PROGRAM FOR ADJUSTMENT OF APTS. PLANNED

In order to provide adequate space for transfers and possible emergencies, the housing department is beginning an adjustment program this week.

"No wholesale scale of moves is contemplated," said Miss Adrian Altvater, head of the housing section, "but we hope to have all adjustments made within the next 60 days.

"Space will be reserved for all persons who are on seasonal and short term leaves, and a reasonable amount of space will be reserved for persons now on indefinite leaves," she added.

It was noted that although over 500 persons have left on indefinite leaves, actually there have been only a few vacancies, leaving many apartments "under-housed".

Residents are asked to co-operate in this program by analyzing their own situations and making suggestions upon which the housing unit can act, it was requested today.

NYA SCHOOL OPENS COURSES; OVER 100 STUDENTS ENROLLED

With approximately 110 students enrolled in 4 different courses, the NYA formally opened its first training sessions yesterday in Warehouse 112.

The power sewing course, which is designed to train students for mass production factory sewing, has 25 enrolled at present and can take on 10 additional students, according to Mrs. Bernice S. Huff, who is acting supervisor of sewing instruction.

MARUYAMA NAMED CHIEF REGISTRAR

Present members of the board are Saiki Muneno, Bob Iki, the Rev. K. Kumata, Vernon Ichisaka, and Susumu Yamashita.

Residents of the City having questions or doubts concerning selective service are urged by the board to consult with them immediately. The board is located at 1-10-D and the office hours are from 9 AM to 5 P.M.

The clerical training course, with Miss Ruth Erickson as temporary instructor, has 46 students, of whom 20 are part-time enrollees.

The class in auto mechanics, with 30 students, was to have commenced today at 3 PM at the Project garage unit, and the woodshop training class at the south end of Warehouse 111 this morning. There is still room for 10 more pupils in the latter course.

George W. Keddington, Youth Personnel representative of the NYA under the War Manpower Commission, now here to supervise the instituting of training, declared that all who have registered for any course should come to classes so that they may be officially enrolled.

HAWAIIANS' SHELL EXHIBIT ATTRACTS TOPAZ RESIDENTS

The shell exhibit sponsored by the Block 1 residents who came from Hawaii last March attracted hundreds of residents at Rec 40 during the weekend.

Included in the exhibit were polished shells of various types and shapes. Among other items were many colorful fish paintings and wood carvings. Because of the lack of any polishing tools, the collectors rubbed the shells on cement surfaces to obtain the shine.

Featured in the display were 2 intricate ship models made in Topaz. One was constructed in 250 hours while the other took 230 hours.

The shells were collected by the evacuees from Hawaii who dug for their shells while passing the time away in their detention camp in Hawaii.

DUST-PROOFING SET AT HOSPITAL

Work will soon begin to dust-proof and further improve the community hospital structures by the US Engineers, it was learned today.

Contemplated dust-proofing measures include the weather stripping of all ward windows, the laying of linoleum floor coverings on the ward floors. Wall boards will be put up in the hospital corridors.

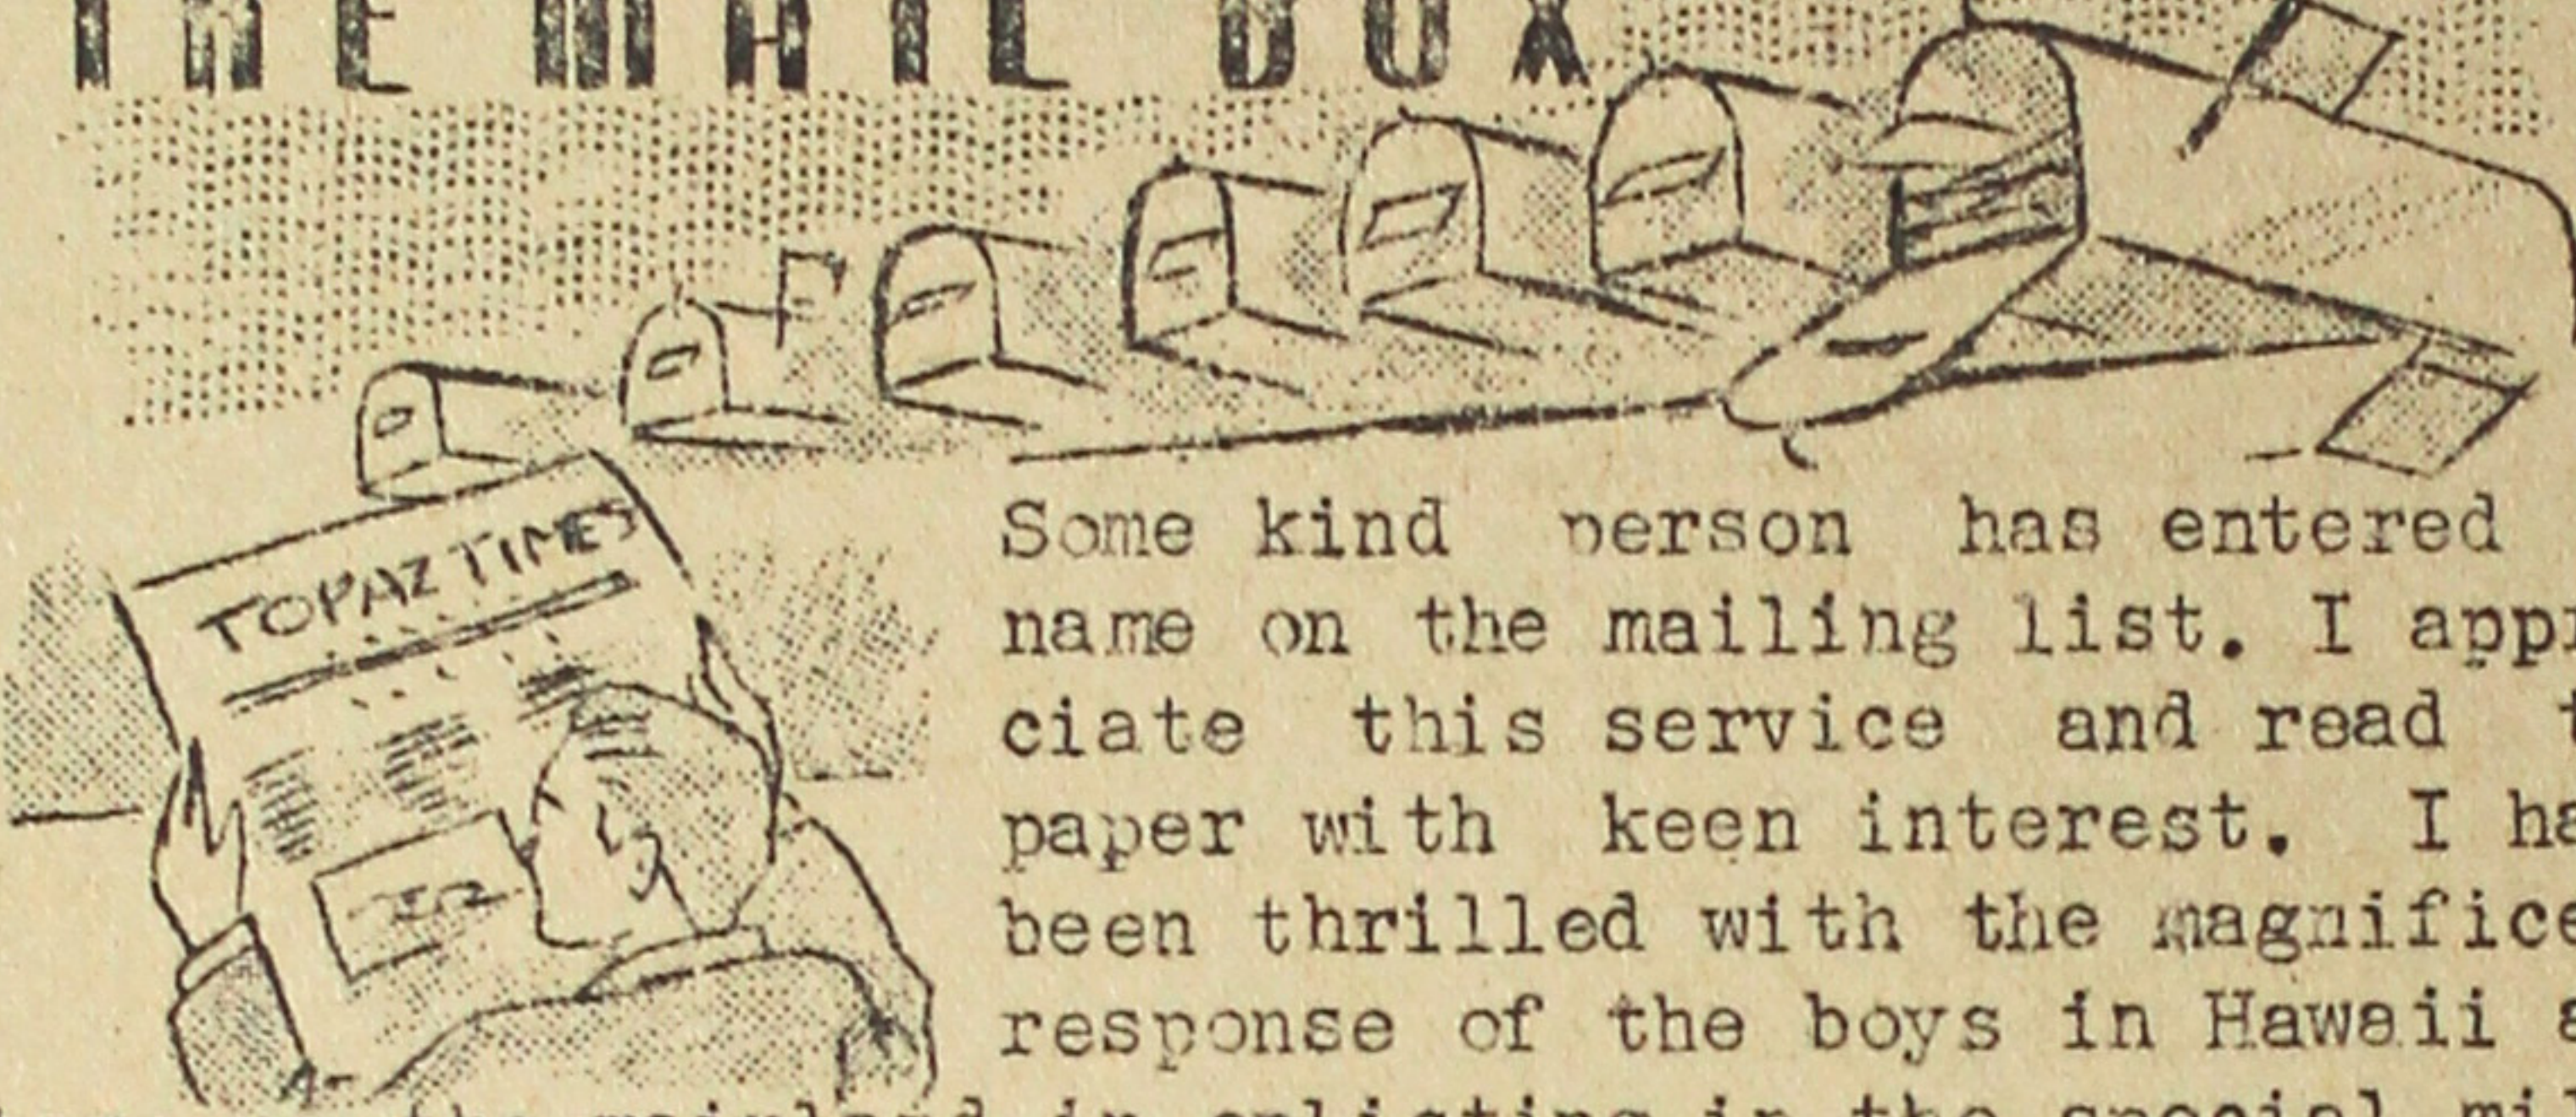

It was added that air coolers will be installed in the wards in the near future.

THE MAIL BOX

Some kind person has entered my name on the mailing list. I appreciate this service and read the paper with keen interest. I have been thrilled with the magnificent response of the boys in Hawaii and here on the mainland in enlisting in the special military unit. In a sense it may seem unfair that they should have to volunteer but there are many things that are 'crazy' about this madness that has seized the world. Their act will stand out as one of the grand exhibitions of democratic patriotism for all time to come and will effectively silence the malign slanders against our citizens of Japanese ancestry.

Many of us on the Pacific Coast look forward to the day when our friends and neighbors will be amongst us once more and I am sure that the tie of brotherhood will be all the stronger for the injustices which have been endured so heroically.

I have a seven year old registered Springer Spaniel which I will give to anyone at Topaz who wishes him. All I would want would be to get him back for a few days for breeding my dog. He is a perfect dope and worthless for anything but a pet.

Frank S. Beckwith, Editor
Millard County Chronicle

I suppose you are wondering what I'm doing in Chicago. Well, I'm on my furlough after two days in the Army. The furlough offer was so attractive that no one passed it up. We were offered rail transportation to any place in the US and from there to Camp Shelby, Miss. We also received \$1 per meal while traveling besides Pullman reservations. I'll spend 3 days in New York City with Kano Arimoto and Sam Tominaga and then 3 days in Washington, D.C. This afternoon I saw Si Saito and Chicky Shigezumi at the YMCA Hotel. I think there are too many Japanese in Chicago. The main trouble is that they all stick around together. It really looks pretty bad. There must be about 70 to 80 Japanese men and women living at this YMCA on Wabash Street.

It sure makes a huge difference when a fellow wears a uniform. Everyone on the train and elsewhere treats you very cordially and doesn't stare at you, and I'm pretty proud of that fact.

Pvt. Sab. Kitagawa

EDITOR'S NOTE: Pvt. Kitagawa, one of the volunteers from Topaz who left with the first contingent, is now in Washington, D.C. His marriage in Washington to Yori Shimasaki, formerly of Topaz, was announced recently.

DESERT Echoes

FAMILIAR SIGHTS

Going to work we encounter identical scenes morning after morning....we see Jiro Nakaso caressing the latest family attachment, a live chicken, and probably thinking of southern fried chicken with each tender stroke....and there's John Towata scar-ing the dust off his porch with vigorous strokes of his broom, and gazing wist-fully after his wife's back as she departs for work and the family bacon.you can't miss Nobby Nabeshima and his polished grin heading for school and another "hard day".... or brilliant Moss Ashizawa, high school prexy, going in the same direction, but thinking of Yale and medi-cine....and, finally, at the office, seeing Wat Mi-ura's resigned flabber-gastedness at the wierd hours he has to record for the TIMES staff....we real-ly miss Volunteer Eddie Iino's act of "breakfast on the run" as he tries to be a hair's breadth ahead of his students for 8 o'clock class.
