

WRA TO GIVE TRANSPORTATION FOR PERSONAL PROPERTY

Transportation and storage of personal property will be provided by the WRA through the Evacuee Property Office, it was announced yesterday by Project Director W. Wade Head. The establishment and operation of warehouses at convenient points for the free storage of evacuee property is being arranged by Russell T. Robinson, Chief of the Evacuee Property Office.

Residents of Poston who desire their property transferred from private to government storage should make application to the Project Director. An evacuee on indefinite leave may also file such a request with the Project Director or by writing to the Evacuee Property Office at San Francisco.

Household and personal effects may also be shipped to the Relocation center from the resident's former home or private storage, provided there is available storage space here.

Only one shipment of household goods and personal effects will be provided by the WRA from the evacuee's place of former residence or place of storage to a point outside a relocation center. He cannot however, have goods moved to government storage and then to a project and then again moved to an outside point of government expense.

Five hundred pounds of personal effects will be shipped free for residents going on indefinite leave. In addition to the baggage transportation to which each person is entitled in connection with the purchase of railroad tickets. In order to qualify for this additional freight shipping

service, it is necessary that the evacuee going on indefinite leave take full advantage of the baggage shipping privileges, it was pointed out.

There are certain exceptions in the shipping of personal belongings. No perishable goods will be shipped by the WRA; no commercial goods, except to a project when the shipment has been approved by the Project Director and no goods will be shipped when in the opinion of the officials of the Evacuee Property Office the value or its location would not warrant the cost involved.

UNCLAIMED BAGGAGE AT PARKER

Several pieces of baggage that have arrived in Parker through transfer from the Greyhound or Santa Fe Trailway Bus Lines are unclaimed, according to F. M. Haverland, Supply and Transportation officer.

Persons holding baggage checks on these two bus lines are requested to contact the Dispatcher's office where arrangements will be made to secure the baggage.

Shoe Purchasing Procedure Explained

Poston residents purchasing shoes through mail order houses, such as Sears and Montgomery Ward, are advised to make out a separate order sheet for each shoe certificate. When ordering more than one pair at any one time. According to Len L. Nelson, administrative assistant to the Project Director, this is in conformation with O.P.A. directors.

It was stressed that each order blank must be made out to the order of the person to whom the certificate was issued.

Nelson yesterday stated that certain residents were encountering some minor difficulties in ordering shoes through the mail order houses. Steps are being taken, he said, to correct the misunderstandings under which these mail order firms are laboring. He expressed the hope that these companies' erroneous impressions of the procedures regarding the shoe certificates would be rectified soon.
