GEN. DEVERS PRAISES NISEI. Scores Racism

At his first news conference since he became Commanding General of Army Ground Forces, Gen. Jacob L. Devers voiced "unqualified praise" of Nisei soldiers who fought with his forces in Europe, and said he favored using as many Nisci as possible for the Pacific war, both as instructors for our troops and in combat.

Speaking out "sharply" against West Coast discrimination and abuse of Japanese American citizens, the general said, "When the reports reached them on the battlefront...thoy couldn't understand it. They couldn't understand why a domocracy is not a democracy. I couldn't explain it to them, because I couldn't understand it oithor."

Even sc, General Devers related, the anti-Nisei demonstrations back homo failed to affect the fighting spirit of the Nisci in the battle line.

(Editorial from the San Francisco News).

"These former local bors are more loval to the United States than many of the flag-waving, hate-shouting Americans who try to persecute the Nisei."

So said Cart. George H. Grandstaff at Van Nuys, as he visited combat comrades -- wounded Jaranese-American soldiors -- in Birmingham General Hospital there.

442 ND CAPTAIN SPEAKS The captain had just ruturned from the European Theater and was astounded to hear reports of vigilante vongonneo against Nisei on the West Coast. He saw action with the Japanese-American troops -- the famous 100th Battalion of the 442nd Regiment -- all the way from Salerno to Northern Italy. Their conduct, courage, discipline and loyalty were of the highest order throughout the campaign, he declared. The 100th Battalion was the most heavily decorated outfit in the Amorican forces.

Against such testimony as this the narrow-minded, projudiced, trouble-making citizens, deluded by a falso sonso of patriotism, or urged by unreasonin g race hatred, who perpetrate assaults upon returning Japanose-Amoricans deserve on 1 y contempt. And the samo goes for organizations that foster the same kind of bitterness.

Collier's Magazine, giving greater importance to the organization than its activities thus far justify, editorially calls attention to the rise of the Japanoso Exclusion Longuo on the West Coast.

COLLIERS SAYS:

"The Japanese Exclusion League is one thing we could expect to grow out of this war," the editorial says. "We got the Ku Klux Klan, among other things, out of the first World War, and it sold memberships and hoods and nightshirts to a considerable number of hoodlums, infantilo adults, born joinors and chronic suckers. It lived on hatred of Catholics, Jows and Nogroos. The Japanese Exclusion League no doubt will round up quite a numbor of prosunt-day carbon copies of the 1919-25 Ku Kluxers. The whole thing is most regrettable, and something for Americans to be ashamed of."

The magazine finds encouragement, however, in the fact that strong opposition to the Laguo is springing up in areas whore it has been mest active, and concludes with this bit of timely advice: "Influential pooplo up and down the West Coast...can choke off this Japanese Exclusion League business if they will, though it may take a little time and certainly will take some courage."
