RELOCATION INTERVIEWS OF FAMILIES TO START JAN. 3

Interviews with families to determine how the WRA can best assist them in making their plans for the future will start in Topaz on Monday, January 3, it was announced today by Charles F. Ernst, project director.

The first interviews will concern a selected group of 100 family units who have one or more members already relocated on the outside. The discussions will be conducted by ten teams of two persons each, one representative of the resident and one member of the appointed staff constituting a team. Each of the family group selected will be notified by the project director as to where and when the discussions will take place.

At the same time a similar program will be carried on in each of the centers. While every family eventually will want to leave the relocation centers the immediate purpose of the present talks will be to list the various obstacles which stand in the way of relocation and the resources which individual families possess to meet them. This will give the WRA the information which will assist it in developing an over-all long term plan, which will be beneficial to residents of all centers.

Ernst pointed out that there will be no forced relocation and that these discussions with family units are in no way a registration. At the same time, he called upon all residents to co-operate closely with the interviewing teams so that all of the facts may be deter-

minded, thus making possible an early solution of the individual problems.

"As an example of what information will be helpful to WRA in making its plans for maintenance of the relocation centers, it will be desirous to know about any illness in the family; children who will soon graduate from school; whether it is possible for the head of the family to work and what sort of work he will be capable of doing; the matter of adequate financial return within a family group to make it possible to take up 'the American way of life' on the outside," Ernst stated.

"The WRA realizes that there are many reasons why residents of centers have not yet relocated. These reasons, once they are ascertained from the individuals can be looked upon as a problem to be solved and when they are solved, the family units may find it possible to better their situations."

While the teams will work first with a limited number of family groups, it is anticipated that some 2000 such family unit discussions will be undertaken in Topaz.

It is hoped that these discussions will give every resident a chance to find the answers to the questions which have been concerning him as to relocation. — WRA Release

300 ATTEND XMAS VESPER SERVICE

More than 300 residents gathered in the auditorium Christmas afternoon to honor relatives now in the armed services. Rev. I. Kyogo U. was chairman for the vesper service.

Main addresses were given by Rev. J. Tsukamoto in English and Rev. Kyogo-ku in Japanese.

ERNST UPHOLDS COUNCIL'S BAN ON BINGO GAME

The Topaz Community Council has recently enacted regulations prohibiting the playing of bingo and other games of chance in the center. This action of the council is in line with WRA regulations and the laws of the state of Utah.

The council as representative of the whole community, in this matter expresses the collective will of the people of Topaz. The project director concurs in this action by the council and points out the duty of all of us to adhere to these regulations. Adherence to the community ban on bingo and other similar activities means that no public building can be used for gatherings of this nature.

It should be understood that public gatherings in our new auditorium, the recreation halls, the dining halls and other buildings of public nature can only be scheduled upon clearance with the proper committee established for this purpose.

Observance of these rules and full support of our Community Council by everyone in Topaz will help to assure a well-ordered community.

Project Director

COLUMN

BY TULE STARS

With basketball season again taking first place in the Topaz sports calendar, it is quite appropriate at this time to mention a few of the recent stellar additions from Tule Lake.

Several smooth melon tossers have been seen playing on the local courts. From Tule's championship Mikado quintet, winners of the class A crown, are Kenji Hosokawa, captain and guard, Arata "Ziggy" Akahoshi, guard and former OME star, and George Nagasawa, forward.

From the runner-up ranks there are Yosh Matsubara, captain and guard, Rye Kikouan, forward, and Andy Sugiura, center, who will be well received by the numerous local quintets.

These men mentioned above are of class AA caliber and will provide local stars plenty of competition for all-star honors.

The Poster Artists, industrial league champs (strictly class B) are represented by Terry Matambe, Mike Hayeda and Ivey Yoshimura. The Posters set a record of scoring at least 60 points in every game while winning the title. They tallied so heavily that a rule of only 15 points per man was enforced. Anyway, that's what they tell me.

Stan Tsujisaka has improved since he played for the class B Mikado Juniors. He looked good in the Tule versus Topaz games last month, being high point man in two contests.

GYM SHOES

All persons using the gymnasium are requested to use tennis shoes or rubber soled shoes in order to preserve the floor. If residents of Topaz wish to have a gym for any length of time, they should comply with the authorities' request so that the floor can be used for many years.

GIRLS' BASKETBALL

Now that we have a new gym someone ought to organize a girls' basketball league. What do you think?
