EXPLANATION

Segregation

(Editorial note: The following statement on segregation was made by Director Dillon S. ! yer.)

The War Relocation Authority responsible for the welfare of all the people of Japanese ancestry who live in relocation centers, The execution of this responsibility is made more difficult by the fact that some of the relocation senter residents have indicated that they are neither loyal to this country nor sympathetic to its war aims, while the great majority have indicated that they wish to be American.

The War Relocation Authority has an obligation to safeguard the further national interest. After long and serious deliberation, the decision has been made that the responsibilities of the War Relocation Authority can best be fulfilled if a segregation is made between those who wish to follow the American way of life, and those whose interests are not in harmony with those of the United States.

Accordingly, procedures for a program of segregation have been developed. All relocation cenresidents found not to be loyal or sympathetic to the United States will be moved to the Tule Lake center, and those Tule Lake residents found to be American in their loyalties or sympathies will be moved

or, preferably other centurs given permission to relocate outside. The population of the relocation centers after segregation will be composed of those whose interests are bound with the welfare of the United States and who therefore are eligible to move from the relocation centers to outside communities.

The program of segregation is not being undertaken in any sense as a measure of punishment or penalty for those who will be moved to the Tule Lake center, The War Relocation Authority recognizes the integrity of those persons of Japanese ancestry who frankly have declared their sympathy for Japan or their lack of allegiance to the United States. While the privilege of leave will be denied to those assigned to the Tule Lake center, this privilege would not have been available to them had they remained in their present centors

Segregation offers promise of giving to those evacuees who want to be American the opportunity to live as Americans and to express their Americanism without interference. It should rosult in increased assurance of harmony in the relocation centers. It should increase public acceptance of those granted leave clearance, and thus aid in the

relocation of those people.

The decisions as to who will be segregated will be made in a spirit of fairness and justice. While it is recognized that the segregation process will put to much trouble those persons who must move, I have no question that the national interest and the long range welfare of the thousands of loyal American citizens and law abiding aliens justify the step to be taken.

I urge every resident of a relocation center to make himself familiar with the objectives of the segregation program and with the procedures for carrying it out, so that the adjustment may be made with the least possible difficulty to everyone concerned.

WE ARE NOT ALONE

Reading outside daily papers often leaves a bitter taste in the mouths Jor most evacuees. But occasionally, there are welcome articles which brighten an otherwise dark-looking future.

Some time ago, the Northfield, Minn., post of the American Legion took the stand against any proposal for wholesale deportation from the United States of American citizens of Japanese descent by "vigorously protesting" the publication of an artiole in the June American Legion magazine which advocates such a plan.

The resolution opposed the article, in Our Yard" "Japs by Frederick G. Murray, M.D.

Adopted at the American Legion district convention in Faribault, Minn., the measure protests that the proposal violates both the Legion constitution and the Constitution of the United States and urges that the magasine print a retraction of the article. IN THE WEST, TOO Even on the West

Coast we read of organizations such as the Pacific Coast Committee on American Principles and Fair which actively Play fights for same understanding.

It's Camp Shelby at last. Our first impression of this huge camp was that it was all wet--it was raining when we arrived Tuesday right.

It has none of the niceties which we enjoyed at the Camp Robinson reception center for a week. But we expected it to be this way and so aren't disappointed. At this writing this rockie is still awaiting the grind to start.

Enroute to Shelby when we transferred from train to bus at Jackson, Miss., we got on with eight members of the 100th Infantry returning from a furlough. Three of them had spent three days in

Denson. They highly praised Mary Nakahara's USO girls.

They thought Denson's maidens were "all right." "One thing we like about 'em," one soldier said, "is that they are very sociable."

Incidentally, the main topic of the "bull sessions" in b oth Robinson and Shelby, as far as we have been able to judge, is a b o ut things military—wenen run a poor second.

Denson's volunteers, we were told, are all getting along well. So far we have seen Pvt. Shig Sugaya who is driving a truck, and Pvt. George Takhashi who is attending the recruits' school at present.

CO-OP INFO

The average person is too producer conscious. He forgets that he is a consumer all his life while his years as a producer are limited. Because consuming is such an important part of our lives we should learn to be discriminate about our consuming practices. For instance, many people buy inferior products that are highly advertised. The purchase of such inferior goods permits the profiteering manufacturer of such products to continue to fool the public.

Non-profit organizations such as Consumers Union have been created to educate their members to distinguish the wheat from the chaff among consumer goods. For example, Consumers Union points out that aspirin of any name is the same as all companies must follow a set formula. Sodium bicarbonate in fancy boxes (and high prices) is plain baking soda. WRONG LEAD

Many people think that journalists are the most prolific letter writers. Incidentally, we don't fall into this class as the tone of letters that we've been receiving in the past indicates our inability to write letters.

Here are several samples of letters which we have received indirectly and directly. The first one was addressed to the editor, but it was meant for this writer.

"Just to let you know that a certain member of your staff is a louse of the first water. Won't mention any name but if I did it would be "Bull."

"Reason why he is a louse; he doesn't write, the louse."

Another note.

"Let me hear from you some time. I'm beginning to believe that you can't write." REPERCUSSION

When we do sit down to write a letter, we're apt to get some sort of a response.

Learning that a certain fellow was leaving for Chicago, we dashed off a letter to have him forward to a friend in that city.

One month later we got a letter postmarked Chicago with the following missive-

"That letter you sent me via your friend cost me 20 cents and I got it two weeks after you wrote it. Am enclosing a self-addressed envelope with a stamp on it."
BELATED

Looking through the stack of letters that we must answer, we find one we received Oct. 5 and another Feb. 15 and several between March 15 to 27.

August 6, 1943 New Tule Lake Director Well-Qualified for Job

(Editorial note: Following is a story on the new Tule Lake center director by Charles R. Lynn, Reports Officer, who met him at the Denver WRA conference.)

Last week in Denver Raymond R. Best, new director of the Tule Lake center, answered a lot of questions for the reports officers

from 10 relocation centers.

He is 48, a native of Michigan, a graduate of Los Angeles high school and a resident Idaho for 25 years. He had four years of in the Marine Corps in World War I and is the father of three sons, the eldest of whom is in the Army Air Corps.

He joined the WRA organization in April of last year at the San Francisco regional office, went from there to Manzanar and then back to San Francisco before beginning six months at Minidoka on July 4. He was transferred from that center to establish Moab the first of this year, and since that center was disbanded has been director of the Leupp center.

Prior to inception of the WRA Director Best had been in government service many years, most of the time headquartered in Idaho in various capacities. At Tule Lake he succeeds Harvey M. Coverley, who has been commissioned a captain in the Army. He has been succeeded at Leupp by Paul G. Robertson, recently of the Washington WRA office.

When the new Tule Lake director left the circle of reports officers their impressions were much the same. He is a vigorous, smiling, blue-eyed man who remembers names and looks straight at you when he has something to say. They were impressed with his long experience in working with people, with his remark to the effect that he had always been "fascinated by the human side of any job," and with his knowledge of the fact that "you can't handle people like you handle machines." When he left the room he waved "so long." He never says "goodbye."

The new director at Tule Lake left !eupp with a reputation for fairness and legan his new assignment with a deep sense of obligation. He professed an unemotional but intelligent respect for the evanues who prefer the Japanese way, because he would want the same privilege if he were caught in an enemy country. But more than that, he realizes that the eyes of the world will be on the Tule Lake center. He stands with his feet solid on the ground and says, "This project has to succeed."

CARDS vs. Sli pperettes

COLORFUL ARBITER -- Baseball fans who have witnessed recont diamond tilts have been getting a "kick" watching big six feet three A. L. Roud call the bases at first and second. It reminds us of some of those Coast League umpires in ways. His quaint way of raising his thumbs up on putouts along with his "Victory Model" eigar in his mouth have added much color to the contests. None of his decisions have been disputed. We visited him one afternoon in his high school chemistry laboratory and he informed us that raising and butchering hogs is his fancy. Raising reminds that nobody ever "raises cain" with him.

TOPS BATTERS -- Florin's diminutive hardhitting keystone sacker Bill Tsukamoto came up from nowhere and led the A baseball loop with a hefty .455 at the end of the first half. With his consistent hitting he has broken up many a ball game making good hurlers sad twirlers.

"IRON MAN" DID HIS SHARE -- With Fowler going down to defeat at the hands of the fightin' Elk Grove nine, Ed Tsukimura's Fresno Bawere officially orowned the champs of the Bloop in the first round. "Iron man" Tak Abo was responsible for many of their wins with his superb pitching and batted in the clean up position hitting .439.

cludes those who answered "neutral" and those who qualified their answer with a remark which clearly made the answer negative. All these persons will have an individual hearing to determine their exact intentions and understanding at the time of registration and their exact sympathies at this time. On the basis of this hearing, those who clearly prefer the Japanese way will be transferred to Tule Lake. the basis of this hearing, those about whom there remains some doubt will be classified into Group III. GROUP III

This group includes all those not eligible for leave clearance. This means:

Those who answered the registration loyalty question in the negative, failed to answer it, whose answer was "neutral," or who stated "I wish to be repatriated or expatriated" and changed such answer to an unqualified "yes" prior to July 15.

Those who answered the loyalty question with a qualification which was not obviously and clearly negative.

Those who requested repatriation or expatriation and retracted such request prior to July 1, 1943.

(d) Forsons about whom there is other information indicating loyalty to Japan or disloyalty to the United States.

Those reclassified from Group II on the basis of their individual hearings.

All those in Group III will be given an individual hearing before a Leave Clearance board. Those denied leave clearance on the basis of their hearings will be transferred to Tule Lake. GROUP IV

This group includes all those persons who are presently eligible for leave clearance. Members of this group may, by permission of the Welfare section, accompany members of their immediate families to the Tule Lake center.
