### ---AN EDITORIAL---

#### THANKSGIVING, 1944

This year, more than ever, Thanksgiving Day will have a more significant meaning to us.

Although many of us will be without our usual turkey dinner tomorrow, since the army will consume twice as much as it has in the past year, the meaning will still be there.

We in America have much to be thankful for.

Thankful that we are in America where the government is the servant of the people rather than the people its servant.

Thankful that we are ruled under the ideals that all men are created equal and not under the principles of the theory of might.

Thankful for the freedom of speech, press, religion, and assembly; the right to redress of grievance, petition and trial as guaranteed in the ten original amendments of our Bill of Rights.

And thankful that the powers of war have not devastated our lands as it is being done today in Asia, Europe, and in other theaters of war where famine, disease and other realities of war are in existence.

Let us set aside a few moments tomorrow on this (Cont'd on Page Three)

Capt. Kainuma, serving with the Medical detachment, was injured in action in the Benevento area on October 2, 1943. Although he suffered four broken ribs, he requested permission to return to his unit. He served until his injuries forced him to take up work which did not require physical strain and exposure to climate.

### RECEIVES TRAINING

He could not divulge any information as to where he was going nor when he returned to the United States.

Receiving his medical training at Tulane University, in New Orleans, Capt. Kainuma served one year as intern in Shreveport, La. He attended St. Louis University for further training. Returning later to Hawaii, he worked in The Kuakini Hospital.

A YEAR AGO

THIS

WEEK

Movement of various departments in the Administrative area began Friday, announced Edwin G. Hooper, acting assistant project director.

The privilege of being the thousandth person to resettle from Manzanar went to Sam Shigetaka Ikeda, 59-year-old Issei from Pasadena.

In order to increase the capacity of school rooms, partitions in the high school buildings are being rearranged by the Public Works Department. Each building will be divided into three class rooms instead of the original four.

Winners of the high school Book Nook contest were Ted Hayashi, Yoshindo Shibusawa, Miyoshi Sakamoto, and Tadayoshi Schera.

**SPORTS:** Sponsored by the Manzanar Baseball Association, an All-Star game between the Red and White teams will be played at 2 p.m. tomorrow in commemoration of Thanksgiving.

Registering the biggest upset in Manzanar's baseball history, the highly touted San Fernando team met their first defeat at the hands of the lowly Solons, 7-1.

## GIVE STATISTICS ON WEST COAST RETURN

A prediction that one out of every four internees from War Relocation authority centers would remain to their home state, was made by Saburo Kido attorney, and president of the Japanese American Citizen League, the Los Angeles Examiner reported earlier this week.

Kido based his statement on the fact that he believed Nisei who accepted more as equals and that opportunities were better outside of California. Although hostility toward persons of Japanese ancestry in California has been exaggerated, he said that it is of sufficient proportions to induce 25 percent to remain in the Midwest and East.

## DIFFERENCE IN POLICY

(Following editorial was taken from a statement by Major George Fielding Eliot and was published by the Writers' War Board publication—Editor.)

"The General Staff of the United States Army is a group of officers especially trained for staff duties, but detailed to them only temporarily (in time of peace, no more than four years at a stretch). These officers are a part of an army created by law, and subject to the provisions of law: a law one of whose basic principles is that the military must always be subordinate to the civil power.

"The German General Staff is something quite different. It is a self-perpetuating institution which owes no allegiance save an allegiance to its own idea of what constitutes authority in the State. It was once subject only to the order of the German Emperor. It is now subject only to itself, except as control may be enforced upon it by the gangster infiltrations of a Hitler or a Himmler. It is not the executor of policy, it is the maker of policy—policy not only military, but political and economic. It has but one object: that the German nation, under its direction, shall rule the world. In the accomplishment of that object, war and peace are but successive incidents. If this institution is permitted to survive, in any form, above ground or underground, and under any disguise whatever, it will bring another war upon the world just as quickly as it can contrive the means to do so and see a chance of winning."

--KAINUMA  
(Cont'd from Page 1)

Capt. Kainuma was inducted into the enlisted reserves and was called to active duty on July 1, 1941, serving with the Hawaiian National Guard Regiment. He was stationed there at the time of the Pearl Harbor attack.

### CAMPAIN STAR

Capt. Kainuma served with the original 100th Infantry and was with them through the Italian campaign until his departure for the States.

On his service ribbons are three campaign stars. He stated that one was for the Asiatic-Pacific theater, second for American defense and third for com-

batt duty in the European theater.

Capt. Kainuma has a brother, Pfc. Chester T. Kainuma and a brother-in-law, Pfc. Yoshio Yamamoto serving with the 442nd Regional Combat Team in France. Both volunteered for service on April 11, 1943.

Mrs. Mildred Kainuma, who accompanied her husband, worked in the Red Cross in Washington, D. C. after he was sent overseas. She will reside here with her sister, Mrs. Kawamura of 14-6-1 until her permission and transportation can be arranged for her return to the Hawaiian Island.

## 'BUCK-EYE' STATE NISEI PUBLISH NEWSPAPER

Doings of resettled evacuees from the various WRA centers as well, as items of interest for future settlers to Ohio are noted in the initial appearance of the "Chit-Chats", published by the evacuees of Columbus, Ohio.

Says the "Chit-Chats", "The city has not the largest population nor the greatest job opportunities nor is there a lack of housing problems...Jobs pay lower than in other cities but living costs are much lower too.

"But aside from these considerations, of industry and business, homes, schools and churches...the people...are kind and understanding, sympathetic and helpful. Immediately upon your arrival, you feel not like a stranger in a strange town but like you were coming back home. You become one of the community that wants to have you and you take and do your part in her life."

## REVEAL ENGAGEMENT OF FUJIU TO HAGA

Mr. and Mrs. Key Fujii of 23-2-4, announced the engagement of their daughter, Amy, to Toru Haga of Block 23 at a formal dinner, Saturday night, November 11.

Mr. Haga was formerly a student of the University of Southern California prior to the evacuation. He is at present employed at the local base hospital pharmacy.

The bride-elect is a Summer '43 graduate of Manzanar High School and is now employed as a dental assistant at the hospital.

## FORMER PASADENA KILLED IN ACTION

Another Nisei has paid the supreme sacrifice fighting for the ideals of democracy, the War Relocation Authority announced recently.

The Nisei, reports the Los Angeles Examiner, is Pvt. Henry Masao Kondo, formerly of Pasadena, was killed in action in the European theater of war, presumably in France.

Private Henry Kondo's parents reside in the Gila Rivers Relocation Center, Gila River, Ariz.

## POSTON BARBER NISEI VETERAN

POSTON, Ariz.—Pvt. Raymond Matsuda, 29, veteran of the present war and a cripple, was ejected from a civilian barber shop near the Poston Relocation Center because the owner objected to his ancestry, reports the WRA.

The War Relocation Authority reported that the veteran, walking with a crutch, had been shoved from the establishment of Andy Hale, the barber.

## FATHER OF THREE

Hale, the father of three sons in the armed services, said a sign on the front of his Parker (Ariz.) shop reads: "Japs koop out, you rat".

"I don't want none of their business," Hale asserted. "They might close me up but I sure as hell won't work on a Jap".

Hale, in answer to a question, said it made no

difference to him whether the Japanese Americans were civilians or soldiers. "They look alike to me," he said.

Mrs. Pauline Brown, reports officer for the Poston Center related that Matsuda was wearing seven Army ribbons and badges, including the combat infantryman's badge and the Purple Heart.

the outstanding boy and girl graduate of Class of '45.

**ANNOUNCE DEADLINE FOR BASKETBALL TEAM ENTRY**

Entry deadline for basketball teams has been set for Saturday, November 26, announced Roy Takekawa, Community Activities Sports director.

Interested teams are asked to turn in their rosters with the addresses of their captain and manager to either 1-2-2 or to Roy Takekawa at 14-15.

**HIGH WAGES, GOOD HOUSING OFFERED WORKERS AT TOOEL**

Family councils were again being called in Manzanar this week to consider moving to Tooele Ordnance Depot, 35 miles from Salt Lake City, Utah. High wages, the very best housing and steady employment for men and women, old and young, was the story told of Tooele by Ted Lewis, Salt Lake City Relocation Officer, in Manzanar this week.

Sixty-eight families from other centers were already on the job in response to the call for five hundred families. Several Manzanar people, including Henry Kiyonitsu Sakai and Kiyoshi Sora, had already received necessary Provost Marshal General's Office clearance to permit them to handle dead ammunition.

The Tooele Ordnance Depot is a huge installation costing \$25,000,000 and covering 19,000 acres of land. Three thousand five hundred people will be required to operate it when it runs full speed. Government housing is provided for workers and their families.

**FGR STORAGE**

The Depot is primarily for the storage of munitions and the repair of machines of war. Because of its size, only unfused ammunition is handled since no chance of explosions can be risked in such a huge installation.

Trainloads of ammunition are stored in widely dispersed igloos and miles and miles of machine shops, repair factories, trucks, tanks and big guns. Although the main job is repairing machinery and handling ammunition, it takes workers of every description in order to operate the plant and to care for the city of workers.

**ADVANCEMENTS**

According to Lewis, persons who start an amuni-

tion handlers have possibility for advancement for virtually all types of jobs and positions are available for even the very old. Starting pay is 77¢ per hour with possible advances to 86¢ per hour at the end of sixty days for those who work hard. Many will receive jobs paying 90¢ and some 95¢ an hour. In the shops, wages as high as \$2.50 per hour are offered.

**CIVIL SERVICE**

Handling ammunition is Civil Service employment where in forty-eight hours is a minimum work week and of considerable additional overtime for those who desire it. Payed vacations and sick leave are other attractive features of Civil Service. Aliens and citizens, men and women can be used.

Houses of common block which Lewis describes as being better than the Administrative housing at Manzanar is provided for \$28, \$32 and \$36 an apartment depending upon the size. Renters must pay for heat and refrigeration. Other utilities are furnished free.

Asked about the climate, Lewis stated, "We are a little further north than Manzanar and our altitude is a little higher. Our winter temperatures are lower than at Manzanar, but," he continued, "I have rarely experienced anything more chilling than

**YUM, YUM!**

Roast chicken with all its trimmings will grace the tables of the Manzanar mess halls, tomorrow, Thanksgiving Day, states Chief Project Steward J.R. Winchester, of the Mess Division.

**MEAL LIST**

Listed in the menu for tomorrow are roast chicken with dressings, cream of chicken soup, cranberry sauce, candied sweet potato, whipped potato, cauliflower au gratin, hot rolls, fruit cocktail salad, relishes, celery and green onions, and pumpkin pie for dessert.

**STENCIL EXHIBIT OPENS**

Stencil exhibit is now on display to the residents at 8-15 museum and will continue until December 2, announces Museum Supervisor Takekawa.

the Manzanar wind". Shortly after arriving in Manzanar, Lewis was confined to his quarters with a bad cold.

It is anticipated that approximately one-fifth of the staff at Tooele will be made up of persons of Japanese descent.

Alarmed, they consulted the famous specialist Dr. X. After thinking it over, Dr. X. brought a map of the world out, and measured the distance between Japan and Greece and half way between was Indim.

He diagnosed the child as being an Indian.
