

EVACUEES ENTITLED TO TAX EXEMPTION

R.W.Schmitt Evacuee Property Officer informs the evacuees Attorney General for the State of California has recently ruled that evacuees temporarily residing outside of the State are nevertheless up to an exemption of personal property taxes on household goods up to an assessed valuation of \$100.00. In preparing 1945 personal property tax bills, some counties gave tax payers the benefit of this exemption and others did not. Any evacuee whose legal residence as of March 2, 1942, was within the County in which the taxes were levied, may apply for householder's exemption, or for a refund of the tax paid on property to the assessed value of \$100.00.

Any evacuee questioning the amount of his 1945 personal property tax bill should be advised to determine first whether or not he has been granted the householder's exemption. If he believes he is entitled to and has not received it, he should address his request to the County Assessor and attach an affidavit setting forth the facts regarding his legal residence as of March 2, 1942.

For any further questions on this matter call an Evacuee Property Office, Room 25.

NOTICE!

TO SUBSCRIBERS

As an acute change in our circulation system is to take place beginning July, the *Poston Chronicle* would like to inform the public of its recommendations. All payments are to be on a monthly basis, 30¢ a month, a penny a day, within the Center.

Outside mailing services to be conducted bi-weekly instead of weekly and the rate per subscription will be 45¢ a month and 1 1/2¢ per day.

AGRICULTURIST TO TOUR TEXAS LANDS

A proposition to resettle evacuee farming families in the Lower Rio Grande Valley in and around Presidio, Texas, has been submitted to the Project this week, the Outside Employment Department announced yesterday. The promoters are willing to pay the expenses of a tour of this area by selected representative farmers from Poston to confirm the data as described in the proposition.

ACTIVITIES DEPT. TEACHING STAFF CUT SEEN

Drastic reduction in the teaching personnel of the Community Activities Dept. will be soon within the next few months as the result of the memorandum issued recently by WSA Director Dillon S. Myer to Project Director W. Wade Head, stating that no more than one paid evacuee instructor shall be permitted for each Japanese-style activity for which paid leadership seems essential on a relocation center.

The object of cut in teaching personnel, according to the memorandum, is to restore the evacuees to their normal place in the American Community life by having the evacuees support more American-type activities in the centers.

Where the projects are divided into two or more camps, the upper limit shall be one person per activity in each camp. Other leadership, as desired, shall be obtained on a volunteer basis which is not restricted. The activities covered by the memorandum, are judo, sumo, kendo, goh, shogi, shibai, utai, shigin, odori, shakuhachi and all

Selection of the men who will investigate the territory is in the hands of Frank Mizusawa of the Agricultural Department, the Employment Division announced. After their inspection they will report back to the Project and advise as to the approval or rejection of the deal. Residents who feel they are qualified to make the tour may contact Mizusawa.

According to the promoters, the soil, growing season, drainage, proximity to transportation and to marketing facilities, weather, etc., are very favorable for the production of truck crops. It was not certain at present whether people will be permitted to purchase land in the Lower Rio Grande Valley, but at least a long term lease is guaranteed.

It was pointed out, however, that before the projected inspection of the area could proceed, certain matters such as community sentiment and a decision as to whether the zone lies within the Southern Defense Command must be cleared through the WRA.

VOLUNTEERS STILL ACCEPTABLE

Associate Project, Ralph Galvin again reiterated the fact that Army headquarters will still accept applicants who wish to volunteer for the Nisei Combat Team at Camp Shelby.

Interested persons are asked to contact his office

others primarily Japanese in character. Artificial flower making may not be regarded as a Japanese-style activity, although flower arrangement is included in the above category.

NEW SWIMMING CLASS TO COMMENCE

Beginning July 5, special Summer Classes for Beginners, Intermediate, and advanced Swimmers as well as Junior and Senior Life Saving Courses will be conducted by instructors-- Ken Shiosaki, Jim Sakuma, and Ray Tanaka. Senior Life Saving course for women may also start on or about the same date.

Persons interested in any of the above courses are requested to sign up with the Red Cross Life guards stationed at Pools 21 and 45 regardless the applicants had previously registered with them.

Teru Shimada reports A.R.C. Senior Life Saving certificates have been recently awarded to Shiro Uyeda, Hideo Nakano, Hiroshi Honbo, and Toshiya Akahori with Vincent Eiichi Uyeda as instructors.

AG NEWS
by hi

Under the supervision of Jitsuzo Fukuhara, superintendent, truck crop division, AG Dept. of Unit II has been up to date doing nicely with luscious melons such as cantaloupe, honeydew, and watermelons. So far 8 145 pounds of cantaloupes were harvested in 2 pickings from a 6 acre patch and are due for more picking within this weekend. The patch covers the area of approximately 57 acres and that's not hay.... think what will happen when they get into full swing...mmmmmm.....

Honeydew and watermelons are expected to be on the breakfast tables sometime in July but until then cantaloupes will keep us in trim for the big doings.

The efforts of the AG Dept. are deeply appreciated, and more credit is in store when we sink our teeth into them nice, juicy tasty fruit...

200 FARMING FAMILIES WANTED IN TEXAS

Three men representing farming interests in the lower rio grande valley in Texas has advised the employment division of the possibility of relocation over 200 Japanese farming families in this area. The description of soil, climate, and other data pertinent to agricultural possibilities as outlined by these men are excellent. General conditions along the lower rio grande valley are claimed to be perfectly suited for the production of truck crops.

However, in order to confirm this information, it is the plan of the Agricultural Dept. to send several men from this project to investigate the conditions and at the same time attempt to have community sentiment of this area checked by the WRA representatives as a safeguard against future possibilities of discrimination or prejudice.

A number of offers have been received from the New York office of the WRA. These offers include beauty operators, farming, hospital personnel, office clerks, industrial occupation in glass, welding, ceramics, etc. unions are favorable and housing is no difficulty. public sentiment excellent. If cleared with eastern defense command, you are welcome to call at the project employment office to inquire about the types of opportunities available in New York.

Harold S. Pistore, WRA's Relocation supervisor in Michigan and Ohio, states that the housing situation in Cleveland is extremely "tight." For this reason he discourages entire families going to Cleveland at the same time. Mr. Pistore suggests that one member should first look over the employment and housing situation and if satisfactory, arrangements can be made to send for the remainder of his family. Accurate information concerning the cost of services and food and the general cost of living for Cleveland can be obtained from Mr. Ichiro Nakajima at the unit I employment office.

AMBULANCE DRIVERS URGENTLY NEEDED

Two ambulance drivers are urgently needed for the clinic. In order to maintain services to the public, this position will have to be filled immediately. Those interested, please apply at the employment office.
