The Center will lose one of its most understanding and cooperative friends with the transfer this weekend of Capt. James L. Monson of the local Military Police to Alva, Okla., where he will join the 401st Escort Guard company.

"I've enjoyed working with the Japanese people immensely, and especially regret leaving all of the fine friends I've made during my short stay," he said.

A World War veteran, the sympathetic and tolerant Army officer, who came here with the 329th Escort Guard company when the Center opened in October,

Project Director Paul A. Taylor warned that the registration is compulsory for all evacuees 17 and older except for aliens who have applied for repatriation.

In accordance with instructions received from national IRA headquarters in Washington, D. C., persons who do not register will be reported to Washington as having refused to register, Taylor stated.

QUESTIONS AND ANSWERS

ON ARMY COMBAT UNIT

Army Plan Supported

WASHINGTON, D.C. Feb. 1 (Special)--Strong editorial support of the War Department's decision to form a combat unit of loyal persons of Japanese ancestry for service in an active theatre of war is disclosed in a survey here of newspapers throughout the country.

The Minneapolis Morning Tribune refers to the War Department's action as "wisely undertaken," and observes that "For the loyal citizens in those (relocation) camps, there should be freedom to participate in the war effort, either on the home front or in our armed forces."

Several other papers, it was observed, also made reference to the increasing opportunities for employment of evacuees in private industry, particularly war industries, as a solution for problems growing out of evacuation.

Among West Coast newspapers supporting the formation of the combat unit, the Portland Oregonian regards it as "Bad news for Hirohito," while the San Francisco Chronicle said the decision "will gratify all who have felt that the only proper test in their (Japanese American's) case is loyalty, not racial origin."

MUSTANGS INSTALL OFFICERS, MEMBERS

An impressive installation ceremony of the officers and members of the Mustangs was presided over by adviser George Omatsu Friday night at Hall 17 in the presence of the A Jays, a boys' club, and the Royal Coronets and the Densonta CoEds, two girls' clubs.

32. If I am wanted not for military service but for civilian work, how long will it be before I am granted indefinite leave under this program?

A. If your application is affirmed, as soon as you get a job. The War Relocation authority and the United States employment service are developing job opportunities as quickly as possible.

33. Will I be permitted to travel throughout the United States?

A. Yes, except that return to the evacuated area will not be permitted except on the authorization of the Western Defense Command. Permits for temporary visits will be granted automatically to Japanese American soldiers in uniform.

34. Will voluntary induction confer reinstatement privileges in employment held prior to evacuation?

A. An opinion of appropriate legal authorities is now being obtained to this question.

35. Is the Army program in substitution for War Relocation authority's indefinite leave policy?

A. No, in addition.

36. Why is it intended not to use the combat team against the Japanese?

A. For general security reasons. Obviously, it would be hazardous to the team itself and to the Army as a whole to use the team against the Japanese since the danger of the enemy getting within or behind our lines in American uniforms would be a constant risk, hazardous not only to the operation but to every Japanese American in the area.

37. Will Japanese American women be considered for enrollment in the WAACs?

A. Not at the present time. However, this matter is under consideration and a decision will be rendered at a later date.

38. How educated do the nisei have to be to be acceptable for voluntary induction?

A. The same educational requirements as exist for all others inducted into the Army, i.e., the equivalent of a 4th grade education.

39. Will the United States employment service assist Japanese Americans who have been granted indefinite leave to obtain jobs? Will any federal agency help to refinance businesses given up when the owners entered Relocation Centers?

A. Upon release from Relocation Centers, Japanese Americans will be entitled to take advantage of the assistance of all federal agencies in the same manner as other American citizens.

40. Will those who were in the Army in non-commissioned or commissioned class be permitted to have assurance that they will be placed in grade?

A. The extent and nature of previous military service will be carefully considered and insofar as possible they will be returned to their former status.

41. Will men who have completed ROTC in schools and colleges with commissions and ratings be accepted in this combat team in rank?

A. Same answer as to previous question.
