SUPREME COURT ADVICE ASKED IN ENDO CASE

Definition of the powers of the WRA in holding loyal American citizens of Japanese ancestry was asked of the US Supreme Court this week in a precedent shattering move made by the Ninth Circuit Court of Appeals in San Francisco.

Instructions were asked on 4 questions raised by Mitsuye Endo's test case which challenges the WRA's stop list procedure.

In their appeal for instructions, the judge said:

"Because of the summary nature of appellant's claim for relief from her alleged wrongful restraint, and of the great public need for decision of the question of the right to restrain many thousands of such citizens in relocation centers, now almost two years since their evacuation from the Pacific Coast areas, this court certifies to the Supreme Court these questions of law concerning which instruction is desired for the proper decision."

STIMSON EXPLAINS PLACING OF DRAFTEES IN INACTIVE STATUS

The following letter from the Secretary of War to Secretary of Interior Harold Ickes explaining the reasons for the use of the Enlisted Reserve Corps in inducting nisei into the army was received here Monday from Leland Barrows, acting WRA director.

* * * * *

Dear Mr. Secretary:

Your letter of April 4, 1944, relative to the transfer of inducted Japanese-Americans to the enlisted reserve corps is acknowledged.

Japanese-Americans now being inducted are transferred to an inactive status in the enlisted reserve corps and called to active duty as rapidly as a sufficient number, usually 250, is available to fill a training unit at a replacement training center. It is not economical in training time or in personnel to train smaller increments and the infiltration of untrained men into trained units retards their training. The transfer of individuals to the enlisted reserve has always been utilized to control the flow of personnel into training establishments or into units when the nature of the flow into the Army was such as to require this control.

The rate of induction of Japanese-Americans is such that it must be controlled to provide an orderly assignment in accordance with training facilities and requirements and the enlisted reserve is the only device which is available. Present training requirements are largely determined by the replacement needs of the 100th Infantry Battalion, 442nd Combat Team and the 1399th Engineer Construction Battalion which are composed of citizens of Japanese ancestry. In general, this procedure will not cause an individual to remain in an inactive status for more than a short time.

The reasons underlying the use of the enlisted reserve corps for newly inducted Japanese-Americans have been explained to the War Relocation Authority and the Selective Service System. The West Coast representatives of the Selective Service System were prepared to explain these reasons to inductees and to local boards in order to counter any unfavorable reactions to the above procedure.

You may be assured that Japanese-Americans like all other citizens being inducted into the Army will be employed in a manner which will best meet the Army's needs in the prosecution of the War.

CALIF. ALIEN LAND LAW CHANGES PROPOSED

Initiative petitions grand trustee of the Native Sons... Initiative petitions for amendments to the California alien land law to prevent alien Japanese from owning California land or boats in the names of their American-born children or other persons with dual citizenship will be circulated throughout California.

The proposal is sponsored by the Japanese Exclusion Association and endorsed by the Native Sons of the Golden West, it was stated by Walter H. Odemar,

grand trustee of the Native Sons.

He said the proposed amendments also would ban such persons from acquiring, possessing, leasing, chartering, or transferring any water craft.

"The fishing industry at Los Angeles harbor was controlled before the war by Japanese," Odemar added. "We want American-owned, American-manned ships. Such laws have been in existence in Oregon and Washington for a long time."

EVACUATION IS PROPAGANDA NEWS FOR JAPAN, NASH

"When we made confetti out of the Constitution and sent thousands of Japanese-Americans--fellow citizens--into concentration camps without due process of law, we handed Japan the finest gift on a silver platter that she could ask for." Such was the opinion of Dr. Vernon Nash, noted journalist, author and Quaker minister, when he spoke Saturday before the University of Utah Master Minds and Artists on the subject "After the War, What?"

"We did not move our Japanese from the Pacific Coast until four months after Pearl Harbor, and a 'pogrom' should have taken place the first week," Dr. Nash emphasized.

"It was only pressure groups that succeeded in getting the Japanese into concentration camps-- a beautiful morsel for Japanese propagandists on our own race intolerance, for use in Asia--without due process of law. And stripping one's right for no apparent reason is the greatest race intolerance--an outright atrocity," Dr. Nash, who spend many years in the Orient stated.

He predicted that as civil rights are restored to Japanese Americans, public authorities, both national and Pacific Coast, would do their duty in supplying protection to the Japanese in this country, and any groups which attempt to use vigilant methods will find themselves under indictment and on trial for outlawry.

JOB OPEN AT SANDBURG FARM

Carl Sandburg, noted poet and Lincoln biographer, is anxious to employ an experienced man to work as goat herder and milker on his farm in Harbert, Michigan, according to a WRA release received here. The applicant must be deferred by the draft.

Sandburg is becoming a staunch speaker in favor of the resettlement of Japanese Americans, the release stated. His wife is one of the nation's better known raisers of dairy goats. Two nisei are already employed on the Sandburg home and farm. One is working as Mrs. Sandburg's secretary and the other is a milker and goat herder.

Interested applicants for the job should write to the Chicago WRA office.

WELFARE SECTION: A number of counseling aide positions are open at the welfare section. Interested persons should see Margaret Mack at 2-9-A.

a resolution Friday deploring the action of Warren County farmers, who, a week ago, forced the departure of five Japanese evacuees, assigned to work on a Great Meadows farm.

Five evacuees from the Gila relocation center were forced to leave Great Meadows where they were employed on a farm, following the posting of protest signs, indignation meetings by neighboring farmers.

At the same meeting, the ministers indorsed the WRA efforts to resettle people of Japanese ancestry who were evacuated from their homes on the west coast. The resolution stated that the members of the conference were greatly disturbed by the citizens' action in denying others the right to work and produce for the good of the entire nation.

The resolution further urged, "We call upon our churches to foster in the communities interracial or reconciliation committees composed of representative Christian citizens to study the situation and work out plans which will lessen the tension and spread the spirit of goodwill."

Air Commando Nisei In India Writes

Staff Sgt. Tom Taketa who volunteered for the army in 1942 from Tule Lake is fighting today in the India-Burma theatre as the only nisei member of the US Army's First Air Commando group, according to an army-censored dispatch received this week by the "Pacific Citizen".

Staff Sgt. Taketa writes from "somewhere in India":

"The first Air Commando group--that name should strike a familiar chord in your minds. I don't know what the newspapers have said about the group and its undertakings, but whatever was written must have made good reading material.

I may be prejudiced because I happen to be one of its members but I assure you that whatever I say about this outfit is with deepest sincerity, and is shared by each and everyone of us.

"Our C.O. is a hard-fighting leader. He's a getter, and that's one of the main reasons that we've accomplished so much in such a short time. Our men are taking the war to the enemy, and I am more than certain that the enemy is feeling the might of our punches. I know it may sound incredible when I say that we're fighting a war of our own, but that's exactly what we're doing:

that is, with as much free-wheeling as we're allowed.

"If we had more outfits like ours over here, I for one am certain that this bloody mess can be put on the shelf in short order. But, as it is, ours was a special outfit for a special purpose, made up of hand-picked men. Co-operation amongst the personnel was the important factor which contributed largely toward making its main objective such a success. Yes, we've accomplished the main part of our assignment, but that does not mean we can pack up and go home. We've just begun and we still have a long, hard struggle ahead."
