Dear Katsuno: _____ Sept 12th 1942 _____

Received Your 7th letter with my sincere gratitude...

I am happy to know You are well arrival but I wish
you take Apart the A Or F for own home as you like

You better ask to housing officer at once and again

Who is Mrs. Kawata? She will ask herself to Own home!

I am well & Busy at Mayor's office every day, Heard

from Mrs. matsuda visited you 2 miles, I sent you yester

day c/o her add. The nature of New Mexico especial

the clouds are so beautiful this morning after the rain

we saw the golden clouds that looked like a flame in

the eastern sky, we japanese who love nature, could

enjoy life where we go. the entertainment which was

to be give saturday eve. was post pond, owing to the

rain, but it was held sunday from six. Each performer

charmed the audience with his sweet voice and wonder

-ful act, and it was over at ten. with great success

All the people in the whole Camp enjoyed themselves

under the Starry sky of Autumn. We are not forget to

observe integrity at as such camp life but Some one

lost his virtue as such the Serious time, They talking

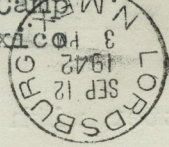

about him with Sneer such as, He gave to Yone very

often delivered Cakes and Lunches which His wife brou-

ght for him herself at Immigration house.

your Genji
