- (b) death of members of the soldier's immediate family,
- (c) circumstances in which, in the opinion of the Commanders concerned, merit special consideration because of the peculiar features thereof, may be referred to the Commanding General, Western Defense Command.

JOLLY CHRISTMAS FOR EVERYONE

A joyful Christmas spirit will predominate in Gila when Santa makes his rounds to each block in Rivers' communities on Christmas Eve.

Three-quarters of the community gifts, donated by national churches and other service organizations, made possible through the national JACL, have arrived and are ready for distribution at the block parties.

Feeling that the children should not be denied the right to enjoy a merry Christmas, the CAS and parents of the community are doing their best to make this holiday a happy and a memorable one for the young people.

COMMUNITY

XMAS PAGEANT

A pageant, "The Spirit of Christmas," sponsored by the Butte Christian Church, CAS, and High School Club will be presented to the public on Christmas eve, 7 p.m., at the amphitheatre.

STOVE INSTALLATION COMMENCES TODAY

BLOCKS 49-54, 16, 9, 22. GET FIRST LOAD

Installation of heaters began today in designated blocks in Canal and Butte, announced Deputy Director Firman Brown.

Five hundred stoves (one carload) came into a siding near Casa Grande yesterday, and they are being hauled into the center to the blocks that they will be installed in.

Brown said that both communities drew lots to determine which blocks will receive the stoves first. In Butte the installation will be by areas. Blocks 49-54 drew the lucky first call Canal drew by blocks and block 16, 9, 22 and 7 drew the first four positions in that order.

Though stoves to equip eight blocks are here now, and approximately 2 1/2 blocks in Canal and 5 in Butte will receive the stoves in the first allotment. In general, Butte will get twice as many stoves as they arrive as Canal, according to Brown.

The next carload of stoves as promised by the United States Engineering Department is scheduled to arrive tomorrow and

every other day thereafter until the order of 3,025 heaters are filled. Transportation difficulties may wreck this schedule, Brown stated.

Placement of oil storage tanks in each block is still incomplete. Brown warned that stoves may be installed, but until arrangements can be made to distribute the fuel oil, pending the completion of the tanks, heat may not be available for a day or two.

'Mochi' Assured All Colonists

Through the generous contribution of the Gila Young Peoples Association, Butte community families will receive one set of "mochi" cakes for New Year's.

Saturday, December 26, under supervision of K. Fukumoto and George Yamashiro, the traditional "mochi-tsuki" will be conducted.

Distribution of the sets will be headed by Victor Inouye, and effected by his committee, I. Maruyama and T. Ota, M. Nakano and A. Kaizoji.

SEPT. CLOTHING ISSUE BEGUN

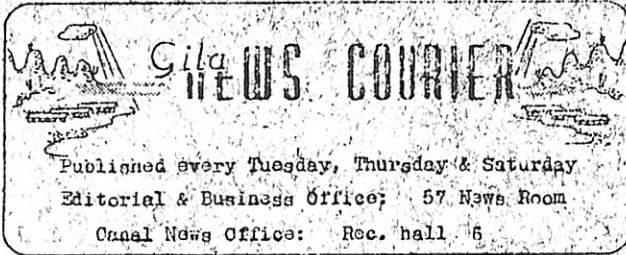

September issue of Canal clothing allowance will be distributed this afternoon, revealed R. J. Slawson, senior administrative officer.

All employees who worked from August 20 to 25 are requested to come to the Clothing Allowance Office, room 20 of the Butte Administration Building to sign up.

Internees May Join Families

Desirous of uniting family groups, the Department of Justice has made arrangements so that wives or husbands and minor children of internees can file applications directly with the Department for permission to join the internee in a family camp under the jurisdiction of the Immigration and Naturalization service, Project Attorney Terry disclosed.

Terry said that this procedure was open to all persons irrespective of whether they are aliens or American citizens, and that those who wish to make an application may contact his office.

Support Needed To Attain Goal

Stressing the importance of the JACL, Nobu Kawai spoke before approximately 50 young people at the University Club meeting of Canal held Saturday evening.

Under the general topic of the JACL and the recent conference which he attended, Kawai stated that the only nisei organization in the United States, at present, which has direct contact with the government and the public, is the JACL. Thus, the League can be of invaluable service to the evacuees in the relocation centers.

He emphasized the fact that the whole-hearted support, financially and morally, by the Japanese people is necessary before the League can accomplish its goal.

"It was a challenge" — SAID DIRECTOR BENNETT

Soft spoken, affable, Project Director Leroy H. Bennett did not, he said, with a twinkle, come to Rivers because it is a good winter resort.

"I came here because it was a challenge to do a job that will benefit the evacuees and the country," he stated. In a matter of policy he disclosed, "I expect to continue the policies established by Mr. Cozzens; for, I believe them to be the best for the community."

Bennett comes to this center with a varied background behind him. After attending University of Michigan, he was an instructor of a metallurgical course for a short time. Next he was in the south as superintendent of shops in a large industrial school. From there, he entered into business, first, in the automobile when autos were still a marvel to people and, then, with an electrical supply and manufacturing concern.

With his background as an organizer and leader, the WRA signed him up as Regional Production Manager in June this year. In his office, he has put in all the manufacturing shops in the centers in his jurisdiction.

ANTHROPOLOGIST URGES FAMILY RELOCATION

"The nisei must discard the cultural pattern distinctly Japanese, and adopt the Western modes if they wish to become an integral part of the American society," Robert Spencer, anthropologist from University of California, declared Friday night in a lecture on "Japanese Family Life."

Spencer spoke to the group of the patriarchal trait instilled in the Japanese individual, which is still evident in the average nisei. He deplored the reactionary tendencies and the lack of progressive-ism which this trait brings out.

The liberal anthropologist, who is engaged in research within the center which is aimed to aid the evacuees in resettlement, said of relocation that "the nisei family will be more successfully relocated than the individual, inasmuch as families can more easily adjust themselves to new environment."

UNPREDICTABLE Y.M.B.A. POTENTIALLY GOOD TEAM

QUESTIONABLE TEAM MAY LACK INTENSE PRACTICE SESSIONS FOR COORDINATION

The Y.M.B.A. cage team is the most highly unpredictable team to turn up in Butte thus far.

A generous sprinkling of great basketball personal is in the roster of Cobby Sugano, Mas Okumura, Frank Fujii, Tots Murata, Yutaka "Kody" Kodama, Shun Ozono, Kayo Kuratani, Fred Tokuyama, Joe Kawata, Richie Ikeda and George Matsuura.

Sunday they played their first "chips down" game but the performance was salty compared to what they are capable of doing.

Even in defeating the Zephyrs 22-18, the boys looked lost at times.

Sugano and Okumura are excellent forwards; defensively and offensively; Fujii is close to sweetest at center; and Ozono, ex-Golden Bear cager; Murata and Kodama are great at controlling backboards on defense.

Lack of team practice for coordination may be the trouble.

Should this team get together, they will just spell trouble for the "Big Three" as they did in Tulare. The Gremlins never beat the Y.M.B.A., then known as Lucky Potters, until they reached Gila.

The Y.M.B.A. lacks consistency or they would be in the "Big Four" and not excluded as it is in the "Big Three".
