REC. DEPTS. TO RAISE FUND THROUGH COTTON-WORK PAY

"We haven't lost sight of picking cotton for the common cause, working collectively, sharing in the profits of our labor to be used for mutual good," declared Vernon Kennedy, chief of Industrial Relations, in his short talk before the members of the Unit Two Council Monday morning. In permitting the blocks to go out to pick cotton in a group and expend the wages for use within the block, residents will understand in a small way how the proposed trust will be operated.

"This experience will prove educational when some of the major activities are launched," he said.

George Ono, Secretary of the Fair Practice Committee asked the Council's approval in "okaying" the Recreation Department to spend the day in the cotton field which earnings will be used to purchase a public address system and the library staff who will earn funds to buy additional books.

The Rec. Dept. through Kenji Uyeno requested a budget of \$549.44 for use in the various recreation departments. The request was tabled in favor of the Council's decision in using the C.E.'s allotment of \$500 for loans to be used to alleviate any urgent needs in social welfare matters in Unit 2. The Council's Social Welfare committee, headed by Yikuo Endo, will work in conjunction with the Administrative office.

THANKSGIVING-TURKEY FOR POSTON; MILK SHORTAGE SEEN

Turkey for the residents of Poston have been announced by Joe Petta, Chief Steward of the three units.

"Fifteen thousand pounds of turkey are ordered for the Thanksgiving dinner, with all the trimmings, cranberry sauce, etc. and will be served to the Community this November holiday," Mr. Petta said.

Milk has been cut down to "limited" quantity, for children and patients only due to present shortage. Other wise, there has been no notice of shortage in other foodstuff, the report indicated.

NOTICE TO READERS: Due to mechanical difficulties, the Sunday Issue of the Press Bulletin was not distributed to the subscribers Monday morning; however, the issue will be delivered Wednesday morning. Ed.

THE TEACHERS' LOUNGE located east of the Post office in Unit I, furnished with floor lamps, divan, easy chair and rugs for the recreation for the Unit I teachers, yesterday was given its final touch of painting, powder blue color.

BLK. VOLUNTEERS ASKED IN "LINOLEUM" LAYING PROJECT

When the delivery of linoleum and wall-ceiling lining materials now ordered is made, and which is expected at "any moment", each Blk. mgr. will be requested to organize his own block crew to prepare in laying linoleum, and installing wall and ceiling lining, the Construction Dept. informed the Press yesterday.

According to Charles A. Popkin, chief of Construction and Maintenance, for million feet of plaster board will be needed to cover the walls and ceilings; and two million feet of linoleum is required for the barrack floors of the three units.

Screens for the individual Apt. windows have arrived and are now being distributed, the report concluded.
NEW CIGAR, CIGARETTE PRICES

The Poston Cantens announced yesterday November 2, that cigar of various brands will now be sold at 7¢ a piece, and cigarettes at 15¢ straight, due to State and Federal Tax increase now in effect. Carton-rice have been eliminated also, the Enterprise declared.

"Cigarettes are today selling at 18¢ per package outside the Centers. The Board of Trustees has also authorized the lowering of prices on other commodities, 12 per cent," Stanley Tsuchiya, Public relations man of the Store asserted.

Any foreigner studying the history of the United States for the first time will find out to his great amazement the two most outstanding facts, the like of which he will never find in other history of other nations throughout the world. These two facts stand out clearly and brilliantly like the sun whose incandescent light gives a man a sense of security and happiness.

First one of these two is that since the War of Independence, the U.S.A., never have waged a war of aggression on other nation or nations. The second one is that since the birth of the nation, the same internal policy has been handed down generation after generation---a sound and healthy policy, based upon the industrial expansion---one of the most logical and peaceful means to achieve the greatness.

These two policies appear to be the most vital arteries running through the full length and width of this great nation of nations. No one will ever find the like in any other nations. On these two things alone, the greatness of America (U.S.A.) can be glimpsed through the pages of history. The most capable and efficient statesmanship of every succeeding President and their able cabinet members, through these two policies, made this country the foremost of all civilized nations of the world. And they have always been observant of the fundamental theory that all men are created equal, regardless of race, color, or creed.

Knowing these things to be indisputably true and the Government stands by, for and of the people, some of our Nisei-Americans appear to be somewhat down-spirited and act as if their Government had completely abandoned them on account of their being segregated and shut off from the outer civilized world for the time being.

To these few, the Voice would like to say a few words that no government on earth can be infallible, especially in time of War and if your Government had made a mistake in segregating its minority people for any cause whatever and finding it to be not right and justifiable, your Government will, no doubt, make it right with you or even go and reimburse you for the mistreatment you might have been subjected to. Anyway, try to look at the brighter side of things always and remain optimistic and it would be much healthier than to look at the darker side of things and fill your mind with all the pessimistic images. And always remember that you are a hundred percent full blooded Americans and that it is your own duty to collaborate with your Government in everything--no matter what it is--be loyal. K.T.

TIME OUT

By Jove!

After observing Poston 1's first football contest last Sun. afternoon between George Kita's West and Joe Kadowaki's East prep elevens, we can readily say that it will be the beginning of more and better grid games to come. It will probably break "the ice" for the start of the six man pig-skin loop here.

Although it was a touch tackle tussle it was nevertheless a bang up affair.

As in modern warfare, aerial superiority seems to be a deciding factor in football. Georgia Tech proved that point against Alabama with Frank Sinkwich again displaying that All-American callibre. And Bob Waterfield and the Uclans did the same to Stanford last Sat., when they trounced them 20 to 7.

As yet, only K. Misawa's Blk. 43 team is signed up for the six man football league. More entrants are expected to sign up at the Rec. Dept. in the near future.

That sizzling Blk. 35 old timers again maintained their undefeated status, as they subjugated the Blk. 54 "oji-sans" by a one-sided 24 to 5 score in a Grandpa League tilt last Sun. No wonder our Ed. Matsumoto looked sick yesterday morning. another blue Mon. (his team hasn't won a game yet).

BOND SALES FOR SEPTEMBER

Bond sales for the month of Sept. netted \$3750 and money orders amounted to \$4535 while there has been no changes in the flow of incoming and outgoing mail.

Erlon Gardner, Poston post-office supervisor, asks that all residents corresponding with the detention camps write their return address in the upper left hand corner in complete, including full name, block, building and apt. numbers. This will help return the letters which are returned here to be sent back to the senders, Mr. Gardner said.

AGRICULTURE DEPARTMENT HOLDS CONFERENCE WITH WRA OFFICIALS

Messrs. Sabin and Reed of the Production and Marketing department of the WRA office from Washington, D.C. and Messrs. Robertson and Emerick of the WRA Regional Office at San Francisco conferred with the Executive Committee of the Poston Agriculture Department.

The main purpose of the conference was to coordinate all the relocation centers in the production of foods. Since the supplying of foodstuff for each center is an urgent problem, coordination was the immediate solution to the problem. Seasonal lengths of various crops suitable for this region were discussed and when it was needed to prevent an overplanting with other centers. Because of possible shortage, production of all foods was stressed.

Poston 2 department is studying the dairy project which was pointed out as one of the first major project needed. Plans on hogs and poultry have been started.
