## Fuel Problem Awaits Results As Center Recalls Employees

At the last meeting of the Block Managers the problem of fuel was lengthily discussed again.

Due to bad weather conditions and wet grounds, block lumberjacking has been temporarily curtailed until it can be resumed again when weather permits. Administration notice has been sent to all blocks notifying that all employees return to their respective position for the

time being.

Furnishing of coal to relieve wood shortage in many blocks has been reassured by the chairman of the fuel committee, and few blocks are already receiving their allotment of coal. The distribution will be left up to this committee.

Block lumberjacking will probably continue again depending upon the outcome of Block Managers' meeting which is being held today.

There are, at present, some 500 relocated people mostly young Nisei, and most of them are making

good, especially those who have a profession. The sentiment is very good since this State is made up of Cosmopolitan population. The outlook of the Labor Union to the relocation individual is extremely unbiased and due to their initiative are promoting goodwill.

## ART OF SHAKING HANDS.....

Shake hands your hand grip, that's the key to success of your personality, your future,---in fact some people need a key to open a tremendous grip--handcuffs.

Well anyway, the handshake is one of the most intricate of your bodily functions, requiring the most accurate and synchronized coordination of your biceps, triceps, and the phalanges. To say nothing of other numerous parts, deltoids, trapezius, all acting harmoniously from the works of tendons and the ligaments.

Getting on with art of hand shaking, there's "shake well before using" type or a delapidated version of an oil well. No doubt they're glad to see you, but there is a limit to human endurance. Best method for this type is to yell "gushes" before your arm falls off from sheer exhaustion.

Then there's the "limp cod or the dead fish" type. They just stick out their hands in the most frigid way expecting the opposite party to do all the work. Next time suggest to them "Vims" tablets.

Of course there's always the "crushing" grip type. Either they're unconscious of their tremendous physical strength or they're just exhibitionists. They grip, grip your hand like bar-bells and when they release you, that mass of flesh and bone known as "meat hooks" (your hand,) isn't the same as it was before it went into the "passionate" grip. My suggestion for these people is to carry around a lead pipe, bend it before an amazed onlooker, then shake hands.

The final type is the "lovers" hold. Since this is a mystery yet unsolved to this writer,....

In all the hand shake is the key to your future.

## ATHLETIC ITEMS STILL AVAILABLE

The Athletic Department has urgently requested that if any club or individual is interested in purchasing basketball equipment for the coming season, to do so immediately.

Out of the first shipment which arrived a week ago, the following articles are still on hand, numbered jersey and pants, various colored T-shirts, and one set of basketball goals.

Leather basketball shoes and traveling jackets will be on sale in a few weeks.

The above mentioned articles are available at the Community Activities office in Block 32.

## BUSSEI CASABA LEAGUE TO OPEN

The second annual Rohwer Young Buddhist Association basketball tournament will probably get underway in the early part of February.

Definite plans will be made at the next Y.B.A. meeting.

Last year's tournament was copped by the Lodi Golden Avalanches.

## PING PONG TO GET UNDERWAY

All teams interested in entering the Center-wide Ping Pong tournament are urged to sign up immediately in reply to the second call.

Teams entered so far are: Ping and Five and the Rambling Wrecks.

## Fire Chief Leaves

(Continued from Page 1) all centers and also Rohwer will lose another fine person who has been very cooperative, congenial, and an efficient organizer. He was the successor to former chief Hays Miller and has been with the department since June 19, 1943.

Mr. John F. Maffes, who has been an assistant to Jones, will be the acting Fire Chief.

## MISS MADIGAN VISITS CENTER

(Continued from Page 1) and winter season is similar to that of Seattle, Washington.

Miss Madigan has been in this Center since early January and will remain until the end of the month. Those who are interested in offers may see her at Mr. H. L. Abbott's office in Ad. building 2.

"To fall apart or not to fall apart." I guess that is about all so don't forget to keep your hands smooth....Nope, I'm not going to suggest "Hinds Hand Lotion", that'll be a plug for the canteen.
