True American Act

Some weeks ago, the Hood River, Ore., Post of the Ameri-can Legion caused the names of 16 American soldiers to be removed from the town's scroll of honor. The Americans Lappened to be of Japanese ancestry. Later an American-Legion Post in New York City invited the 16 Nisei to be-come members after the war, thus in a way attempting to make up for the prejudice in Hood River.

Now comes another act by another truly American Legion Post-No. 8 in Los Angeles. This post, in a doubly significant action because it is on the West Coast, has unanimously passed a resolution condemning "any expression emanating from an American Legion source which refuses to accord to any American ex-serviceman the same rights, privileges and honors as any other citizen solely because of his ancestry."

Referring to Americans of Japanese ancestry, the resolut-ion says that the attitude of the legion "is of transcendent importance not only to them, but to all Americans of whatever ancestry, since it concerns a preservation of our Con-stitution and the maintenance of rights it guarantees."

The Los Angeles Post does not stop there but continues to discuss the rights of the Japanese Americans as follows:

"We are deeply concerned over the widely disseminated expressions of certain groups and individuals which seek to deny these Americans their rights and attempt to establish a distinction between them and other citizens solely by reason of their race.

"We urge our comrades in the American Legion to see to it that the persons and property of the Japanese returning to our community are safeguarded and protected and that they are accorded their full rights under the Constitution with out reservation."

All that can be added to that, by persons who really believe in what this country has always said it stood for, is-Amen.
