## Community Dance

A community dance will be held tomorrow night at Hall 5 beginning at 7:30.

## Presenting the Pride of the Center—the Densoneers

"Presenting the pride and joy of the Center--the DENSONEERS!"

How familiar this phrase is to discriminating hearers who hear Emeo Edwin Funahashi introduce Band Leader Frank Tashima at numerous Center functions.

Their debut at a community dance on Nov. 21, 1942, made a decided hit with the jive-conscious crowd. Success of this group is spelled in the many appearances since, as they are paged repeatedly for community socials.

With daily practices in Hall 36, the band sponsored by the recreation depart-

ment, boasts some 50 to 60 solid tunes under its belt. Music pieces are purchased by nominal maintenance fees charged at each private

appearance. The music makers play an average of twice a week.

The first and only outside appearance of the Densoneers was at a USO dance in Dermott in December. This week they were booked for Block 45's "Debut Ball" on Wednesday night while this evening's invitational affair in Block 28 will again feature the band. They are also scheduled to play for the Public Works division jam session on Monday.

"Varettes" will be to date their biggest engagement. All musical background for this extravaganza will be furnished by the Densoneers.

Four years of experience

in Fresno bands qualifies saxophonist Tashima, just recently married, to lead the band of 14 players.

Saxophone section is handled in addition to Tashima by Tom Nakamichi and Son y Nishimoto. Trumpeters are Yas Chono and Jimmy and Buddy Hirasuna. Fred Harada, Tom Isa and George Nagatani are violinists, Trombonist Tom Nakaji, drummer Henry Yoshikawa, pianist Gladys Yoshikawa, guitarist Chuck Inada and tuba artist Teruo Chono complete the band roster.

Comely Anna Tanaka is the vocalist. --TO

A candlelight installation of officers is planned by Troop 97 for Tuesday.

## Students Get First Grade Cards

that were issued by both Denson school divisions for the first six-week period of work.

If they came home and told you that they shouldn't have gotten "As" because that means "awful," don't believe them! They might be handing you something else, too, if they told you that "B" stands for "better," "C" for "colossal," "D" for "darn good," "E" for "excellent" and "F" for "fine."

Both school principals commented on the exceptional work done by the students taking into consideration the fact that they had been out of school for so long.

"They have adjusted themselves well to the abnormal conditions," said Assistant Secondary Principal William F. Hays.

He explained marks as follows: "A"--superior; "B"--above average; "C"--average; "D"--below average; "E"--conditional, and "F"--failure.

Students also are being graded in citizenship, their daily work, social and health habits, attitude and cooperation. --TO

## QUESTIONS AND ANSWERS

### ON ARMY COMBAT UNIT

19. Will my family be permitted to return to the West Coast?  
A. Not for the time being.
20. What happens to my father who is not a citizen of the United States?  
A. Like all other persons now in Relocation Centers, he may file an application for leave which will be acted upon by the War Relocation authority. It is probably fair to say that his chances for favorable action will be better by reason of your going into the service.
21. Is my brother, who is not a citizen, eligible for induction in the Army?  
A. No, only citizens are to be inducted under present program.
22. Will our dependents, part dependents and immediate families be permitted to leave Relocation Centers to move near or to our quarters?  
A. They will be permitted to leave the Relocation Centers if they are approved for indefinite leave. Local conditions such as housing facilities will determine whether it is practical for them to live near you.
23. May we marry and bring our wives to or near the training centers?  
A. You may marry, of course, as may all soldiers, but local conditions such as housing facilities will determine whether your wives can live near your training centers.
24. Where will we train?  
A. At regular Army posts in the United States. Present plans call for the activation of the American Japanese combat team at Camp Shelby, Miss.
25. Will this program include American citizens of Japanese ancestry in Hawaii and outside Relocation Centers?  
A. Yes, a portion of the combat team is being made up of men now in Hawaii and in the United States outside of the Relocation Centers.
26. Will more than one combat team be formed if the number of volunteers is more than sufficient?  
A. That question has not been finally answered but it is a reasonable presumption that if this effort is successful other teams may be formed. However, statistics indicate that there are not enough of your people to form more than one combat team.
27. What will be done by WRA to look after the families of soldiers?  
A. The War Relocation authority will make all families of soldiers special cases of project interest to the project director and his staff. This will mean health and protection to the families while they remain at the center, and in the event they wish to leave, priorities of employment and every possible assistance in relocation, including cash drafts when necessary.
28. Will persons of Japanese ancestry be permitted to re-enter the evacuated areas?  
A. No, not for the present.
29. How about Japanese Americans outside Relocation Centers?  
A. They can volunteer in just the same manner.
30. If I am granted indefinite leave, may my wife, who is not a citizen, be granted leave?  
A. She may file an application for leave under present War Relocation authority regulations and if the application is approved, she will be granted leave.
31. Will my movements be free and unrestricted after my indefinite leave from the War Relocation Center?  
A. Yes, except for present requirements by the War Relocation authority.

## Entertainment By Districts

In an attempt to solve the problem of over-crowded halls at the talent shows, members of the Community Activities division have divided the Center into five districts.

The entertaining troupe will appear in one of the districts every Saturday evening so that every district will be covered within five weeks with the same program. The list of districts is as follows: District I: Blocks 1, 2, 3, 11, 12, 14 and 15. District II: Blocks 4, 5, 6, 7, 8 and 9. District III: Blocks 16, 17, 18, 19, 20, 29 and 30. District IV: Blocks 31, 32, 40, 41, 42, 43 and 44. District V: Blocks 28, 35, 38, 39, 45 and 46.

Blocks which have not selected recreation leaders are asked to do so immediately and report to the Community Activities section.

## Dry Cleaning Service

## NEW WATER SYSTEM WILL BEGIN MARCH 1

"Water inconveniences will no longer hamper Center residents," promised T. R. Skinner, superintendent of plumbing, as the new water system will begin operations starting March 1. An earlier date was anticipated but delay in the arrival of materials necessitated the change.

The reservoir is constructed of concrete and has a capacity of 750,000 gallons which is supplied with a steady flow of water by two electric deep well pumps located at Blocks 23 and 39.

Approximately 14,960 gallons an hour are pumped into the reservoir and it was estimated that an average of 545,000 gallons of aqua are consumed in 24 hours by the Center.

After the water is pumped into the reservoir the water in turn is drawn from the tank and pumped into the water mains. There are three electric pumps operating in a series to produce constant pressure.

In case of an emergency such as an electrical disruption, two gasoline pumps are ready to supply the necessary pressure until electricity is restored.

In order to prevent impurities from contaminating the water, chlorine is added, thus insuring the community pure water. At times the water may have a slight odor to it but it was assured that there are no harmful effects.
