Urge Eligible Workers to Call For Pay

Disbursement of April WCCA wages and June WRA cash advances is still being conducted simultaneously at the timekeeper's office, 1-2-4. According to E. R. Hooper of the fiscal department, exactly \$4997.91 in June allowances are on hand to be distributed to 1160 eligible persons, but up to this morning only 625 had presented themselves.

For the April payroll amounting to \$9533.92, out of the eligible list of 1745, only 670 have called.

Because all vouchers and records of the present WRA allowances will be sent to the regional office for a final check-up before another shipment of \$15,000 is forthcoming for the "U"s on the waiting list, residents are urged to call for wages immediately.

Working overtime since 6 p.m. Thursday, the fiscal department is asking for the cooperation of community in its work.

Editorial

JUST A SUGGESTION

A great deal of personal jealousy has been shown following the distribution of the latest cash allowances. Flimsy accusations of pull, politics and favoritism are being made.

But our community should be bigger and think in bigger terms.

We suggest that those who have been, and are silently, contributing to the working machinery of the center be given more consideration, such as cooks, kitchen helpers, farm workers, ground and maintenance crews, garbage collectors. They should be put on the same footing as those seated on swivel chairs and comfortable benches.

Since our mode of life is slightly different from that which we have been accustomed to for so many years, we think that USEFULNESS should be the criterion upon which remuneration is made.

We suggest that every man and woman regardless of the type of work he is doing start from a flat allowance. Then give him the opportunity to increase his allowance on a competitive basis. We believe that these allowances should also be on a progressive scale, subject to increase as the community assumes a self-sustaining character.

If we can find a simple equation in simple living we can truly call ourselves pioneers in the democratic way of life.

'Evening Under the Stars'

Everything was going well for a score of courageous Block Three youths, who one night last week were finding fresh air at its freshest and enjoying nocturnal solitude under the stars.

Then it happened, it was too good to last.....

It wasn't gnats nor ants that terminated their peaceful sleep. Some fellows woke up the next morning looking like fugitives from the nearest reservation. Prank-

sters, in possession of mil-ladies tangee, plastered the flaming lip boosters on their snoozing faces in the hush of the night.

A half-corked cola bottle full of water was neatly tucked under Harry Koba's blankets while he sawed wood. Came the dawn... his folks gavo him a 2nd look, when he went home for his seat, and mattress were anything but dry.

Kaz Terayma's friends' conspired to leave him stranded in the middle of the 2-3 fire-break. The plan folded up cuz Kaz woke up just as they were carrying him out. By the time he rubbed his eyes the pranksters were already around the corner. Said Kaz, "###%&??@?@.###%&##"

Then Ace Sugawara, gaining a pass, was scooted in by H. Hino's sizzling grounder. A tight 8th overtimer finally found the ace battery H. Hino, Endo, P. Mitsui cracking hurler S. Yamauchi for the 2 convincing tallies.
