VRA to give relief for needy

Public assistance grants to be handled By local community services division

Out of the national WRA policy meeting held last week in San Francisco, came the announcement of public assist-ance grant or relief to needy individuals and families in the relocation centers. All relief will be in addition to food, shelter and other subsistence, it was stated. Although these fig-

ures and conditions may be sub-ject to change in the next few weeks, it was assumed that this policy statement on public as-sistance was fairly permanent. Tentative amounts fixed for families without any income are as

Harvesting of pears From orchards begins

Pear harvesting began last Friday noon with the arrival of lug boxes. About 4,000 boxes of pears are expected to be harvested from the local orchards, this sea-

The first pickings are being devoted to only large-size pears and they will be stored in the warehouses and later supplied to the mess halls as they ripen. This is the first time that pears have been harvested since 1933 when the City of Los Angeles abandoned the orchards for not yielding enough to pay for their upkeep, it is reported.

Allowance raise For 'A' workers

Cheering news to all "a" rating field, maintenance and other laborers, was the announcement of the cash allowance raise from \$12 to \$16 a month. This statement was issued by Project Director Nash last Monday following his trip to San Francisco where he participated in the national policy conference of the WRA.

Practical standardization of cash allowances will be the result of this drastic move since most of the workers fall into the "g" or "b" atteory. There will be no change in the wages of workers already receiving \$16. Workers in complex fields with special responsibilities will continue to receive \$19. This group includes but a relatively few persons.

The \$12 classification will ap-The \$12 classification will apply to only apprentice workers in their trairing period, who work under the direct supervision of an expert worker. However, £1 workers who participate in hard physical labor will receive \$16 regardless of their apprentice status, it was announced.

The term "apprentice" will be defined later, but it was asserted that practically all \$12 workers would be advanced to \$16.

Tulelake rumors Proved untrue

"There is no truth whatsoever "There is no truth whatsoever" in prevalent rumors regarding violence to Walter Tsukamoto, attorney and former national president of the JA.C.L., Dr. Iki, Sacramento physician, and others at Tulelake Relocation Center, reported WRA Director Dillon S. Myer to the National C. L. headquarters this week.

Pay continues

July payments to social workers, canteen, community enterprises, block leaders, freight crew, and typewriter repairmen, will be made in a day or-two as \$4,000 was brought in from Lone Pine by E. H. Hooper today. Workers will be notified by their Caucasian heads, according to Marie Shimizu, paymaster. Up to date, about \$28,000 has been distributed.

Furlough jobs in other states Open to agricultural workers

Hundreds of workers may be leaving Manzanar in the next few weeks to take advantage of furlough opportunities which will increase as harvesting begins in Idaho Montana, Oregon and Utah, and the labor shortage becomes desperate. Active recruiting has already begun with applications being handled temporarily by the em-ployment office, 1-5-2. Eagerly awaited is the arrival of Mr. Hol-land, U. S. Employment Serv-ice man who will bring details of

EMERGENCY MEET

With the prospect of furlough workers leaving in a few weeks, an emergency session of the la-bor council now under formation will be called tonight by Hiroshi

Attacked Sunday

Assaulted by Toshinori Akashi over the printing of a police report involving Akashi in the Free Press, Joseph Blamey and James Oda were taken to the hospital late Sunday night for treatment of minor injuries.

Akashi allegedly appeared at Blamey's apartment, demanding retraction, of the article, which appeared in an issue of the Free Press. He left once, seemingly nacified, only to return to strike Blamey, it was reported.

Fifteen persons who were in the room witnessed the beating. Akashi left the room once more, to be further incited by the crowd of approximately 30 boys who urged him back. Blamey, who is erippled by an attack of infantile paralysis, did not raise his hands to reciprocate, announced the onlookers.

James Oda, a reporter on the Japanese section of the Free Press, intervened and was also beaten. It was reported that Oda did not strike Akashi at first and only began to fight back when the crowd yelled to the assallant to drag Oda outside. Pummelling Akashi who finally hoisted the white flag, Oda was further threatened by Bob Matsuda who assertedly carried a club.

Running around in circles

Inexperienced in the operation of a democratic form of government, many of us are confusing democracy with dualism, duplication, and even mob rule. Like the Manzanar chipmunk that frantically runs on a treadmill, we are running around in circles, getting absolutely nowhere because we do not fully understand the functions of each branch of our self-government system. Democracy does not mean that every citizen can go into congress and have his say.

Self-government is, perhaps, a misleading term. Because the Army deemed it a military necessity, we were brought here. Now because it is still deemed necessary, our self-government is qualified and subject to the approval of the administration.

In all fairness, it must be stated that the WRA administration has fought for the improvement of our conditions. It has given us the greatest possible leeway in our self-government that it is empowered to give us.

But self-government is turning out to be a double-edged weapon that we are turning on ourselves. Ideally, a democracy should be an orderly system of self-rule in which all people have representation, without the sacrifice of efficiency. Instead, it is turning out to be a free-for-all in which everyone insists on getting in on everything.

Block Leaders' Council

The basic and main self-government body of Manzanar is the Block Leader system with the Block Leaders' Council as its representative body. Every resident of Manzanar, citizen and alien of voting age has voice in the selection of the block leader. The block leader serves his block in most functions. All complaints regarding physical accommodations, housing, plumbing, etc., should be channeled through the block leader.

He represents the opinion of his block in the Town Hall meetings. The residents, if they desire effective representa-tion, should see that their leader is always informed of their wishes. This is the function of the people in self-government. Manzanar Citizens' Federation

There are many problems that cannot be handled by the Block Leaders' Council because many of them are issei and because they are limited to the operation of self-government within the center. Cases of discrimination, infringement of civil liberties, must be fought by a citizen group. Only through experience can citizen leadership be developed to carry on in the dark days ahead when the issei leaders will all be gone.

There is a crying need for an active citizens' organization, to defend ourselves against attack of our citizenship rights to present our case to the outside world.

We might as well face facts. The JACL cannot fulfill that function here because it does not have the support of the people. The Manzanar Citizens' Federation proposes to fulfill this need. Contrary to rumors, it is not the same old JACL again; it is not controlled by any single clique.

In order to make the Citizens' Federation truly repre-

sentative of the nisei and kibei, councils are being formed in every block. These block citizens' councils will send three representatives to a constitutional convention, which will draft the organization framework.

If the proclaimed objectives and aims do not meet the approval of the convention, they may be altered or modified as the body decides.

These citizens' councils and the federation is not a superfluous organization, nor is it discriminating against the issei. The issei, as well as kibei and nisei have ample representation in the main self-governing body. The Citizens' Federation answers a specific need that the Block Leaders' Council cannot fulfill. Seasoned issei advice is greatly appreciated and provisions have been made in the tentative set-up to include interested issei in a special membership category.

The sending of over two thousand absentee ballots to the Japanese evacuee citizens in assembly and relocation centers has brought divergent views, mostly critical, in the metropolitan newspapers of Los Angeles. The majority of the people interviewed by one reactionary Hearst newspaper have said that the Japanese should not be given the privilege of voting since the Japanese are wards of the federal government. anese evacuee citizens in assem

In these critical times when the nation is exerting tremendous effort to bring decency and justice for all people, regardless of race, color or creed, the arguments presented by the people interviewed seem to show that they are playing into the hands of the Nazi propagandists.

This country must avoid creating the concentration camp atmosphere for the evacuee Japanese now living in assembly and relocation centers.

the Americans of Japanese ancestry, the sacred heritage all Americans are proud of and worth fighting for.

In spite of all the criticisms against letting the evacuee Japanese vote, the calm and sane voice of Superior Judge William J. Palmer stands out above the crowd of reactionary elements. Said Judge Palmer:

"Notwithstanding any personal opinions or sentiments one might have, this is purely a legal problem. All persons who are citizens and are qualified voters have a right to vote, and there is nothing anybody can do about it. That is our democratic system and this is the system we fight to preserve. If these people are registered, are citizens, and have requested ballots, they are entitled to cast them, and that is the end of the matter."

We, Americans of Japanese ancestry in evacuation centers, are proud of fellow Americans who have the courage of their convictions to say what they think is right in face of mounting public opposition.

A nation insisting on a democratic program to bring justice to all peoples cannot itself practice undemocratic principles—such as denying evacuee citizens the right to vote.

It is well for all Americans to remember that we can defeat our own aims and intentions by resorting to undemocratice and un-American practices.—T.U.

Dear Editor:

Dear Editor:

As I said at the kibei meeting, I am a Japanese and have always been proud of being a Japanese. I repeat again that I am for the Japanese But . . I am for Japanese but . . I am for Japanese who are disciplined, decent and thoughtful. I am for Japanese who believe in free thinking and equality of men. I am for Japanese who are of high integrity and have self-respect. I believe that the Japanese are liberty-loving, democratic people.

I am opposed to the employment of force and violence. This thing is going too far. It may not be long before we may have a vigilante-controlled open town here. So, I have never had police protection, contrary to rumors. So if a gang of people or a fellow, five times as strong as I am, jumps on me, it will be just too bad for me. If they are satisfied with that, it is all right with me, too. I might as well state that I too. I might as well state that I too. I might as well state that I have no wife, parents or relatives here or anywhere. And I am sorry to say that I can't change my stand.

Millions of people are dying today for the precious cause in which they believe. This Manzan-ar is my battleground now, and ar is my battleground now, and I am determined more than ever to face whatever is coming. I am convinced that my service will be appreciated by the future generations of Japanese-Americans who will live in a free world, where shameful history of slavery and racial persecution will be completely wiped put.

MONICANS WIN; BEAT POLICE, 11-9

After suffering 11 straight defeats without a win in the 2nd round, the cellar occupying Santa Monicans finally stepped in to the win column with an 11-9 victory over the strong Police in an International tilt.

The contest was an overtime affair with the Monicans coming out on top with a 2-run outburst in the 8th inning. In the first 3

rounds, the Santa Monicans had a 6-3 lead but the fighting flat-foots tied the game at 9-all after 6 stanzas until the fatal 8th when

Kuse, Koyama Hurl Team to Triumph

Learn to Iriumph
Under terrific strain, the Pirates finally cracked down after winning 10 straight to the Elk Grove Falcons, 9-4, in a classical Owens thriller last Saturday. Falcons scored at will in the first 4 frames, building up a substantial lead and coasted to victory aided by T. Kuse and I. Koyama's masterful hurling. They limited the opponents to 5 hits.

PADRES BOW TO VICTORY ACES, 9-5

An early 5-inning affair gave a well-carned victory to the up and coming Victory Aces, as the Sierra Padres were handed a 9-5 set-back in an International league tussle Saturday evening. Padre's 3-2 lead in the 3rd frame was soon overwhelmed by Victory Aces' tremendous onslought in the 4th inning, with 6 "V" men crossing the plate, after connecting Tashima for 4 timely bingles.

Padres defense machine was a bit rusty with many costly errors causing the downfall of the league leaders to 3rd position. Victory Aces ... 100 62—9 Sierra Padres ... 002 12—9 Sierra Padres ... 002 12—9 K. Tanaka and K. Mayeda; H. Tashima and T. Haga.
