STORAGE TRANSIT

Beginning Tuesday, applications for the transfer of personal effects now stored in the Federal Reserve Bank warehouses to this Center may be filed by interested persons.

Applicants are asked to bring their storage receipts to the office of Transportation and Supply division where assistance will be given in filing the shipping order.

Due to the lack of storage facilities here, only items that can be used in the near future or stored in the apartments may be transferred at this time.

As soon as sufficient extractions are ordered at each government warehouse to make a carload, shipment will be made.

Residents are reminded that the deadline for application for transfer of goods in private storage or private homes is Monday.

All speakers interested in the oratorical contest, slated for Feb. 6 and 7, must sign up by today at 42-5-F.

CAL POLITICIANS DRAFT RACIAL LAWS

SACRAMENTO -- The first of several proposed legislative attacks against American citizens of Japanese ancestry and alien Japanese was recorded in the California legislature last week, stated the United Press report in the Pacific Citizen.

Senator Clair Engle of Red Bluff and Assemblyman Lloyd Lowrey of Yolo county presented two joint resolutions, memorializing congress to amend the federal constitution to bar persons of Japanese descent from citizenship, and to determine the identity and forfeit the citizenship of

those holding a dual citizenship in any other country, and prohibiting such citizenship.

"The people of the United States have had brought forcibly to their attention the fact that the constitution confers citizenship upon persons of Japanese descent by virtue solely of birth in the United States, despite the fact that such persons are racially and inherently unassimilable," one resolution declared, stated the report.

The Engle-Lowrey bills would place stringent control on landowning and fishing rights.

Thurman's resolution, introduced at the request of the Placer county grand jury, memorialized Congress to enact adequate legislation to prohibit all persons of Japanese ancestry, both alien and native-born, from owning, enjoying, using or occupying agricultural lands, and to restrict all persons of Japanese ancestry from becoming citizens of the United States, reported the UP.

As these measures were introduced, other members of the state legislature said they had similar measures in the making, or

CO-OP NOTES

• NEW WRA RULINGS

Interpretations of the new WRA co-op regulations, which were discussed Thursday by the Temporary Congress of Co-op Delegates, indicated that the Community Enterprises is liable for the employees' salary, the clothing allowances of the workers and their dependents as well as the rental of the PS halls.

A letter on clarification of the clothing liability was sent to Washington.

• ON INCORPORATION

Plans are progressing whereby the co-op will soon file application for articles of incorporation under the State of Arkansas. If application is not granted, it is the intention of the co-op to return the membership fees.

• COST COMMITTEE

Headed by Mike Miyake, a committee of five will investigate expenses involved in the co-op project if it is to exist under the new WRA rulings, to determine whether the cost will justify the continuance of the Enterprises. Rental for a single PS hall under the space rent regulation is about \$900 a year.

• TYPEWRITERS NEEDED

An urgent call for the loan of private typewriters and adding machines was sent out by the Community Enterprises. Prevailing rentals will be paid.

CLEARANCE PAPERS IN

Approved leave clearance applications have been received from Washington, D.C., for Mr. and Mrs. George Hayashi, who are seeking employment as chicken sexers, disclosed E. B. Moulton, Employment and Housing head.

Almost four hundred applicants for indefinite leaves are still waiting for approval by the Washington office.

Moulton asked all those interested in outside employment to fill the necessary forms at ad building 2.

HANDS OFF!
SCHOOL LUMBER
IRREPLACEABLE

As the building of the high school stepped into the construction phases, Tom Makino, resident architect, requested Centorites to refrain from taking lumber from the construction grounds.

He stated that the lumber is federal property and definitely not for private use. Any shortage of building material will delay the high school project considerably.

When crossing the construction grounds, observers were requested not to disturb any of the pegs and other objects used for markings.

ROHWER SCHOOL
SYSTEM DESCRIBED

"Education for Victory," a 1000-word article describing the Rohwer schools, is now being written for the United States Office of Education by a writers' group under J. A. Trice, superintendent of education.

The magazine, to be published soon, will be distributed to schools and educational departments throughout the United States.

Resolution May Be First of Series;
Authors Claim Japanese Unassimilable

(Continued from page 1.) would join in pushing the original proposals.

Senator Engle, former district attorney of Red Bluff, represents Tehama county. Assemblyman Lowrey recently urged the state personnel board to push disbarment proceedings against the state's discharged civil service workers.

There was no indication, it was stated, as to what favor the anti-Japanese measures would have.

The legislative activity was seen in some quarters as the first step of a concerted campaign by certain California interests to prohibit the return of evacuated Japanese to the state.

he had proposed, Lowrey said that the prohibition against "persons ineligible to citizenship" would not deal unfairly with the Chinese and other Orientals who would also be barred by the provisions, since the "Japanese are the only Oriental people who engage in commercial fishing off the California coast."

The authors of the measures declared that the basic inability of "Japanese nationals" to be assimilated as Americans has been shown clearly "by the necessity of confining them, citizens and aliens alike, in relocation centers for the protection and safety of the American people at war—a procedure not found to be necessary in the case of other enemy aliens."

SPANISH CONSUL: GARAY CONFERS WITH RESIDENTS

In a surprise visit Jose M. Garay, Spanish consul at New Orleans, La., representing the Spanish ambassador in charge of Japanese interests, appeared before an impromptu meeting of the block managers Friday afternoon at PS hall 12. He was accompanied by P. W. Herriok of the State department.

Although the purpose of the meeting was to discuss the problems of the Japanese nationals in the center, the block representatives were unable to present any organized discussion at that time. As a result Garay was restricted to answering only simple direct questions.

Three or four selectees of each block from last night's individual block assemblies will meet this afternoon at PS hall 33 at 2 p.m. to compile the various questions that the residents may want clarified.

The time and place for the second conference with Garay, when the problems of the Japanese nations will be discussed with him, will be decided.

FIRST TO LEAVE PAVE WAY FOR OTHERS, FISHER

"The impressions that individuals on outside work leaves make on their communities are highly important; since in many cases they serve as an introduction of the Japanese to the communities."

Thus said Royal H. Fisher, field representative for the Japanese service of the American Baptist Home Mission society. He stopped here this week while on tour of the relocation projects to help advance the permanent resettlement program of the WRA.

Fisher pointed out that because many of the communities have not seen Japanese people before, a great

During Moulton's absence, Herschel Abbott, placement officer, will assume duties of the Employment and Housing division.

deal of the responsibility of bringing about better understanding among the outside people lies with those who first go out on permanent relocation.

The various church and social service groups in the Middle West are working with the WRA field employment offices to inform communities on the resettlement program; to present the real situation of the Japanese; to correct misinformations; to find evacuee employment in all fields; and to help the evacuees adjust themselves to the new communities," he added.

Fisher, who returned to the United States in 1941 after teaching 17 years at the Kanto Gakuen in Japan, will next visit the Jerome, Gila River and Poston projects. His present tour has included Tulo Lake, Minidoka, Heart Mountain, Topaz, and Granada.

KEEPING POSTED

With feverish basketball season already at the half way mark, we are beginning to wonder why a casaba loop is so conspicuously absent here in this Center.

Manzanar has a cage league for every division; Tule Lake, highlighted by the bitter Sacramento's Mikes and Wakabags' duel, is in the midst of a blistering court campaign; down in Arizona, Poston held a successful New Year's tournament and has started a league and Gila, too, is enjoying a banner season.

Topaz, Utah home of the classiest nisei smoothies, is competing in inter-block tourney; and Granada, which has without doubt the most fabulous basketball program with a nearby high school gymnasium for their convenience, is the hottest relocation cage center.

Local net swishers are inquiring whether there will be a league organized. Let's hope that within the next week or so a conference will be in progress.

Wartimes' most powerful Japanese-American casaba machine is the starstudded Denver Niseis.

The newly-organized Colorado quintet is literally graced with some of the greatest hardwood stars from California and is represented in the Denver YMCA's basketball league.

The squad includes, among others, all-coast forward Yuk Kuwahara of the famed San Francisco Mikes and rated as one of the all-time nisei greats; Harry Yoshioka, all-coast guard from the San Jose Zebras, perennial champions of the PJA and CYBL, and brother Eddie, up and coming cage star sensation; brilliant Kayo Senzaki, northern and southern California JAU all-star.

Veteran Mitsu Kaneko, JAU all-star of the San Francisco Greyhounds; Los Angeles Shamrooks' pole vaulting hoop stars Dave Hoshimiya and Tets Narahara; and from the state champion Los Angeles Cardinals is Tets Tada.

HISAKA NEW HEAD

Art Hisaka of Stockton is the newly-named Director of Men's Athletics, replacing Sam Minami, who resigned from the athletic department to accept a managerial position with the Rohwer Cooperative Enterprises.

The Bojangles will be out to register their win against the Outpost Intellectuals at 3:30 today.

On top of a doubleheader Sunday, the Firemen will tangle with the Block 4 quintet at 3:30.

The Firemen will field Tak Senzaki, Jimmy Sakamoto, Roy Sugino, Nob Morimoto, Yuk Matsuda and Charles Shishida.

The roster for the Block 4 team includes Tak Kawagoe, Sunny Sanada, Sho Hiraizumi, Frank Kawagoe and Henry Fukushima.

EDITORIAL AMERICANS?

Since evacuation, almost three-quarter year has passed and still the clamorous, noisy yelps of certain organizations are being heard in California.

Led by the Native Sons and Daughters of the Golden West, a group of reactionary clubs are openly advocating the removal of citizenship from all American-born Japanese. They are now engaged in trying to pass through legislative bodies of the state, laws which will deprive the right of the nisei to hold land or to fish.

The totalitarian workings of their minds seem to find justification in blaming us for the deeds of Japan. They are of the opinion that we are dangerous to the welfare of the nation. Their actions reflect the viewpoint that they are the real totalitarians who would advocate racial discrimination.

Unconsciously, other organizations have followed suit. Many American Legion chapters have removed the names of the Japanese members from their list. Perhaps, these men are not to be blamed for being shortsighted. With war playing the important role now, they are perhaps reliving their World War I and its horrors, and their sense of democracy has become warped.

The recently announced US. losses in the Pearl Harbor fiasco reveal one of the chief reasons for evacuation -- the danger of bombardment of the Pacific coast and consequently the danger to the coast Japanese. The staggering loss that accompanied evacuation has been losing its edge, but the repeated attempts to deprive us of our rights by NSD of GW are opening the wounds again.

These supposedly democratic groups are giving democracy a slap on the face by the advocacy of such racial measures. Physically, the Japanese in America cannot change and have not changed to any great degree, but they have become mentally more Americanized and democratized than those who would "purge" us of our rights.
