The Temporary Community Council of Poston 2 heard the report of its housing committee, through its Chairman Harry Iwashige, at their regular meeting Monday morning and will forward the recommendations for necessary improvements to the Project Director, W. Wade Head and Administrator James D. Crawford.

The committee found through its investigation that the present housing condition was detrimental to health, sanitation, welfare and safety of the residents. Following recommendations were made to remedy the conditions:-----
better flooring; inner walls and ceilings; screens for windows and doors; spring beds and cotton mattresses and additional blankets; stop further intake and assign additional apartments where the families are overcrowded; family partitions; electrical wiring strong enough to provide ample allowances for the use of electrical appliances; installation of heating system and outer coverings on outside walls to reduce fire hazards.

Recommendations of the Council housing committee will be supplemented to the requests made by the block managers of Unit 2, it was indicated by Chairman Maeno.

LAW AND ORDER

TEST OF OUR METTLE

Poston residents will do well to peruse the Declaration of Independence again and digest thoroughly the passage... governments are instituted among men to secure the rights of life, liberty and the pursuit of happiness.

The WRA, recognizing the intellectual and social status of the Japanese, has given us the opportunity to govern ourselves. Unthinking residents have decried the fact that our self-governing units, the Councils, have very little or no authority. But, in fact, is that true?

The first object of human government is the protection of citizens. The erudite and foresighted makers of our Constitution recognized this democratic principle in the Preamble, for to establish justice was the 2nd object of the Constitution. One of the determining factors which aroused the spirit of liberty of the pioneer Colonists to the Revolutionary War was the express declaration of the Parliament:.... "that the King, with the advice and consent of Parliament, had, hath, and of right ought to have, full power and authority to make laws and statutes... to bind the Colonies and people of America in all cases whatsoever."

Unlike the Parliament, the WRA were cognizant of the spirit of the people to govern themselves. And, accordingly, they have passed on to the people of Poston, as it should be the right to govern themselves. In this respect, the provision for a judicial commission seem to meet the underlying tenet of the first object of human government.

The responsibility hereon rests with you, the residents for a harmonious community. Reverence and enforcement of law depend mainly upon the ideals and customs of those who occupy the vantage ground of life. This is the sage observation of the Judicial section of the American Bar Association. Prior to our evacuation, the Japanese had an enviable record in the civil courts. We should be, by all means cognizant of that reputation.

The people of the United States, thru the WRA, have challenged our mettle! We cannot help but be repititious in the point that our future welfare, in the eyes of the entire world, shall be critically measured by our cond-

uct during the course of the war.

Have we, or have we not the intelligence and the sense of responsibility to assume our rightful station in the world of tomorrow? If so, let's prove it! Bear in mind the immortal message of venerable Abe Lincoln.... "Let every man remember that to violate the laws is to trample on the blood of his father, and to tear the charter of his own and his children's liberty."

GILA RIVER VOLUNTEERS FOR COTTON HARVESTING SHOW INCREASED PICKING, POSTON EVACUEES NOT TO BE CALLED FOR WORK AS YET STATES REPUBLIC

An AP dispatch to the Los Angeles Examiner reported an increase of .39 pounds in the average day's pick of long staple cotton by evacuees from the Gila River relocation center now helping harvest Arizona's vital war crop has been recorded since last Monday.

Officials at the center said pickers Friday averaged 89 pounds with one checking in 148 lbs. Pickers with many years experience usually gather about 200 pounds a day.

The Japanese volunteers, most of whom were raised in fruit growing districts of California, averaged 50 pounds the first day, 75 the second. It was reported that many who picked only 40 or 50 lbs the first day weighed in a day's bag of over 100 pounds on Friday.

Poston will not be called upon to furnish volunteer workers for harvesting of long staple cotton in the Maricopa and Pinal counties until the Gila River center volunteers have been placed first and arrangements working smoothly was the statement in the Phoenix newspaper, the Arizona Republic.

According to the Republic, while no figures were given by WRA officials as to the number of evacuees volunteering for work to date, it was stated the initial number was "far larger than volunteered to work in the Colorado sugar beet fields at first."

SUBSCRIBE TO THE PRESS BULLETIN! GET MORE VOTES TO CAST FOR YOUR FAVORITE GIRL AS "MISS POSTON;" PB TO HAVE EXTENSIVE U.P. SERVICE

Residents of Poston are urged to subscribe to the PRESS BULLETIN and do right by yourselves in two ways: assure yourself of getting all the news every day and boost your favorite girl friend in the race for the Queen of the Poston County Fair.

General circulation of the PRESS BULLETIN will be instituted on the October 15th with full coverage of Poston activities PLUS the extensive facilities of the world-wide United Press-wire services.

The nominal sum of 30¢ will assure subscribers of a PRESS BULLETIN every morning except Monday at their doors besides enabling such to cast 15 votes for the "best" girl as Miss Poston. A 3 months subscription will cost only 75¢ and give the subscriber 50 votes for the Queen, while the sum of \$1.25 will enable the subscriber to read the PRESS BULLETIN daily for 6 long months and allow 125 votes.

The PRESS BULLETIN is expected to undergo its long-expected and awaited change from the mimeographed edition to a printed issue within the next few weeks. However the matter of a general, center-wide circulation and the printed edition will be determined in a great measure by the amount of subscriptions solicited by October 15.

So back the PRESS BULLETIN now for the best newspaper ever to be edited and published wholly by Japanese Americans!
