Arky

Local camp people awoke
one morning this week,
shivered a bit, and hasti-
ly donned their warm
clothing.
For, after two weeks
of warmish, short-sleeve
weather, Old Man Winter
made a brief, belated
comeback, forced less hardy
souls to hurriedly
dig out their flannel
undies that they had al-
ready packed away.
But for center resi-

the pesty, dive-

which were threatening

charge from the U.S. Army.
Last month his invalid
father, mother, and two
sisters left this Center
and joined him.
One day last week, as
they were barely settling
down after three years of
evacuated life, five .32
caliber bullets zinged
into their house from a
passing car. Fortunately,
no one was hurt.
Fred Kumagai, a neigh-
bor, formerly of 40-5-6,
who had just returned to
his home two weeks ago,
heard a car speed by just
before the shots were
fired.
Visiting the Ohashi
home at the time for the
shooting were Sho Dobashi,
formerly of 5-2-B, a re-
servist in the Army, and
Cpl. Y. A. Kawamoto.
A Deputy in Attorney
General Robert Konny's of-
fice has called for a com-
plete report on the shoot-
ing, and District Attorney
Eyerett Coffee is launch-
ing a thorough investigation.
The FBI is also investigat-
ing.

**URGENT REPORT
OF MEASLES**

Because of unconfirmed
reports of several cases of
German measles among school
children, Dr. Harry K. Marks,
Principal Medical
Officer, made the following
request of Center residents:
"Parents are urged to
report the name and address
of any child who develops
a rash to the Out-Patient
Clinic, at the hospital.
Please report such cases
before noon when possible.
Keep the child at home until
visited by a doctor or
nurse."

**Nisei Paintings
To Be Exhibited**

Slated for the month of
May is an exhibit of paint-
ings by Japanese-American
artists at the New Jersey
College for Women, New
Brunswick, New Jersey.
Open to all center arti-
sts, the exhibit will in-
clude works by Kuniyoshi,
Noguchi and others.
Each artist may submit
one oil or one water color
measuring up to fifty in-
ches framed. Paintings
should be mailed to Mrs.
Ada English, Librarian,
New Jersey College for
Women, New Brunswick, New
Jersey.

out we must such incidents

That does not everybody going be shot at. Not by shot, if you'll pardon a accidental pun. But does mean that everybody returning to the Pacific coast should expect some harsh treatment.

This is wartime. Certain people in California and the other coast states are resentful of our returning to our homes, and they will resort to various measures to frighten us into staying away.

Those going back will simply have to make up their minds to weather all such treatment and stick it out.

It's going to be tough, and it's going to be very discouraging at times. But it can be done.

The encouraging thing about the whole business is that it is apparently not the respectable citizens and neighbors who are perpetrating such tricks.

Apparently, from the evidence to date, they have been done by the lower elements, the thugs, and the hoodlums and the malcontents.

The culprits who figured in the Doi shooting and attempted dynamiting are a couple of army deserters and their drinking pals. They will be dealt with by the state.

The skulkers who set fire to an evacuee home in San Jose and then fired at the returnees have not been apprehended. But authorities are working on the case.

The Ohashi shooting, the latest incident, is being investigated by county, state, and Federal officers. When the guilty ones are caught, you can bank on it that they will not be left off lightly. Attorney General Kenny apparently is not fooling when he said he meant business.

Soldiers From Wheeler Visit

Back from four weeks of rough, tough basic training at Camp Wheeler (Ga.) are a contingent of soldiers from this center who are being readied for overseas duty.

These boys, who left here for active duty last Dec. 1, are furloughing, preparatory to reporting at Fort Meade, Md.

Questioned as to their training, the boys chimed unanimously that "it was tough." Cracked Pvt. Hy Ikeda, former Jerome Baseball star:

"Tough? It's so tough that Gen. MacArthur doesn't want any more men from Camp Wheeler. They don't recuperate till six months afterwards."

LETTUCE HARVESTED ON GEORGIA FARMS

(Continued from page 1)

Last week they were harvesting a 100-acre crop of head lettuce. It appeared that the crop would average from 175 to 200 cases per acre. The market price per crate at that time was \$4.90 per case. "And," stated Batsuyon. "We don't have to pay that \$1.65 per crate freight charge from California to the eastern market."

"Now that the atmosphere has cleared somewhat following the recent attempt to burn and shoot up our homes, I want to tell you how my family and I feel about this attack. We are satisfied it was perpetrated by a few individual things and that it does not in any way reflect the feelings of the people of Santa Clara county and San Jose against our family or any other returning evacuees."

Guaranteed eight to ten hours a day; wages 80¢ an hour; year-round employment; room and board on farm; a dollar and a half per day; living quarters good. Would like to employ Issai or Misoi. Leonard has employed Japanese for years, and is interested only in those persons who seek permanent employment. Also three farm mechanics wanted.

Contact Relocation Office or K. Kono, 7-4-D, who is representing Leonard Brothers at this project.

evacuees, and we'll clear and place behind dykes more of the land for evacuees," Batsuyon continued, "but they'll have to furnish their own farming equipment. We can furnish the housing."

leave, our home is entirely without foundation. We are here catching up the threads of our lives where we left off, and it would take much more than the incident reported to convince us that we are not wanted in this community." That's the spirit it will take to weather the storm. I hope the other returnees will display the same spunk, determination, and fight.

Of course, you'll say that it's easy enough for me, here in camp, to utter such words of bravado.

But I'm returning to California soon. And when I do, I shall expect to be treated roughly at first and perhaps even shot at.

Of course, if nothing of the sort happens, it won't make me very mad.
