

# Warning by Fire Dept. No Influenza Epidemic; Preventive Measures Given

## FIRE WARNINGS!

Remove all woods, trash, papers, and any other inflammable materials around the stoves.

Keep all fire extinguishers inside of the buildings because of the extreme cold.

Extinguish all outside trash fires because of high wind.

Evacuee Fire Chief  
Nobuo Morimoto

With Christmas near and many decorations, we like to stress about our home to bring joy and cheer. Let us not forget that these decorations are highly inflammable and must not come in contact with any kind of heat such as light fixtures, extension cords, open switches, open flames from candles, lamps, or any kind of heating devices. Christmas tree is considered a decoration.

Wishing you all a Merry Christmas and a Happy New Year.

Rohwer Fire Dept.

## Visits Made by 3 WRA Officials

Three WRA officials from Washington, D. C., made their routine visits to the Center this week. They were Dr. Lester K. Ade, WRA education consultant; William Hoffman, fire protection adviser; and Robert Lows, supervisor of sanitation.

Dr. Ade advised and conferred with school officials and addressed the entire faculty and the Vocational Retraining committee Thursday on the subject, "Education's Part in Relocation."

## Notice!

Because of the Christmas holiday, the Wednesday and Saturday issues of the OUTPOST will be combined into a single edition next week and delivered Friday.

Dr. Wayne Ramsey, chief medical officer, yesterday assured Center residents that no influenza epidemic exists here as yet; however, since a number of cases has been reported, residents were warned to be careful. They were asked to take special preventive measures, because of the necessary congested existence here and the lack of adequate hospital facilities.

## HOLIDAYS FOR LOCAL SCHOOLS

Schools will close for the Christmas holidays at the close of school day, Dec. 22. Classes will be resumed at 8:30 a.m., Monday morning, Jan. 3.

The various Home rooms and Club groups within the schools are planning special assemblies and programs for Wednesday, Dec. 22.

The first semester will end next year on Jan. 14, and the second semester will begin Jan. 17, reported Superintendent J. Trice.

## MONDAY, FINAL SHOPPING DAY

No Christmas shopping will be done after Monday by Center residents, stated Project Director Ray D. Johnston.

This is in order to comply with requests made by merchants of McGehee that the last four days be left for the shopping rush of McGehee and near-by communities.

## M.I.S. TEAM

The recruiting team from Camp Savage, Captain Paul P. Rusch and Technical Sergeants Ronald T. Chagami and Morio Nishita, will be in the Center Monday and Tuesday.

All nisei and kibel wishing to volunteer for the MIS language school are asked to see them on these two days at the Leave Clearance room in Ad. Building 2.

On Monday night at 7 o'clock a general meeting will be held at 31-10-B&C. Captain Rusch, formerly a teacher at the Rikkyo University at Tokyo, will be the main speaker. Residents are invited.

The sickness resembles a common cold, and should not be taken lightly. Symptoms are as follows: (1) slight fever; (2) generalized ache all over; (3) slight coughing; (4) ache in the upper part of the respiratory system.

"Hardly any known cure exists for the contagious disease; the only solution being to prevent further spreading. Residents are warned to stay away from influenza patients," he said.

Those unfortunately stricken with either common cold or influenza were advised to do the following: (1) take lot of liquid; (2) get plenty of rest; (3) keep warm.

"What are the three Bs of music?"

"Bach, Beethoven, and Brahms."

"Nopell!"

"The boogie woogie, the Blues, and the brass bands!"

--anon.

Music, music, music... It's funny, this thing called music... Just an intricate arrangement of notes, yet it has a strange power to enchant, and also to soothe the restless feelings of the day.

Just a few months ago, while working on the canal, we had our luncheon on the levee one day. It was warm, not a cloud in sight, and the buzzards were soaring lazily in the blue sky. Below me was a cotton field. 'midst the green leaves and snow-like cotton, a family of negro was working. Somehow, this scene interested me... it was like a dream picture--half clear, half obscure. It was funny why this scene interested me, for 'til evacuation, my life was the seashore, with the breaking surf and flying spray. I have never known the beauty of a rural scene or of a rural life. Then from nowhere I seem to hear the strains of Foster's music. Something which I had learned in the grade schools. I have always liked it whether it was the "Swanee River" or "Old Black Joe." But a certain something was always lacking. Then here, overlooking a typical southern scene, I seemed to feel a revived beauty of the songs. I have only seen cotton fields and such in geography books, but here was a genuine picture. I had to come and observe a real scene before I got the real meaning.

In our relocation life, the same holds true for us. The same has held true in the past, but by the authorities seeing only part of our picture, we, the Japanese Americans were

thrust into a heretofore unknown type of living for a citizen. After Dec. 7, 1941, on the Pacific coast, we were looked upon as potential enemies and immediate menaces. Were these things true? Why were we evacuated...was it really a military necessity or was it sheer economic jealousy on part of the California residents? Did these people feel sorry for us or did they take pride in their acts, thinking themselves to be the right hand of the F.B.I.? Did the various officials who ransacked our homes and made necessary such an inhumane evacuation such as Terminal Island; did it from necessity or for sports or to stay on the government payroll? The recent survey of So. Cal. showed that So. Cal. does not want us. WHY??? That is a big question. Could the following be part of the answer?...

In the great metropolis of the Golden West is a certain mayor. He is a man of much knowledge and influence. It is no doubt that he is educated. Before the war he showered the Nisei with sweet words and praises, especially during Nisei Week. How industrious we were; how progressive we were; and all in all we were "angels." Then Pearl Harbor...and his mask was taken off! His sympathy made a sharp "U" turn! We were "devils" and everything else, except angels. We were angels with broken wings, fractured skulls, crushed ribs, dislocated vertebrae; internal hemorrhage, and a framed up inferno records! We were just a cluster of heavenly wrecks. I have never been able to fathom this.

Then there were and are various committees and other leaders like our friend, Mr. B....! But do not facts show that these people do not see the full picture; that they have only seen half or less of our picture? Our merits as good citizens can be shown clearly by the recent

# UNBEATEN JOKERS MEET DEVILS

## Blue Devils Seek First Win: Y's Perfect Record At Stake:

The Los Angeles Joker Y's undefeated and untied record will be at stake, when they face the ever dangerous Blue Devils this afternoon, at 2 o'clock on the Senior high school field.

The Joker Y's will go into today's game, a slight favorite to hand the Blue Devils' their fourth straight league defeat. In their previous meeting, the Y's

capitalized on a block punt to eke out a close one touchdown triumph. If the Jokers come on top today, they will stretch their league lead to one full game over the idle and second place Broncos. But on the otherhand, if they lose to the Blue Devils, they will be tied for first place with the Broncos and next week's final league game between these two teams will decide the championship.

This game with the Joker Y's will conclude the lightweight league season for the gallant Blue Devils. The Blue Devils who have yet to taste a victory will enter today's game with an injury-riddled squad.

In Sat Oune, the Blue Devils have one of the finest running back in the league. With his blazing speed and a good change of pace, topped with his elusiveness, he will be called on to do most of the ball carrying.

If the Blue Devils' ground attack fails, they will take to the air lane, for they have the best passing offense in the three team loop.

The three-deep Jokers will have one great advantage over the reserve-less Blue Devils and that is their ample supply of manpower. Their first string replacement is just as strong, so when the reserve plays, the team is not weakened to a great extent.

If it rains Saturday, the game will be played on Sunday.

plays the team ran ramshod over the helpless visitors with comparative ease.

For the fairer sex, the local lassies also managed to wreak havoc upon the visiting girls by coming on the top in their tussle. The smooth performing girls are coached by Mary Nakao.

(Continued from Page 3) statements of former Ambassador Grew. We had bitter experience, but they are all things of the past and cannot be helped now. But now the Nisei race is on the verge of again re-establishing themselves. In the future, the Nisei should take a firmer stand and fight to keep our rights. We should make propositions to suit us, not them. And to some people who doubt us because they do not know our problems, I say "investigate our records, know the facts, see the picture, before making remarks about us." And to those politicians who thinks that, in a course of human events, it becomes necessary to cheat once in a while, as they did the Nisei, I have this to say..."Even fools are hard to fool twice,"
