WRA TO STORE PROPERTY OF RELOCATED EVACUEES, SOLDIERS

WRA will provide storage space for property left in the evacuated area or in a Center by an evacuee who either relocates or is inducted into the armed forces as long as West Coast exclusion remains in effect, according to word received from Washington by Project Director Ray D. Johnston.

The recently revised regulations further indicate that although WRA will assist in moving the household, personal and commercial property of evacuees going out on indefinite leave, it cannot assume responsibility for the storage or care of a relocated evacuee's property at the point of relocation. This includes property of evacuees who were inducted after relocation.

The revision also stimulates that an evacuee who has been inducted into the armed services, and who desires to have property he has left at the Center or on the West Coast stored for him by WRA should designate some person to represent him in dealing with the Authority.

DEFERMENT PROCEDURE FOR ESSENTIAL WORKS: 26 OVER

Dillon S. Myer, WRA director, has released steps to be taken by nisei over 26 years of age in essential work.

Any case brought to the attention of headquarters will be investigated but everything possible should be done first to straighten out the case with the local board.

The steps are: 1. The employer should send a request for deferment to the local board. 2. If within about ten days, no reply has been received from the local board, a second letter should be sent by registered mail, calling the attention of the board to the fact that the first

JEROME ADV. TAKES OVER

"The outlook on relocation at Rohwer is much better than it was in Jerome," was the compliment paid to residents of this Center by Young M. Orsburn, former relocation advisor of Jerome relocation center, who has been transferred to Rohwer to interview and counsel individuals and families, and to help them devise relocation plans. As relocation advisor here, he will also keep residents posted on current job offers on the outside.

He was a science teacher, then became housing sup't.; ass't. welfare counselor; relocation advisor; and acting relocation officer in

communication has not been answered. 3. If the board continues to ignore the request and the induction of the nisei is ordered, an appeal should be filed with the board. This, also, should be sent by registered mail. 4. If the West Coast board complies with regulations, the case will then be referred to the board in the community where the evacuee is living. If it is not referred and the case is a worthy one, all facts concerning it should be sent at once to the Director of the WRA, Attention Reports Division. The matter will then be taken up with the National Selective Service Office.

New Rule Leaves Extra Points

Revision of WRA distribution regulations on rationed foods, as indicated in instructions received this week from Washington, are expected to provide additional benefit to Center residents.

Hereafter the quotas which are allotted for rationed foods during specific periods, but not actually used during those periods, may be carried over and used at a later time. As consumption of rationed foods drops off considerably during summer and fall months when Center-produced vegetables and fresh fruits are available, ration points accumulated during this time will be of substantial assistance in less productive months.

Revised OPA quotas for civilian consumption will now be in effect at the centers.

442 SPEARHEAD DRIVE IN ITALY

"The 442nd Regimental Combat Team composed of American soldiers of Japanese origin is participating in the Fifth Army's attack along the west coast sector of Italy toward the port of Leghorn," it was announced officially by an Associated Press Dispatch of July 10.

"This force with tank support smashed into enemy positions in the face of determined resistance," said an Allied spokesman. "Spearheading the assault was the 100th Battalion, a unit which has performed brilliantly throughout the entire Italian campaign," the dispatch stated.

CHARLESTON, West Va.
 This is a southern state with a bit of northern flavor. West Virginia was one of the original southern states. But in recent years it has broken away from the tight-knit, southern political bloc and aligned itself with the northern. For instance, the state is much closer to Ohio than it is to Virginia, Kentucky, or Tennessee.

INFLUENCE
 This conversion, while not radically changing the traditions of the aristocratic south, has, nevertheless, resulted in lowering some racial barriers. Negroes can ride the busses (Charleston has no street cars) here without sitting in Jim Crow sections. Such a practice would be unthinkable in most parts of the south.

ENCOURAGING
 Negroes are not allowed to eat in restaurants or soda fountains. Yet my first night here I took a young Negro minister into the Greyhound bus terminal, sat at the fountain, ordered cokes, and was served. Not an eyebrow was lifted, not a stere or a voice signified any protest by the other customers, employees, or the management. Next night we tried a drugstore fountain, and we were served promptly and pleasantly.

RECREATION
 Negroes are not allowed to patronize the theaters and may only attend their own movie house. But here again local Negro and white leaders are working on the problem. Some sort of a compromise solution may be worked out one of these days, whereby Negroes will be admitted if they seek admittance but will be neither encouraged nor discouraged.

TWO NISEI HERE
 There are two other nisei here besides myself (there are no issei). Both are doctors at the Charles-

 ton General Hospital. One, George Miyakawa, is the chief medical officer there, while the other - I'm told his name is Tsunokawa - is an interne. Both are respected and liked, but they are rarely seen outside the white walls of the hospital. My Christian friends in Charleston are rather disappointed about this, as they would like to see more of them.

INCIDENT

The reason more evacuees have not resettled here is due to an incident that occurred here a year ago. Dr. Leonard Rigglemon, president of small Harvey College here, wanted to have nisei students enroll at his school. The students heartily approved of it. But a couple of local

RESIDENTS WARNED TO LEAVE MIGRATORY BIRDS ALONE

Center residents are cautioned by WRA against violating federal regulations covering the capture or killing of migratory birds.

Under provisions of the Migratory Bird Treaty Act, it is a criminal offense to hunt, capture, kill, sell, buy or transport any migratory bird protected by treaties with Great Britain and Mexico. A list of such birds may be obtained from Project Attor-

ney L. S. Forrest.

Officials of the Fish and Wildlife Service indicate that some Center evacuees have unknowingly captured birds protected under those treaties. The birds must be liberated immediately or evacuees possessing them will be subject to a fine up to \$500 and or imprisonment up to six months, as provided by the Migratory Bird Act. Centerites are urged to take notice.

businessmen, whose influence was as wide as their thinking was narrow, got wind of it, raised a rumpus, and had the papers play up the issue.

RESULT

Upshot of it all was that Dr. Rigglemon, through pressure from various sources, was forced to withdraw his invitation to the nisei students. Before doing so, he wrote a bitter piece for the newspapers, decrying such ignorance and narrow-mindedness on the part of men so prominent and influential in local affairs. The nisei have a champion in Dr. Rig-

glemon, and my guess is that he isn't through yet. **FOREIGNER**

I'm the first Japanese most of these people have ever seen, much less listened to or spoken with. Yesterday, after my talk at the Human Relations clinic, I stopped outside to find about 30 children waiting to have a look at me. Word had spread thru the neighborhood that a Japanese was here. One little boy was bolder than the rest. He asked: "How do you like the United States?" "Might be improved, son," I told him, seriously.

ROHWER TRIUMPHS T. KAMIBAYASHI SPARKLES ON MOUND; WINS OWN GAME

star pitcher Ted G. Kamibayashi, who kept the Densoneers scoreless till the last inning when Archie Yoshida of the losers, gained a double and came in on George Toyama's fly which was a hit to right field, making it their one and only run. Tod is also credited with two hits and a double which was gained through the error of Denson's star center-fielder Yas Chono, who had his off-day.

Young James Tsukamoto, 15 year old pitcher for the Densoneer, hurled steadily throughout the game, with A. Yoshida receiving his curves.

Baffling the spectators and their opponents in the 8th canto was the spectacular squeeze-play execu-

ted by two of the top-notch players, Frank Kamibayashi and Sammie Ichiba.

Thrilling the fans with triples were Sambo Kamibayashi, Sammie Ichiba and Julie Nishimoto of the victors while George Toyama was the only Densoneer to collect a triple.

POWERFUL BRONX TAKEN BY BLK 9

The up-set game of the American league was played Saturday evening, when the Block 9 team trounced the mighty un-defeated co-champions of the Independent league, the Bronx, to a mere score of 4 to 1.

Mac Oshita of the winners pitched throughout the game with his change of pace hurling, allowing 5 hits.

Limiting the Block 9 with only one-hit, Yuk Kimura of the Bronx pitched uncontrollably from the 2nd inning on, walking 7 players, which gave the game to Block 9.

Credited with hits are the usual heavy sluggers, Frank and Sambo Kamibayashi, George Matsui and Sammie Ichiba.

W. Nuiibo of Block 9 was the one and only hitter.

The Federal League, now in full swing is composed of the Nagatos, GA-JIHO, Ad-Personnel, Kongo and Yamato.
