These figures contradict the prevalent belief that the number of women exceeds that of men among nisei.

NO FLOOD DANGER, SAYS RHYNE

"Adequacy of levees in conjunction with the recent out-off in the Mississippi river will preclude any possible flood in Jerome and Rohwer centers," stated James R. Rhyno, head of Public Works division, yesterday.

"Although the Arkansas WRA projects are in the Mississippi and Arkansas river flood areas, there is no danger of floods because the levees are more than adequate for protection," Rhyno emphasized.

18-WEEK SEWING COURSE BEGINS

Sewing classes will start Monday at 9 a.m. in Mess hall 42.

Students who have already enrolled will be called first. All others interested in the 18-week course approved by the State department of education may register on the waiting list from Wednesday in Mess hall 42.

PIGSKIN SKIRMISH

ALL-STARS HEAVILY FAVORED

Gridiron takes the weekend sport spotlight again as the second major football tussle of this Center is slated for tomorrow at 2 p.m. with the Kohwer eleven engaging the newly formed Stockton squad.

Entering the contest as favorites, the Rohwer team will feature diversified power and aerial plays. With many versatile players on the roster the offensive and defensive duties will be capably fulfilled. Passing chores will be divided by George Kagawa and Shiro Mizufuka, while spearheading the ground attack will be Hiro Nakada.

Regarded as the underdogs, the Stocktonians are determined to score an upset. Speed and deception will be employed to baffle their heavier opponents. The nucleus of the plays will form around tailback Sanji Teranishi.

Halftime attraction will be the six-man, 100-pound touch gridfest under the supervision of Art Hisaka and Sus Yasuda.--T. Nakamura

NISEI BACK STARS FOR LSU TIGERS

NEW ORLEANS -- A nisei grid star, Joe Nagata went to town in New York city as he helped the powerful Louisiana State University Tigers to a one sided win over the Fordham Rams 26-13 in an intersectional game on November 7.

Left halfback Nagata set up the winning touchdown when he snagged a pass on the Rams' 14-yard line and then scampered over for the score standing up at the famed Polo ground.

LIGHTWEIGHT FOOTBALL BEGINS TODAY

Lightweight tackle football will be ushered in today at 2 p.m. on the high school gridiron, when the speedy Santa Anita eleven clash with the Stockton Babes.

Flashing a single wing system, the Northerners are

mentored by George Uyeda, former Stockton high star.

Coach Seiji Isomoto of Los Angeles' Dorsey high is drilling his Santa Anita squad under the pattern of the Notre Dame system and will enter the tussle as a sure shot favorite.

EDITORIAL

LIMITATIONS HINDER SCHOOL

The Rohwer project school system completed its third week of classes yesterday. In spite of limited facilities, equipment and supplies, the Education department has adjusted its curriculum to make maximum use of them.

The major drawback of having no school buildings has been offset by the use of empty blocks while other shortcomings have been overcome by the zealotness of Superintendent Trice and his capable staff members, Helen Frasier, Dr. Mildred Silvers, Nat R. Griswold, William M. Beasley, John T. Bledsoe, Opal Albright, and Merrill H. Ziegler.

The work of Caucasian teachers and student instructors has been excellent inasmuch as they are struggling with overloaded schedules.

It is not to be assumed, however, that every inconvenience has been minimized and that improvements have been thoroughly completed. Some students of high school age have not as yet enrolled while all necessary school equipment and books have not arrived.

One of the chief handicaps will be for the Caucasian teachers to understand the behavior of the nisei students who differ in certain respects from the pupils that they have taught in the past.

In conclusion, the Education department must be commended for its work in the adult division as well as the elementary and secondary schools.

Heart Mountain.....

"Is the Sentinel the people's paper, or is it an administration mouthpiece? ...To those who believe the Sentinel is a mere mouthpiece, nothing we might say in rebuttal would have any effect. From those who have a bit more faith we would ask assistance in making this a more truly community newspaper....If there is just cause for criticism, it will appear in these columns. This will apply to evacuee personalities and the policies as well as those of the administration".....Heart Mountain Sentinel.

The U.S. Weather Bureau will establish a station in the center...Records are to be sent to Salt Lake city for publication as part of the monthly and annual weather summaries.

Minidoka.....

"A lot of people are talking about the guard towers and barbed wire fences, but nobody is doing anything about it. So the Fair Labor board is going to take some action soon to oppose them".....stated George Takigawa, executive secretary of FLB. He concluded, "We won't take it sitting down. It will undermine our confidence in the WRA.".....(Minidoka Irrigator)
