americans in the Hawaiian territorial guard fought at Pearl Harber, repertedly shooting down a raiding Japanese plane and capturing the first Japanese prisoner, one half of the crew of a Japanese midget submarine which was wreeked on a Hawaiian reef. A Japanese technical sergeant in the air forces has wen two distinguished flying crosses and an air model with five eak leaf alusters for his gumery work on more than 25 European theater bending missions. Japanese Americans are serving as interpretors, radio intelligence men and in other capacities all ever the Pacific war theater. They have seen action on Bataan, at Tarawa, Kwajalein, Kew Guinca, Guadalcanal, New Britain and in the China-Burma-India theater.

In addition to the thousands of Japanese Americans who are already on the fighting fronts, thousands more are training. There are today approximately 13,000 soldiers of Japanese ancestry in the army, more than helf of whom are now outside the continental United States. There are Japanese American girls in the WAC and in the nurses corps and more than 200 seamon in the U.S. more chant marine.

PROVED THEIR LOYALTY

No one can say, after the record of volunteering for service, of gallantry in action and of blood sacrifice, that the second generation of Japanese in America have not in large numbers proved their loyalty to their country by their readiness to serve in its armed forces, to fight for it, and to die for it. What more conclusive test of patriotism is there?

FOX REVEALS ADVANTAGES OF OUTSIDE SCHOOLING

In an address to the block managers at a recent Town Hall moeting, High School Principal Rellin C. Fox expressed his hopes that more seniors would take the advantage of completing their high school program on the outside since it offers a more thorough program.

The principal said that regardless of the fact that the local high school is working hard, advantages exist in completing the senior year in recognized schools on the outside since they offer a complete line in trade courses. THREE GROUPS

Fox stated that there are three groups of seniors which may leave Marzenar; (1) family relocation; (2) those 19 or older who have their parent's consent; and (3) those 17 or 18 who may be placed under the care of some responsible person or agoney. They may include the relatives, any responsible adult, the YMCA, the YWCA, private or public welfare or social agencies.

The principal revealed that there are many tuition free schools on the outside, depending upon the states and the local schools in that area.

Interested residents were asked to contact the Education Department for further discussions and information.
