

RUMOR

MOVE GILANS?

Have you heard the rumor? The rumor that Rivers will close?

We are strongly convinced that Gila will not close for one year, at the least, and to back our contention we present an imposing array of facts:

1. As the production center for other centers, over \$1,000,000 worth of food supplies must be raised in Gila to feed other centers; dairy herd will be increased to 100; stock herd to 1,000; poultry and hog projects will be built up; dehydration of food on a large scale has been authorized.

2. Appropriations have been granted by the Congress budgeted to Gila for the fiscal year ending July, 1944.

3. School program is built on a full year's operation; school buildings, gymnasiums, and laboratories have been authorized to be built, held up only because expert help required has not been available.

4. Staff appointments are being continually built up to fill all vacancies.

5. Rearrangements are being made in the hospital for civilian use, for the care of women and children.

6. WRA is committed to the care of people who wish to remain in the centers.

MONUMENT FOR SOLDIERS

Men who have joined the armed forces from Rivers may well be proud of the tribute the respective communities, Butte and Canal, will pay them in the form of monuments.

Plans are being drawn for a blue-tinted concrete monument on which will be placed the names of the boys on raised letter form. In Butte, the monument will be located on the adjoin-

COOP EDUCATION PROGRAM INITIATED; LEADERS PICKED

RELOCATES

Social Service Office At 69-9

The Social Service Section has moved from the administration building to the south half of warehouse 69-9, across from the post office and began operating there since yesterday morning, stated William Tuttle, social service head.

Services formerly taken care of in the ad building and now to be handled in the new office at 69-9 include expatriation and repatriation, public assistance, social welfare cases, special transfers between relocation centers, bus passes to Canal and marriage records.

An education program to acquaint residents with the Gila Co-op and Cooperatives for a while began this week under chairman Ken Kitasako and adviser Ralph Currie.

In a series of section meetings, six section leaders from Butte were chosen this week as follows:

Section 4-Joe Shigozane, section 5-Ben Tsudama, section 6-Akira Kurinara, section 7-George Aretani, section 8-Tosh Kawai.

The section leaders will meet with the Co-op education committee to study, discuss, and advise and will help develop a program to educate residents in the purpose and machinery of the Co-op.

SEGREGATION HEARINGS START; BOARD TO NOTIFY AFFECTED

Segregation board hearings for those who answered no to military registration question 28 and did not change the answer before July 15 will begin at 1:30 this afternoon.

The segregation boards will meet at the following places:

Butte Camp: Two boards at the administration bldg. two at high school, two at grade school, one at rec. office B1.

Canal Camp: Two at

administration bldg., one at high school, one at grade school, one at rec. building 6.

Affected persons were notified this morning, and only a limited number are requested to appear from certain designated blocks. All others will be requested to appear next week.

People who have declined repatriation or expatriation or who have other questions in regard to the movement to Tule Lake will be called in for an interview next week.

Since everyone who has any question as to his future plans will be asked to appear before the review board or leave clearance hearings in the near future, no further applications, or changes of answers will be considered at the present.

Each person will be given opportunity to express his desires before the actual segregation next take place.

OYAMA RELATES EVACUEE LIFE IN 'LIBERTY'

Widely-read Liberty magazine came out with stories of the evacuees in two successive issues this month.

In the August 14 issue, Mary Oyama (Mrs. Fred Mit-twer) writes of her impressions in the Santa Anita and Heart Mountain centers and the attainment of her final freedom in the article "My Only Crime is My Face." She concludes that though evacuation was unjust and the incarceration was illegal, "we have decided that the fullest cooperation with the government is the very best way to prove our loyalty to our country."

A week earlier, Maxine Davis, feature writer, states after visiting Poston that "This is not the lavish luxury we have heard of." Fear, she says, is the predominant emotion of the evacuees. They are afraid to go out and afraid to remain in the centers. She regrets that the policy of the government does not permit these people to do more productive work in the centers.

Her final lines state that the WRA is trying steadfastly and not too conceitly to preserve the Constitutional rights of these people, and that the center is not so bad as it might be.

Issues yet (three, by now, undoubtedly) it has, out of an apparently reactionary Arizona, established its mark as a voice for the liberal causes, principally in espousing the cause of India's freedom.

"Letter" says of evacuees, "There are a lot of Japanese descent, loyal Americans, too, in American camps. We are thankful to say that the government is releasing loyal American Japanese as fast as jobs in non-military areas can be found with responsible employers." Farmers in the Middle-West are very glad to hear this. Many of the Japanese have also gone into the Army.

Editorial:

DUST, HEAT, LIGHTNING, AND RAIN

July and August have brought with it, weather, new and freakish, to our limited experience.

We remember with a sense of awe that day two weeks ago when the dust came swirling in borne by a sudden wind. For half an hour the dust had ferreted out every corner and crevice in the apartments and deposited itself thickly to the dismay of housewives; had brought with it a dusty twilight that had brought gloom to the brightness of an Arizona afternoon.

To a lesser degree that day has been repeated many times since. We have become wary and watch the skies anxiously for the familiar red dust visible for some time before its fury hits the center.

Yet, we have found that the strong winds and the dust are the only pre-warnings of rain we have. They do not always presage rain, not even frequently. But when it rains, it follows a dust storm.

And rain is an anodyne. It brings a past of rain on the green hills of California. It erases the reality of dust and heat. That rain that came drumming on the roofs of the barracks early one morning in strong gusts was followed by two days when sleep came without effort at night, and the air was dust-free.

Dust also brings lightning displays, not invariably, but frequently. In clouds far off or nearby, nature creates dramatic patterns for a timeless moment when jagged bolts split the night's darkness. Thunder accompanies the lightning far into the night rolling its ponderous course along the clouds.

To the rain-conscious and beauty-conscious people, that we are, the dust storms are viewed with a commingling of despair and hope, here in Gila's sun-drenched sands.

MILITANT

ARIZONA MAGAZINE, 'LETTER'

Last week, in idly looking over the magazine racks, we chanced upon a new one, "Letter," published in Tucson, Arizona, by a courageous woman, Ada McCormick.

"Letter" is a pot-pour-ri of letters, opinions, etc. with a definitely feminine mark about it, but for militancy and purpose, it need not take a back seat to any male-edited periodical. In existence for a brief two is-

EXCHANGE OF NATIONALS IN PENDING STAGE

Arrangements are being made for another exchange of American and Japanese nationals at Mormugao, Portuguese India, it was learned at the state department, according to an Associated Press report of August 2.

Last year, the exchange of some 1,500, was made at the neutral port of Lour-enco Marques, Portuguese East Africa.

Officials emphasized that all arrangements have not yet been completed and that neither the list of those to be exchanged nor the probable date of the exchange could be given out at this time.

Mormugao is south of Bombay, India, in the Portuguese colony of Goa.

MILK FOR 12 YEARS UNDER

In correction to a milk shortage story published in a recent issue stating that children 14 or under need no milk permit, H. Furuno, senior steward, issues a statement that milk will be given to only those children up to 12 years old, expectant and nursing mothers, adults 60 years or over, and those on special diets proscribed by a doctor requiring milk. Those in the above groups will receive half a pint at each meal.

At present, 850-900 gallons of milk is daily shipped in from the outside. Normally, approximately 1,000 gallons are imported.

NEW YORK OFFERS PLENTIFUL

"There are plenty of job offers coming into the office, mostly domestic," reports Robert Cullum, relocation supervisor in the New York area. Housing is plentiful and not difficult to find.

Many evacuees can be placed in a large number of small plants located on the outskirts of New York. New York is suffering from labor shortage.

Many good offers have been received in the New

Produce Seed Threshing On

Threshing of part of the \$40,000 Rivers seed crop has begun on the 65-acre field 47 under supervision of Shinjiro Honasaki.

Approximately 9,600 pounds of onion, broccoli, carrots, lettuce, nappa, pea, cantaloupe, cucumber, squash, watermelon, and daikon seeds have been threshed.

The seed farm is an important part of Rivers' agricultural program because of the high cost of seed at present.

The last of this year's watermelon crop was harvested yesterday and this morning. An adequate supply for both camps has been assured.

Gordon H. Furney arrived from San Francisco yesterday to become assistant project steward under M. E. Keadle for the Dute community.

which advocates such a plan.

A resolution adopted by the Northfield post opposes the article "Japs In Our Yard" by Frederick G. Murrery, M. D., for "advocating racial discrimination" and for its proposal to deport Japanese-Americans, "not as a military measure but as a social, political, and economic policy." It protests such action as being in violation of both the Legion constitution and the Constitution of the United States, and urges that the American Legion Magazine print a retraction of the article.

The measure was adopted at the American Legion district convention held in Faribault, Minnesota.

2ND TITLE TAKEN BY TOM EGUSA

LOSING DELTANS BATTLE CARDS

In the worst trouncing recorded in Canal's Major Hardball League history, with a scoring splurge begun by Frank Totsubo, who homed to left, a highly vaunted Roughrider aggression soundly trimmed a worn Deltan nine to oblivion last Wednesday.

With this galaxy of homers by Furuya, Imura, and Totsubo, the Riders gained their foothold, and before the battle weary chucker Muranishi could retire the side, they had collected 5 digits.

With this last 11-2 victory, the Riders cinched the league pennant.

Tommie Egusa hurled masterfully allowing only 2 runs for the Deltans. For the Deltans, Nakano took over in the sixth. In the B league, a sad Ochi ensemble bowed down to a smooth Old Timer nine on Thursday, 10-3.

For the scheduled encounters for the week, the Riders meet the Vikings in their last tussle of the season with the Riders as favorites, tonight. Tomorrow, the Deltans engage the Cards for their concluding encounters, also. The Cards are sighted to down the Deltans.

In the Bs, the Ochis meet the Black Jacks on Sunday at 9 a.m. While the Panthers meet the Old Time players on Monday at 6:15.
