

REGISTRATION OF BLKS. 5 AND 12 TOMORROW

Residents of Block 5 are scheduled to appear for registration at Dining Hall #1 tomorrow morning at 9 o'clock. Residents of Block 12 are to appear at 2 o'clock in the afternoon.

Today, residents from Blocks 4 and 19 were registered.

Starting with Thursday, February 18, the registration will be speeded up so that four blocks will be registered each day. Blocks 23 and 39 are to appear at 9 o'clock in the morning and Blocks 19 and 42 at 2 o'clock in the afternoon.

It was pointed out by Charles F. Ernst, project director, that residents in the blocks already scheduled who, for one reason or other, have not registered may do so at any time now.

In order to assist the residents of each block in preparing material so that they may more easily fill out their questionnaires when they come to the registration table, the administration will have representatives at each block the day before they are to register. All persons may feel free to take up their questions with these special interviewers.

NO MORE HOME REGISTRATION

Claude C. Cornwall, chief of the Employment division, stated today that the registration forms which must be filled out by all resident citizens and aliens alike cannot be filled out at home ahead of time as previously announced. The reason is that forms so filled out have contained so many errors. Arrangements are being made to register those who are ill, either at their homes or at the hospital.

RESIDENTS, NOT WAR DEPT., HOLD ANSWER, SAYS MYER

In a wire received from National WRA Director Dillon S. Myer this morning, answering the resolutions sent him Monday, he pointed out that "the opportunity by which the good faith of the Japanese Americans could be demonstrated makes this their crucial test." His complete answer reads:

7425 VOLUNTEER FROM HAWAII

From among 25,000 Japanese Americans in the Hawaiian Islands between the ages of 18 and 38, a total of 7,425 have already volunteered for military service and the volunteering is continuing, according to the Associated Press. This represents 30 per cent of all of the eligibles in the Hawaiian district.

QUESTION 27 CLARIFIED BY LT. W. L. TRACY

"Are you willing to serve in the armed forces of the United States on combat duty, wherever ordered?"

This is Question No. 27 in the Statement of United States Citizens of Japanese Ancestry, which is being filled in by male citizens over 17 years of age. To make it perfectly clear just what this question means when the answer "Yes" is given, Lt. William L. Tracy, captain of the War Department team, explained today that this does not constitute enlistment or volunteering for service in the Army. He pointed out that this form is only a statement of loyalty and that the person who answers "Yes" is not obligated in any way for military service.

Before the male citizen over 17 years of age can volunteer for military service, he must fill out and sign an entirely different form, No. 165, which is specifically for voluntary induction, and is signed

"The recent announcement by Secretary Stimson was made in good faith. The opportunity provided by this announcement is in my judgment the stepping stone to the attainment of those things outlined in the resolution provided the residents are willing to accept the secretary's announcement and the subsequent statement by the President in good faith. The WRA has urged some such opportunity by which the good faith of the Japanese Americans could be dramatized in such a manner that it might be brought quickly and clearly into the consciousness of the American public.

"This is not the time to quibble or bargain. This is the crucial test. It is the time for thoughtful consideration and decision. Secretary Stimson cannot give the answers to the resolution. That answer will be provided in a large measure by the residents of Topaz and the other relocation centers during this week and next. It is my hope and my belief that they will not fail this crucial test."

BABA APPOINTS ADVISORY BOARD

Tsune Baba, chairman of the community council, revealed at the meeting of the body held Monday afternoon that following his appointment by the Selective Service Board 30 of Millard County as chief registrar for Topaz, he has appointed Saiki Muneno, (Cont'd. on page 2)

in privacy, in the presence of a member of the War Department team.

W.P.B. GIVES APPROVAL ON CONSTRUCTION PROJECTS

Approval has been given by the War Production Board for the construction of school buildings, staff housing and ice storage quarters here, James F. Hughes, assistant project director, announced today. Building materials have been ordered, and some of the roofing, paint, glass and flooring for the high school have already been received.

The present delay in the school construction was attributed to the fact that some essential materials, especially large timber, have not been yet delivered.

Hughes indicated that the building of schools will commence when it becomes certain that the materials will be available as rapidly as needed.

REPORT LOSS OF GOV'T CHECKS TO J.H. NICHOLS

Residents who lose government checks should report the loss to Jack H. Nichols, budget and finance officer, at Administration Building 1. Four copies of a statement will be prepared to obtain a new check.

If the lost check is found before the receipt of the duplicate, the finance officer should be notified immediately in writing, and the owner may then cash the original after approval is secured. If the original is found after the duplicate has been cashed, it should be returned promptly to the officer.

CITY TO HAVE NO MEAT ON 2 DAYS OF EACH WEEK

As Tuesdays and Fridays have been chosen meatless days for the Topazans, fish and similar food have been placed on the menu on those days, Dr. Russell H. WeHara of the steward department stated today. The weekly adult allowance of meat is 2½ pounds, including bones and fat.

It was pointed out that similar shortage of meat is being experienced by the general public throughout the nation because of wartime conditions.

COAST EVACUEES MAY DISPOSE OF STORED VEHICLES

Former residents of northern California who left passenger cars or light and heavy trucks in storage at the time of evacuation and who wish to dispose of them at this time are offered an opportunity to do so through the East Bay Chevrolet Co. of 916 San Pablo Avenue, Albany, California.

Those interested should write to the company, giving location of vehicle, whom to contact, together with full information as to make, model, mileage, condition of car and tires and the asking price. The company will then be able to determine if a potential purchase is in the making.

NEWS BRIEFS

CHURCH: "Atonement" will be the topic of Rev. I. Suyehiro's address this Wednesday at the midweek Protestant service, it was announced by Miss Chieko Nemoto, chairman. The service will begin at 7:30 PM at 32-12-C.

BRIDGE: Schedule of events for bridge fans this week is as follows: Wednesday, 7:45 PM, duplicate tournament, Dining Hall 14; Friday, 7:45 PM, rubber bridge, Dining Hall 13; Sunday, 7:45 PM, duplicate tournament, Dining Hall 12.

BASKETBALL: The Topaz timekeepers' basketball teams defeated the Kinckley High varsity and second teams by the scores of 33-23 and 33-22, respectively last Wednesday at the Hinckley High court.

DRAFT ADVISORY BOARD FORMED BY TSUNE BABA

(Continued from page 1)

Vernon Ichisaka and Masato Maruyama to act as an advisory board.

The duties of the advisory board will be to assist registrants in the preparation of DDS Form 40, Selective Service questionnaires and other forms and to notarize the DDS form. Whenever an advisory board member signs the Selective Service form as the witnessing officer, his official designation will be: "Member, Advisory Board 30, Millard County, Utah."

Masato Maruyama, vice-chairman of the council, who had been a visitor at the Heart Mountain relocation center in Wyoming for the past 3 weeks, gave a comprehensive report on his visit.

TO MANUFACTURE SOY BEAN CAKES FOR TOPAZANS

Pursuant to suggestions voiced by a number of residents that soy bean cake ("tofu") be included in the diet of the Topazans, it was announced by Brandon Watson, chief project steward, that 50 tons of soy beans were procured for the commissary. The Army quartermaster corps has assured the Project of 40 tons of the highly nutritious beans.

Ten thousand pounds of soy beans will be allowed each month for the 8500 people of Topaz as long as the supply lasts, Watson added.

DISCUSSION SET FOR TOMORROW

A public discussion in Japanese will be held tomorrow at Dining Hall 12 from 7:30 PM, it was announced by the Adult Education department.

Topics are: "On the Diplomatic Front," by Hoko Ikeda; "Legal News," by Tsutou Morozumi; "The American Scene," by James Oki; and "War News Analysis," by Karl Akiya.
