Christmas Eve A Merry One

Christmas Eve was a very merry one for the populace of Gila including the youngest and the oldest resident. Among the happiest of a 1-1 colonists on the Eve were the patients in the hospital who were given a program under the co-chairmanship of Mrs. Ruby Kirita and Grace Hagiya. Rev. R. Susu-Mago presided over the program, which consisted of the Christian choir, a prayer by Dr. Douglas, and a Christmas story by Mrs. Douglas.

Fuel, for the heaters already installed in private residences, will be distributed tomorrow in both communities was disclosed by Firman Brown, deputy director. He also revealed the arrival of 1,008 additional heaters.

Two tank trucks—one for each community—will be responsible in distributing the fuel. The Mess Division will furnish one gallon cans for the colonists in which they will receive their oil from the trucks which will stop at convenient locations of each block. These tank distributions will continue until the complete equipment of the storage tanks with pumps.

WIRE FENCES MARK BOUNDS

Wire fences are being put up by the United States Engineering Dept. as lines of demarcation to indicate the bounds of the communities at Butte and Canal from sunrise to sundown.

According to Firman Brown, deputy director, plans call for fences running parallel to the north edge of Canal 30 feet away from the barracks; then parallel to the west edge 59 feet away from the barracks; then parallel to the south side 500 feet away from the nearest barrack; and finally parallel to the east edge 400 feet away from the nearest barrack.

For Butte the south and east fences will be 165 feet from the nearest barrack. (continued on pg. 2)
