People Without

The story of the Japanese and the Japanese Americans -- "people without a country" -- was effectively told recently by Lt. Masayuki Matsunaga, or Eawaii's famed 100th and veteran of Salerno, to the Kiwanis Club of Milwaukee, Wise, and to the Nisci there.

Speaking at the Kiwanis luncheon, at which ho was introduced by Gen. Paul Clemens, an assistant superintendent of the Milwauloe public schools, Lt. Matsungg snid:

"Here, in our democracy, we have a class of people who have been denounced and disowned by their families in Japan for coming to America and who have been denied the rights of citizenship in their adopted land. Yet they are loyal American, heping for an American victory.

. "My parents in Hawaii, I might boast, have con-tributed to making Hawaii the American community it is today. But 'they can nover American become citizers ... In the Heart Mountain relocation center in Wyoming, there is a mother who has given six sons to the service and Whose seventh son has volunteered and is ready to :be. called up. Yet sho can never become one of us."

"The boys in the 100th Mere 200% American, because they were fighting for American ideals, as were mombers of other units, and because they had to prove that they here worthy to be called Americans. I watched many of the men die. The dying thought of each was about making a better life in a better world for the people back in America."

FREEDOM TONG OVERDUE

(Editorial, Milwaukee Journal, Dec. 19, 1944)

After a 30 month exile, a majority of 100,000 Japanese American men, women and children are to be freed from camps where they have been detained and allowed to return to their homes on the west coast.

The army has decided that the changed military situation in the Pacific and a careful checkup of all dotained Japanese Americans has made it safe to change the earlier policy. All those known to be pro-Japanese will continue to be detained. The decision of the army to release the loyal Japanese American comes almost at the same time as a unanimous supreme court decision that loyal Japanese Americans must be freed from var relocation centers. A simultaneous decision justified the original exclusion of the Japanese Americans from the Pacific coast areas as an emergency war measure.

The war relocation authority wisely will not attempt a mass return of the Japanese Americans to their homes, but will aid them to move back gradually to prevent dislocation. This decision to free the loyal Japanese Americans is, of course, right, but long overdue. They should be returned to their homes and their property should be restored in the same condition as then the efacuation was ordered.

If there is dreuble caused by any of the groups opposing the return of the Japanese Americans to their former homes, the United States government should use whatever means are necessary to protect them. If this nation had the power to take them away from their homes for security reasons, it has the power-and the moral obligation-to return them to their homes now that the emergency is declared to be over.

HOOD-RIVER LEGION GETS BLACK EYE

(From the Milwaukoc Journal-Sunday, December 17, 1944)

The Capt. Belvidere Brooks post no. 450 of the American Legion in New York City has invited 16 American soldiers of Japonese ancestry to join the post

after the war.

This notion was taken by the New York post to offset the "black eye" given to the legion when the Hood River (Ore.) post of the legion caused the nemes of the 16 servicemen to be stricken from the local war memorial. Unfortunately, not all of the 16 will be able to take adventage of the invitation of the New York post---because death on the battlefield has already broken the ranks of the Japanese Americans from Hood River.

How can the legionnaires in Hood Fiver look each other in the eye?

DILLON MYER'S MESSAGE

That is my sincere hope--that next Christmas each of you will spend the holiday season pleasantly before his own hearth.
