Rains stated that approximately 375 men are now cutting timber and that, despite their inexperience, the work is progressing "very satisfactorily."

Some blocks have given up saws and axes for lumberjack use, and other blocks may have to give up some tools to be distributed among those blocks, Rains intimated.

POSTON IS LARGEST W.R.A. RELOCATION CENTER

Poston Relocation community, largest of all WRA centers (72,000 gross acres), is located on the Arizona side of the Colorado river in Yuma county, half way between Yuma and Needles.

Three centers (total capacity 20,000) have been built a few miles apart to facilitate administration and to make the sprawling farm lands more accessible

to the evacuees. Capacity for Poston number one is 10,000; for communities two and three, 5000 each.

With 41,000 acres considered suitable for agricultural development, fruits, vegetables, berries, melons and other products will be grown when the irrigation system is completed. Water, to transform this desert area of sagebrush and silt into a

green valley for Poston's own use and for postwar use by the Indians, will be supplied by the Head Rook dam (Colorado river).

Rainfall averages only three inches a year, but it is not unusual for most of this total to pour down in a single cloudburst. Temperatures have ranged from nine degrees to 120 degrees, making possible a growing season of 258 days.

DRIVING OF TRUCKS

FAILURE TO FOLLOW REGULATIONS MEANS DISMISSAL, SAYS COLEMAN

Rules and regulations, governing operation of trucks with the threat of dismissal from work contingent upon "failure of any driver to obey the rules," were issued by Tom B. Coleman, Motor Pool supervisor, today.

Speed limit inside the area has been set at 15 miles per hour and 30 miles per hour outside the area on highways.

Indicating that the driver must travel the most direct route to destinations on assignments and return the same way, unless otherwise directed, the following rulings must be observed by the driver: (1)

he must not drive into residential sections, unless so directed; (2) coal trucks should only go to kitchens and boiler-rooms; and (3) mess trucks only to kitchens and warehouses.

Capacity of riders on trucks has been limited to not more than 12 persons on pick-ups, including the driver; or 32 on a stake-body truck; and not more than one person in the cab with the driver, except during inclement weather, and then, not more than two.

DAZED DADDY: STORK OUTFRONS BIKE-RIDING PAPA AND DOCTOR

Early Monday morning (1:15 a.m.) Matsusho Shimabukuro of 5-11-B was in a dither. His wife was about to give birth to a baby, and a doctor was needed. So clad only in his night-shirt, Shimabukuro dashed outside to the emergency telephone, frantically tried to call the hospital.

Falling, he routed Block Manager George Yamachi out of bed, succeeded in borrowing a bicycle from sleepy-eyed neighbors, peddled furiously to the hospital eight blocks away.

When the excited father-to-be and the midwife arrived on the scene, Mrs.

Shimabukuro had already given birth to a bouncing 7½-pound baby boy.

Mother and child are doing well. The father, a cook, has been given the rest of the week off in which to recuperate.

SOFTBALL:

CAMP ROBINSON TEAM MAY COME

Arrangements for the proposed softball game between the Rohwer and Camp Robinson teams have virtually been completed.

LOCAL RESIDENT HAD ACTIVE SPORTS CAREER

Around Guadalupe (Calif.) the name of Fred Tsuda is well known. Back there they will tell you that he was one of the stars on the Aratani baseball squad, which campaigned with considerable success against the pick of the semipro teams in the state several years ago.

Fred wielded a pretty potent bat up there at the plate, and as for his work

EXHIBITION FOOTBALL STOCKTON, ANITA TANGLE SUNDAY

Rohwer relocation city's football faithful will get their first glimpse of the current national pastime on Sunday afternoon, when the speedy Santa Anita all-stars tangle with the powerful Stockton eleven.

The game, slated for the high school field, is billed as an exhibition goodwill contest and will be a tackle affair (not touch) in full gridiron regalia.

Some 4000 fans are expected to sit in on this pigskin powwow.

The Santa Anita gridders are being drilled in the intricacies of the Notre Dame attack by Coach Dave Komatsu, blocking back on last year's University of San Francisco frosh squad.

The Stocktonians will operate from a combined T and single wingback formation, as taught by Keiichi Ogasawara, George Ueyeda and Sus Yasuda.

The tilt is rated as a toss-up by local "experts."

in centerfield--well, he covered that outer patch like a Sears catalog. The Aratani nine, which was composed of American and Japanese players, was quite an aggregation. Several of Tsuda's ex-teammates have gone up to the big leagues.

Fred was born in Hawaii, where he copped letters in tennis, swimming and track in high school, besides

captaining the baseball and basketball squads. In his spare time he found time to be senior class president and proved himself a top-notch student, too, by winning a scholarship to Whitman college in Washington.

Tsuda performed three years on the varsity nine, then two more on semipro teams up and down the coast before joining up with the Aratanians.

TODAY WE REMEMBER

Today is Armistice day.

Twenty-four years ago today, on a bleak November morn, the armistice was signed and brought to an end a frightful slaughter of human lives in history.

Today, nearly a quarter century later, the armies of the world are locked in a death grip, even more terrible than the last, with countless thousands dying on the world's far-flung fronts.

Twenty-four years ago, the peoples of the world rejoiced on that memorable Armistice day.

Today, there is no rejoicing. There is naught but the grimmest of determination to win this war, to make sure that the mistakes of that last peace shall not be repeated.

Our life, the American way of life, is in imminent danger. It is in greater danger that it has ever been before, and it will continue to be until the forces of evil and oppression are wiped off the face of the earth.

So on this Armistice day, as we pause to look back on that memorable day of a generation ago, it would be well to remember that American men and boys are dying this very minute that we might again in the not-too-distant future observe an armistice, this time of a more permanent nature.

CAST YOUR BALLOT

The initial step in the forming of a democratic self-governing organization in the Center will be taken today, when residents cast their ballots for their council delegates.

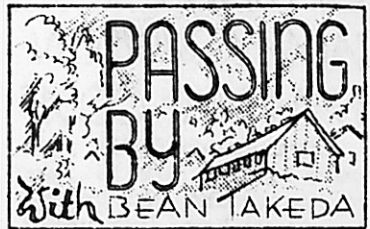

It need not be stressed here that it is the duty of every eligible person to vote.

A fair and representative community body is the most satisfactory governing medium devised to date, and there is no better way to bring that about than by going to the polls personally and casting your ballot.

Our neighbors, the Jerome centerites, are conducting a contest to determine a name for their newspaper. They've probably hit upon one by now.

Announcing the contest, they quipped: "... the names Pacemaker, Grapevine and Jerome Journal will not be considered."

P.S. Jerome Journal was a "Passing By" suggestion.
