CO-OP DELEGATES VOTE ON CHARTER AMENDMENT

<u>Baggage</u> INSPECTION RULES GIVEN

In cooperation with the Transportation Department, the Internal Security will inspect and pick up all check baggage the day before departure from noon until 5 p.m. This baggage will be locked in the camouflage warehouse overnight. All persons leaving on a Monday will have their bags checked Sunday afternoon between 12 and 5 p.m. without fail.

Those departing Monday, August 2 will have their; check baggage inspected and picked up Sunday, Aug. 1 between 12 and 3 p.m. Persons affected are requested to have baggages ready.

All vouchers for cash leave assistance will be ready for the signature of relocaters after 3 p.m. of the day before departure, and for those leaving on Monday it will be ready on Saturday. The cash will be ready for distribution at the same time.

SALES, SERVICES LIMITED TO CITY

The Gila Co-op Congress of Delegates will meet this afternoon to vote on the proposed amendment to the Articles of Incorporation which will limit the co-op's activities to the relocation center and its corporate existence to the life of the center.

The Arizona Corporation Commission wrote last week that unless the amendment is made soon, it would decide on whether or not to cencel Gila Co-op's license on the basis of the hearing held on June. At the June hearing the Articles of Incorporation was presented without the present amendment.

DS MYER ISSUES STATEMENT ON WRA SEGREGATION POLICIES

D.S. Myer, WRA director, issued a statement of reasons for and the purposes of the segregation program Thursday. It follows in full:

ACTUAL FARM DAY GOOD

A farm family of four in the Milwaukee, Wis., area earning wages of \$75 a month is as well off financially as a c i t y-dweller with a salary of from \$1860 to \$1892 a year, according to a study recently released by the lione Economics Department of the University of Wisconsin.

The average farm in the "illwaukee area furnished shelters, worth about \$35 amonth, half the yearly area about 75% of the food used by the farmer and his

family. Tuel supplied by the farm would cost about \$40 is paid for out of cash income, and food raised and consumed a t home adds another \$500 to \$532 to the average farm family's actual income.

To a family of three, a farm job near Milwaukoe at \$75 a menth is worth from \$835 to \$860 a year more than an urban job at equivalent wages; to a fardly of four from \$960 to \$992 more; to a family of five from \$1085 to \$125 more; and to a family of six from \$1280 to \$1328 more.

SUPERMAN MAY HELP EVACUEES

Mindful of the mass appeal of the Superman comics among children and adults all ike, the Rev. Royden Susu-Mago sent a letter to Dillon S. Myer enclosing clippings of Superman broaking up a sabetur ring in one of the rolocation centers. The following is the reply he received:

Dear Mr. Susu-liago:

This will acknowledge your letter of June 30 enclosing the Superman comic strip clippings. We have communicated with the syndicate which distributes this feature and also with one of the artists who draws it. Both of them expressed regrot that damage had been done to the standing of a minority group, and assured us that (continued on page 2)

centers. The execution of this responsibility is made more difficult by the fact that come of the relocation center residents have indicated that they are neither 1 oy a 1 to this country nor sympathetic to its war aims, while the great majority have indicated that they wish to be American.

The War Relocation Authority has an obligation to each of these groups, and it also has an obligation to safeguard the further national interest. After long and serious deliberation, the decision has been made that the responsibilities of the War Relocation Authority can best be fulfilled if a segregation is made tween those who wish to follow the American way of life, and those whose interosts are not in harmony with those of the United States.

TERM, KIBEL, MISUSLU

Because a man fails to speak the language of Americaus properly, because he was educated in another country, because his ways are different from the common customs of this country, it does not measurably rollow that an individual is inimical to the basic illosophies of America.

Nor can it be said that because a person is worlman in all outward appearances that he is loyal.

These have been generally recognized in the evaccos. Most issei, who outwardly are Japanese, are onsidered loyal. On the other hand some nisei are elieved to be disloyal. But of the kibei, from the lot of indiscriminate information and opinions gathered from publications, it is obvious that most people still stick by the generalization that they are pro-Japan.

Many of them are disloyal, and should be respected their conviction, as pointed out by Director Dillon S. Myer. But many are loyal to America, some of them fiercely so. They know, these latter, the illiberal policies of the Japaness government by exporience and have learned to hate it.

The unfavorable publicity given the hibei have done great harm to the loyalty many of them have held this nation. They, like any other group of recorde, have divergent ideas.

More discrimination in the use of the torm kibei, will reflect a sounder democratic attitude.

REPORT MYER EXPLAINS SEGREGATION

(continued from page 1) Accordingly, procedures for a program' of sagregation have been developed. All relevation center residents found not to be loyal or sympathetic to the United States will be moved to the Tule Lake Conser, and those Tule Lako residents found to bo Ame down in their loyaltios on sympathies will be moved to other centors, or preferably, g i v e n permission to relocation outside. The population of the relocation centers after segregation will be composed of those whose interests are bound with the welfare of the United States and who therefore are eligible to move from the relocation conters to outside communities.

The program of segregation is not being undertaken in any sense as a measure of punishment or penalty for those who will be moved to the Tule Lake Center. The War Relocation Authority recognizes t h e integrity of those persons of Japanese ancostry who frankly have declared their sympathy for Japan or their lack of allegiance to the United States.

Segregation offers promise of giving to those evacuees who want to be American the opportunity to live as Americans and to express their Americanism without interference, it should result in increased assurance of harmony in the relocation centors, it should incroase public acceptance of those granted leave clearanco, and thus aid in the relocation of pooplo.

The decisions as to who will be segregated will be made in a spirit of fairnoss and justice. While it is recognized that the (continued on page 4)

MELON SEASON= ICE SHORTAGE

Because of the present ice shortage, the Project residents are asked by H. E. Keadle, mess division head, to conserve ice water as much as possible.

This shortage is due to the usage of ice in great quantities by the surrounding melon farms in shipping the melons, and the ice plants cannot amly supply both the farms and the Project at the same time. But the ico supply will increase in about ton days, when the peak of the molon season has passed, assured Keadle.

Samler Here To Promote OSYA

To discuss possibilities of establishing vocational training classes for evacuees in Rivers, Joseph Samler, national director and supervisor of vocational training, arrived yesterday from Washington to confer with W.C. Sawyer, superintendent of

edication.
Samler is particularly interested in the successful operation of the OSYA (agriculture and trade training) class.

He expects to stay three to four days through Monday, and plans to go the Manzanar center.

in wage rates, the report indicates, there has been a total decline of about 6 percent in the number of hired farm workers throughout the nation, and farmers are concerned over whether enough harvest labor will be available to bring in the crop.

To help relieve, the situation, the report says, farm operators a r e now working an average of 12.8 hours per day -- about threefourth of an hour longer than on the same date last year -- , and the labor supply is being augmented by large numbers of boys, womon, and old men, and by the importation of workers from the West Indies.

The only area where an increase in farm employment was reported was the East South Central States. There an increase in family workers more than offset a decline in hired help : .
