NOV 23 RESIDENTS MAY OBSERVE HOLIDAY

Thanksgiving, November 23, is not a holiday for WRA employees but resident workers may take the day off with the approval of their section head and have it charged against their accumulated vacation leave, Project Director L.T. Hoffman announced today.

Those who do not wish to have the day off on tire day or any part of it by making arrangements with their section head.

All employees are requested to indicate their intentions to their supervisor not later than Wednesday of next week.

In anticipation that the majority of workers will desire the day off, dining halls will serve only two meals on Thanksgiving: breakfast, 10 to 10:45 AM; dinner, 4:30 to 5:30 PM.

Appointed staff personnel will work all Thanksgiving, They plan a community dinner at 6 PM.

the Topaz Times pays special tribute to Pvt. Terry Tabata, a former staff member, who was reported this week as killed in action on October 28 in France. Terry was just another ordinary, kid in his ways, nothing special or outstanding-except that he volunteered his life to fight for the ideal's in which he believed with all his heart.

We will always remember him as the one in our bunch who liked to play bridge with us, the one who gabbed sports and everything else with us, and the one who loved to out more than anything else. always knew that he was a volunteer but we really did not think too much about it. We were sure that he would come back.

So the news yesterday was shocking to us-as it. must have been to his family, whose sorrows can never be expressed fully except by those who have had to bear similar experiences.

PLANNING COMMISSION

In planning our future for our families we must decide now whether to return to California or go East to establish our new home. This is, of course, individual problem and a generalized solution is impossible. Those who have property on the Coast, or whose former employers are in need of their services, no doubt think of returning to California.

Besides legal technicalities and political setups the community sentiment is an important factor which we must consider. When the news of a possible return of the evacuees reached the West Coast, some the newspapers have carried editorials against the plan. At this time, we believe it is advisable to write to our old friends, neighbors, former business associates, or our former employers and get more intimate information as to how they feel about' our return. By personal correspondence with the dents of the local community we might obtain more accurate information.

Sickness and misfortung are things we just cannot predict. "Save for a rainy day" is old but still good advice, However, if meet misfortune inspite of all our efforts when we are 'relocated in a certain locality, there are ways of meeting, this situation, Through a special fund ad-Security Board and contriwounded buted to the WRA, provito take care of our illnesses and financial problems after Excellent instituavailable when emergency A letter from Jimmy Hi- arises.
