

CAMERA RULES DISCLOSED

Until contrary instructions are received from Washington, the use of cameras by Center residents is prohibited, Ray D. Johnston announced today.

Cameras should not be brought in by soldiers to be left with friends or relatives as they will be held as contraband.

There are no restrictions, however, for visiting soldiers, he said.

LABORERS NEEDED BY PUBLIC WORKS

Ten construction laborers to work on the high school ground and 20 to dig waterline ditches in Block 48 are needed immediately, reported Kenneth E. Cole, construction engineer.

Applications are now being taken at the Public Works division office, West administration building.

EDUCATION: CONSTRUCTION BEGINS ON HIGH SCHOOL

Construction of buildings for the Rohwer relocation center high school have started with the laying out of the foundation on school area 21, reported James R. Rhyme, head of the Public Works division, today.

Architects S. Muraoka and Tom Makino are taking charge of the entire construction. A crew of 130 resident workers is now employed on the project, with 450 more construction laborers needed, it was reported.

The junior and senior high school, consisting of 11 wooden buildings, will accommodate 1000 students when completed. On the campus will be classroom

GOVERNMENT CLOTHING ALLOWANCES REVEALED

"Government issue clothing allowances will be on cash basis. No checks, strictly cash," announced Austin Smith, assistant chief of Community Services, today.

According to Smith, all eligible applicants fall into three classes: (1) All regularly employed workers; (2) Persons who are eligible for unemployment compensation. In this category are residents who have registered for work but who have not as yet been employed. The Employment division

will determine the applicants placed in this class; (3) Persons unable to work. They will be given clothing in the form of public assistance grants.

Smith released the following monthly allowances: 16 years and over—\$3.50; 8 years to 16 years—\$3.00; 8 years and under—\$2.00.

Applicants desiring WRA clothing in the warehouses can obtain them later as part of the regular clothing grant. The value of these goods will be deducted from the allowances.

Until all survey cards are returned from the block managers, recorded and filed, no definite date for the first issuance of clothing allowances can be set. It was stressed that all assembly center clothing credits are not retroactive in the relocation center.

CENSUS AND FAMILY SURVEY NEARS COMPLETION, STATES COLMAN

The WRA census and basic family survey, which started last Thursday, is now 75 per cent completed in the blocks, disclosed Registrar J. S. Colman, today.

"As soon as the block-to-block survey is completed, work can be started on

typing and filing of information for use in all departments such as Administration, Employment, Community Service (including cash and clothing allowances), vital statistics and recreation," Colman explained.

LANDSCAPING PLAN IS ORGANIZED

Green grass, vari-colored flowers, tall trees and low shrubs will soon transform Rohwer center from its severity of cottage rows and sere-brown earth to a pleasant park-like residential community.

With the full approval of the administration, landscaping will start as soon as Adeline Lee, arts and crafts leader, and Tad Yoshimine, Berkeley landscape architect, can organize their personnel.

The hospital and the cemetery will receive initial attention, but the entire Center is included in the landscape plan.

"MY GREATEST AMBITION..." STATES RAY D. JOHNSTON

"My greatest ambition is for this relocation center to be the best in the United States," announced tall, slim and genial Project Director Ray D. Johnston.

He was born on June 10, 1898, at Cushman, Arkansas; received his B.S. degree from the University of Arkansas; followed with his M.S. from Iowa State college. He specialized in administrative agriculture.

HOSPITAL RECOMMENDS CURE AND PREVENTION OF POISON IVY

Over 100 sufferers of poison ivy and oak have reported to the hospital in one week.

Poison ivy and poison oak can easily be identified and avoided. Three dull green leaves on a single stem are characteristic of both. One leaf on the end, two other paired about midway of the leaf stem. Poison oak differs from poison ivy chiefly in that the leaves are more deeply notched.

Berries when present are small and dull blue in col-

or. The plant stem is attached to its supports by many fibrous tendrils.

There are over 3500 cures for poison ivy, probably because it is self-curing.

The affected part, caused by poisonous oils, may be washed off with a strong alkali laundry soap.

The best cure recommended by Dr. W. Carstarphen is the application of 5 to 10 grains per ounce of zinc sulfate. Patients are advised to go to the hospital for these treatments.

DAVE KOMATSU, HEAD COACH OF CENTER ELEVEN

Possession of an abundance of football brains as well as natural playing ability made it only a matter of course for Dave Komatsu, a former prep luminary, to assume chores as head coach of the Santa Anita, and later of the Rohwer all-stars. The opening grid tilt between Santa Anita and Stockton, which saw his well-drilled squad consistently outcharg-

ing and outplaying a stubborn Stockton eleven, exemplified Komatsu's competence as mentor.

Dave is an ex-Roosevelt high boy, a three-year letterman in football and captain in his senior year. As defensive linebacker, opponents learned to respect his vicious tackling and blocking. His sparkling play in '40 earned him a center berth on the

All-Southern league team, also winning him second string honors on the tough All-City selections.

In other branches of athletics, too, Dave is tops. In basketball he was rated All-JAU guard in the "B" league, and was reputed for his power-hitting and par-excellence fielding on the baseball and softball diamonds.--Yuk Kimura

ALL-STARS AND STOCKTON SET FOR SUNDAY'S GRID BATTLE

With the intercenter Turkey day football classic with Jerome indefinitely postponed, the next big time gridiron attraction for Rohwer fans will be the clash between the star-studded combine of Stockton and Santa Anita all-stars against another Stockton unit this Sunday afternoon on the high school field.

Using a straight single wing attack, Coach Matsuo "Oki" Okazaki's light but speedy Stockton eleven is built around the running of shift Sanji Teranishi. If the forward wall is able to spring Teranishi into the secondary the Rohwer all-stars are in for a dizzy afternoon because once in the open he is a definite touchdown threat.

Youthful Coach Dave Komatsu is polishing up his powerful three deep squad into precision-like form and has a dazzling offense fashioned under a shifting Notre Dame system. The all-stars are graced with two of the classiest pigskin tossers on the nisei

gridiron, Shiro Sling-shot Mizufuka and southpaw George Kagawa.

With these two blitzkriegering through the air, plus the plunging of Hiro Nakada and a 180-pound line to lead the onslaught; the all-stars are rated a pre-game favorite.

YONE DOBASHI IS NAMED DIRECTOR

Yone Dobashi of Los Angeles was named director of women's athletics for Rohwer relocation center, it was announced by the athletic department.

Assisting Dobashi will be Barbara Inamasu and Grace Hagio of Stockton and Masae Horibiri of Los Angeles. Mary Yoshimoto of Santa Anita was appointed secretary.

ATHLETIC OFFICE MOVES

EDITORIAL

THANKSGIVING, 1942

The origin of Thanksgiving, one of the most traditional heritages of America, antedates to 1621 when the Puritans celebrated their first harvest year in the New World.

However, it was not until 1863 that Thanksgiving day was made a national holiday. During the bitter days of the Civil War, Lincoln proclaimed as follows:

"Needful diversions of wealth and strength from the fields of peaceful industry have not arrested the plow, the shuttle or the ship. The ax has enlarged the borders of our settlement and the mines, as well of iron and coal as of precious metals, have yielded more abundantly than heretofore. Population has steadily increased notwithstanding the waste that has been made in the camp and the battlefield." (F.L.I.S. Press Release)

We who are racially Japanese and culturally American may pause and dwell on the many past years when our Thanksgiving was one of real thanks -- without the inconvenience of war.

But the sweeping thunderstorms have torn away the roots of our economic foundations and at this moment we look back upon a chapter in life that has affected all of us. We have witnessed the homestead, the fruit of many years' labor, washed away on the waves of evacuation, and we have felt the full impact of the words-- "necessary measures of war."

Although the nation is again engaged in a bitter war, just as President Lincoln found something to be thankful for, we can give thanks--to our spirit and patience that have made us endure the hardship of mass migration; to the unity that still exists in our families; and to the postwar future when with our rights fully established we may again live the normalcy that is the constitutional gift of every free American.--B.S.
