CHECK-UP ON Evacuee Aliens Merely Routine

The Department of Justice this week restated its assurance to the War Relocation Authority that routine checkup regularly made by the Federal Bureau of Investigation of an alion requesting a change-of-residence permit implies no reflection on the character of the ali-Justice officials omen. phasized that such an FBI investigation was purely mechanical procedure in the control of aliens of enemy nations.

Charged with administering Alien Registration procedures, the Justice Department cautioned that minor aliens reaching the age of 14 are required to register. Project Directors have been advised to be on the lookout to help such persons avoid violation of registration laws.

WRA, better equipped to offer interpreter service, has offered to cooperate with U.S. Attorney's offices when aliens up for routine investigations encounter language difficulties. The U.S. Attorney's office has been advised that it may request such special assistance to expedite issuance of tranvel permits.

MCLOY BERATES UNIFRIENDLY ACTS AGAINST NISEI

Assistant Secretary of War John J. McCloysaid last week that "Americans everywhere can only do themselves honor condemning any abuse of the full rights" of American servicemen of Japanese descent.

McCley, who was in Rome issued his statement after roading a letter in the service newspaper Stars and Stripes, written by a wounded Nisei veteran of the 442nd Regiment, whose application for membership in a Veterans of Foreign W ars post in Spekane, Wash., had been rejected.

Roferring to the 442nd Ragiment, McCloy said: "Whorever one goes among troops in Italy praise for the battle prowess, skill and bravery of those soldiers is heard."

"They have more than justified every faith which the War Department and the country reposed in them. It really is incongruous that anyone should be called upon to defend the rights of American-Japanes e soldiers who served their country so steadfastly."

The memberwhip of Spokare Post 51 of the Veterans of Foreign Wars rejected PFC Richard H. Naite's application for membership.

100 % AMERICAN

(By Howard Lindsay, Writers' War Board, New York)
"The demands of this war have made no distinction between the various racial origins of our citizons. There can be no longer any boast that one person is more American than another because of the stock from which he sprang or the length of time he or his family has lived in this country. Our pride in calling ourselves Americans today is a larger pride. It draws its strength from our power as a nation, from the achievements of our whole population without division. The victory we will achieve shall have come through our united efforts. No section of our citizenry can feel superior to any other section.

"It is a fact that the majority of our very early settlers were English and Protestant, but they had no mark of superiority over the Catholic settler in Maryland, nor over the French in Louisiana, or the Spanish in the Southwest. The United States has never been an exclusively Anglo-Saxon country. It has not been for many generations a country whose population has been prependerantly Anglo-Saxon. But the myth that a white person with an English name was somehow superior to any other kind of America has persisted. Our casualty lists bear names that are Italian, Scandinavian, Jowish, German, Polish, French, Czoch, Slovakian, Russian, Greek, Armenian, men of every race, and croed. Americans all. Americans whose pride in boing American springs from something more inclusive than family name. No one can assert that an Amorican soldier who has died in the service of his country is less than One Hundred Per Cent American."

"Our investigations so far seem to i dicate that there are numerous opportunities in these cities for evacuee business men," Sushihara stated. "We found almost fifty evacues already established in this area in such businesses as hotels, apartment and reeming houses, restaurants, dry cleaning, food stores, gift and nevelty stores, beauty sa-

"At this moment, the harvest is upon us, and the only way that we know relocation can succeed is for the people to be here to go towork.
