## TRAMP DAY Assembly

Last Friday afternoon, February 12, was proclaimed "Tramp Day" for all faculty members as well as the students. It was decided to let the fourth period teacher collect a penny fine from each student who wasn't a "tramp."

The purpose of this "Tramp Day" was as a cover up for Student Council members who cleaned the study hall and washed the windows. They didn't want to be so conspicuous in old clothes, so declared "Tramp Day" for everyone.

The most distinguished and "well dressed" tramps were Mrs. Ziggler, Mrs. Booth, and Mrs. Henderson. They had patches on their dresses, charcoal on their faces, and their precious belongings were slung over their shoulder tied on the end of a stick.

Approximately \$1.50 was collected from students for penalties.

## STUDENT COUNCIL REPORT

The Student Council decided to put only the grade and section with the percentage on the church attendance winners, instead of the homeroom teacher's name as they thought it would be giving the credit to the teacher instead of to the homeroom where the credit belongs.

## Relocatee

Haruko Arao of homeroom 91 is going to relocate on Tuesday, Feb. 27. She is the first pupil to relocate from 91. Haruko was president of the Home Economics club.

She came from Torrance and is now going to Gardena, California.

Kasuko Tsubouchi, our former office secretary, has relocated to Highland Park, Illinois. She was terminated on Feb. 10, and left the center on Feb. 15. She is planning to attend school; is now doing domestic work.

Kazuko is formerly from Hardwick, California and is a '44 graduate of Donson.

Last Tuesday, February 13, the ninth graders attended the second special assembly in a series of programs planned largely through the courtesy of Mrs. Avery.

The speaker Miss Shapiro was working for the WRA at the Oswego Sheltor for war refugees in New York.

Having worked with them, she was able to give a very informative talk on the refugees who are living in the Sheltor, and also showed the students many interesting pictures of refugees.

Among the 987 refugees, there are old and very sick people, children, and families that were broken up. There was not one complete family in the whole group of refugees.

These persons have come to this Sheltor mainly for the following reasons:

- 1 protection
- 2 build their health--got sufficient and careful diet
- 3 attend school

After many years of suffering they now are able to enjoy the fruits of democracy

There were various games and plenty of good refreshments. Mrs. Avery of '74 was the guest of honor. Every one had a grand time and was well satisfied when the party was over.

The 84's in the absence on Mrs. Green had for home room teacher, Miss Finch who in turn talked to the homeroom about Japan. Her talk included where she used to live, where she studied and the holidays of Japan.

A wink of an eye makes torte Club will hold a lot of difference, said its next meeting at the C. Mr. Thompson, look what A. Officer this coming Sat. would happen if Michiko Feb. 24th at 4 p.m. Mr. Honda winked! Why is Saburo Masada so lonely nowadays? Is it because of Teru?

My! Lots of girls go after Fumio S. Why don't you give them a break--- they can't wait forever you know!

Betty S. sure gets a red face sometomes. Is it the surrounding heat? Hot stuff, I botcha!

Why is Mrs. Zioglor so happy nowadays. It seems she's always singing that tune about having somebody "ask her to hold her hand" Now, now, Mrs. Zioglor remember you're married.

Is it true that Norma U. is planning to see a certain guy at Chicago? It could be Jack Kimoto.

Why does Jack Sakurai always come to 9BC during noon hours? Is it because of Setsuko S.?

The secretary of homeroom 92 seems to be awfully interested in the president of the same homeroom. Isn't love grand?

Why are all the girls, especially Bernice Koyama, interested in a certain Paul M.

Fumi Sumi must dream a lot if she can't go up the p.o. room steps without tripping over. I wonder what that means?
