DISMANTLE CCC BUILDINGS

FOR WRA USE

Seven workers left Topaz last Thursday to dismantle 3 buildings at Black Rock, about 70 miles from the City, according to Clyde Tervord of the Public Works division. Joseph Lee, a member of the Caucasian administrative personnel, accompanied the workers.

The dismantling of the buildings, which were formerly used by the CCC, is expected to be completed early this week. The crew is scheduled to return to the City late this evening.

Two of the buildings are 24' by 60' and may be used for housing motor vehicles, and the third building is 24' by 10'.

On the dismantling crew are Yasuto Kato, George Ujihara, Shigeki Kuwahara, Miles Nakamura, Menabu Nemoto, Saichi Joshima and Yasuka Motoba.

Negotiations for the acquisition of other CCC buildings for use by the WRA are now in progress, said Tervord.

Oral and written examinations were given residents who were believed to be qualified. The oral tests consisted chiefly of listening to and translating sound recordings of short wave broadcasts from Japan.

SANITATION

HAZARDS

Dumping of rags and trash material into the toilets by some thoughtless persons is creating a definite sanitation hazard, it was stated by Wayne Sutton, sanitation engineer of the Public Works division. The clogging of the sewage system is straining the rotor pump almost to its breaking point.

Residents are urged to refrain from disposing of such matter through the toilets.
