

# TRIP..ENJOYABLE AS WELL AS INFORMATIVE..TED AKAHOSHI

The trip I made to Rupert, Idaho with Roy Nash and the others was enjoyable as well as informative. The mere fact that Mr. Nash, the Project Director of Manzanar, went way up to Idaho to visit the men in the beet fields made a profound impression upon them. It was clearly evident that those men deeply appreciated the Project Director's sincere interest in their welfare.

## CENTER OFFICIALS RETURN FROM VISIT TO BEET FIELDS

As Project Director Roy Nash, H.M. Best, Bob Brown, and Ted Akahoshi, stumbled across the weedy beet patch, they hailed the boys, Hi fellas.....Doke era! ka ne!.....The boys streightened up, mouths dropping in amazement as they blinked at these "apparitions" from another world they left behind.

"What the heck are you doing here!" gasped the boys in one breath. "Oh, we came to see if you were getting along all right and to investigate rumors of bad conditions," Nash retorted. The men were incredulous that they should be the subjects of so much concern, according to Akahoshi who discussed the situation in great detail with the workers.

Leaving hurriedly Saturday night the group motored up to Rupert, Idaho where 129 of Manzanar's volunteer group are belatedly thinning weedchoked fields. Investigation revealed:

1. Troubles were all of a minor nature.

2. Boys have been paid the prevailing wage of \$9.50 per acre with extra bonuses where fields are especially bad.

been formed with K. Ariyoshi as leader to negotiate with the U. S. Employment Council all difficulties.

4. The difficulty lies in lack of experience. About 25 experienced farmers are averaging \$4.50 to \$5.00 a day. Inexperienced boys average \$1.20 to \$2.00 a day but their average is rising as they become more adept.

5. Board cost 90 cents a day but with better management they plan to cut costs to 75 cents.

6. Boys have been quartered in Farm Security Standard Canvas tent camps but in a few days they will be moved to regular CCC barracks.

7. Japanese are given the run of the town. They attend movies, go to bowling alleys, etc.

8. Several farmers have asked the Japanese if they would not remain through the winter, giving evidence of good relations.

9. Most of the men are homesick.

After talking to the boys and the farmers and conferring with the U. S. Employment Council the group visited the center at Gooding now under construction, returning to Manzanar late Tuesday night.

## DAILY TOTAL OF NETS MANUFACTURED INCREASES

"Girls seem more anxious to produce more nets per person than the men," said Henry Ishizuka, production supervisor at the camouflage factory.

There are now 132 women and 175 men at work on the camouflage nets. Total workers including cutters and reefers numbers 356.

Production rate of nets is as follows: Monday---87; Tuesday---108; and Wednesday 136.

Aprons made by the Garment factory girls under the supervision of Mrs. Taya Jow and Aiko Miyoshi, designer, were distributed to the garnish cutters this morning.

## MOVING PERMITS NECESSARY BEFORE CHANGING HOMES

Local residents with the moving fever are cautioned not to start packing unless they first procure an official moving permit issued by the Housing department and signed by Arthur Miller.

These impatient moving without proper authorization will be returned to their original quarters.

Announcement was made that all apartments 1-1's in every block will be vacated soon for use as the Block Leader's office. Residents in these apartments are asked to contact the nightchecker for further arrangements.

## NEW ARRIVALS

Five internees from North Dakota arrived here this morning.

# SCORPION'S STING

If our blustering rival, the Pacemaker, and chief bookie, Eddie Shimano, continue their amazing contractions of patting themselves on the back, we will make arrangements to send our unemployed chiropractors to Santa Anita to set a few misplaced vertebrae.

As far as we are concerned, no amount of orchids or verbal bouquets can completely deodorize the reek of the stalls.

Now that we have subtly maneuvered the subject, we modestly point to our five volumes of clippings which have kept our clipping service on a continual outing spree. Most recent accolade came from Common Ground who devoted an entire article on "America's Newest Newspaper". Still our chest expansion remains the same and our hat size shows no remarkable increase.

## SEZ SAB

...our irrepressible Sab writes again.....  
 ...One thing I have to say of this place, it's very cold in the mornings and at night. We have to wash up outside, hot and cold water but it's all cold by the time we finish washing up.....Boy, those sugar beets, they get me....  
 On Sunday we worked for a Mr. Ludwig, a two acre patch for \$24.00 and we finished it in about six hours. We had 7 in our crew. On the way home I talked to him and he said one can make a fair living on 5 acres of sugar beets with work done by the family.....  
 ...The people are friendly out here, mostly Germans and Scandinavians.....  
 ...You know what, I'm improving. For the last few days, I averaged almost half an acre for a day. They tell me that thinning will be over in about a week and it looks like it's going to be over just when I'm getting used to it... Sab.

## SHOWING THEIR LOYALTY

One hundred sixty-five Japanese have arrived in Rupert from California to go into the beet fields.

By volunteering to come here and help save the sugar beet crop, these Japanese are showing their loyalty. Certainly no Japanese, American or foreign born, not loyal to this country, would volunteer to come here to go into the beet fields--about the hardest work one can find.....RUPERT NEWS (IDAHO)

I was helpless as he stared at me hungrily. He gazed and then he came closer and closer, almost immediately he grasped me with his fingers tight around my waist. He lifted \*\*\*\*\*

me toward his face. His hungry lips met mine. A streak of satisfaction was on his face. Then...he threw me on the ground. Oh what a life for a coon... bottle.

# FROM THE POLICE DESK.....

Several complaints that minors--mainly teen-age girls--are wandering around the center at unwarranted hours of the night have come to the attention of the police department, it was disclosed by Chief Kenneth Horton this week.

"Although the situation is not serious at present," Chief Horton said, "a warning and a little cooperation at the moment may prevent serious consequences in the future."

Not to be outdone by the graveyard shift, the day shift of the police department will hold their weekly bake, tomorrow night at 7:30 p.m. at the Manzanar picnic grounds by George's Creek. Besides the all important "eats", music and dancing are also promised. Transportation will be furnished to all those invited.

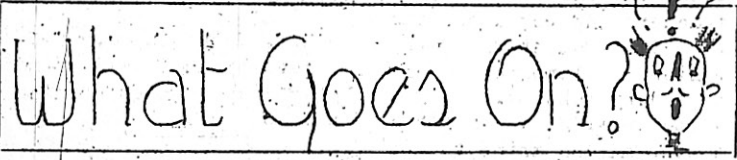

That the police is clamping down on infractions of the law was stressed by the department. Taken into custody this week were Robert Matsuda, 2-10-3, and David Hayashi, 4-10-4.

# MAYBE THIS IS WHY YOU HAVEN'T RECEIVED YOUR PARCEL

Packages for the following persons, whose names are not listed in the Mail Delivery directory, are awaiting them at the office of 7-3-4: Mrs. Jennie Sakamoto, Miyoko Karinoto, T. Hayada (from Rivera), Rev. Hideo Hashimoto, T. Ichio-ka, Anna Kawahara, Mrs. S. Uyemura, Rev. John M. Yamasaki and Yeko Yonemoto.

Matsuda was arrested by Capt. Williams and Officer T. Inai for alleged heckling and disorderly conduct at the net workers. He was released after warning that residence in Manzanar depended on his future conduct.

Hayashi was reported driving out of the bounds of the center without proper permission by Lts. Durbin and Goddard and Sheriff Sperr. Found "ticking a ride" with him were Richard Tanishitr, 9-7-1, Joe Yarisitr, 4-10-4 and Maschiro Hakejo, 4-4-2. All were released with warning of future conduct.

Best and coolest idea of the week: Kitchen #23 blossomed out with soothing Japanese melodies and hot American jazz Tuesday noon. People ate roast beef to the tune of Chattanooga Choo Choo. Maybe the waiters cleaned up to Kay Kyser's "Why Don't We Do This More Often?"....Gnats and mosquitoes are no barriers to people spending hot summer nights under the apple trees in the orchards...Very attractive Florence Shikami ever faithful to her Army boy friend in Alabama, who is A-1 in the Army and A-1 in her heart. YUP, they're engaged....Past Southern California JACL presidents here: Joe Masako, West L.A.; Fred Tayama; L.A.; and Kiyoshi Higashi, San Pedro....Personality smile: Alice Nomura in the department store downtown... Who is this popular "Fee Wee" that both Eric Hayashi and Ichiro Negatani escorted to the wienie bake last Sunday night?....Hiro Noeno's gal friend, one of the best looking lassies in town....Frank Mishima writing from the farm labor camp in Rupert, Idaho that "beet work ain't so bad when you get used to it." He's living with his brother, Mas Terashita and Kaz Adachi....Ben Masako sez it's so cold in the same place, that he goes looking for ice. Maybe more women are needed to thaw out the place.
