

SUMMER ACTIVITIES PROGRAM SET

Since with the termination of the school session, and the children of this community will be free for the summer, a committee from the Community Activities, the Education Department, and the religious organizations have met and planned a summer activity program for the pre-nursery, elementary, and the High School students.

After a series of preparatory meetings it was agreed that the activities for the pre-school and the elementary children will be conducted at 7 centers to be established throughout the camp. At these centers, the following schedule has been arranged for each week day (except Saturday) beginning July 5:

A.M.--6:00-9:00--morning religious hour
9:15-11:15--art and craft
P.M.--2:30-3:15--library hour (story and play hours)

For the junior high and high school students, vocational training classes in typing, shop work, etc. will be conducted; in the field of club work, model-planes, and swimming classes will be held.

The plan does not make attendance of the children compulsory, but in order to prevent children from being forced to find other means of amusing themselves, they are requested to attend these centers in a way and place where their parents would approve.

The location of the various centers will be announced later.

NEW P.O. HOURS

New business hours of the Unit I Post Office was announced yesterday by Earl Gardner, Postmaster.

The new hours are: 8:30 a.m.--12 m., and 1--5:30 p.m.

The *Poston Chronicle*

POSTON, ARIZONA

VOL. XIII No. 24

THURS., JULY 1, 1943

HEAD ORDERS FIRE HAZARD COMBUSTIBLE MATERIALS REMOVED

Due to an emergency that exists because of a dangerous condition caused by material and obstruction between the buildings of Poston, W. Wade Head, Project Director, has issued the following orders in accordance with paragraph 1-A of Administrative Instruction No. 81:

1. The following shall be removed immediately:

- A. Any object or matter placed in the space between buildings adjacent to the buildings which is considered a fire hazard by the Fire Dept.
- B. Any combustible material on roofs or porches.

2. All shades covered with a combustible substance shall be rebuilt immediately and the combustible substance shall be removed.

3. The roofs of shades shall be covered immediately with logs $1\frac{1}{2}$ " in diameter or larger.

REV. PENNER TO SPEAK SUNDAY NIGHT

Rev. J. J. Penner from Phoenix will be the guest speaker for the special July 4 Sunday service.

Services will be held at the Blk. 5 Park at 8:45 p.m. Special sacred music will also be presented.

Immediately or proper authorities will be notified as the thief was seen removing the faucet.

CHICAGO HOSTEL TO ACCEPT FOUR WEEKLY

Indefinite leaves are issued persons who are going to the Brethren Hostel in Chicago, where four persons from Poston are accepted weekly.

According to words received by the Chronicle, jobs in Chicago have been easy to get and on the average, hostellers are offered jobs within a week. Those with skill less in demand require longer to obtain work, the report stated.

Anyone interested in going to the hostel are requested to see Mr. Montgomery at Rm. 32 or Miss Takahashi at Unit I, leave of absence, Miss Tomihiro in Unit 2 high school office or Miss Starkoy at the Camp 3 teachers' barrack.

THE LOWEST FORM OF MAN

The lowest, cheapest and dirtiest form of thief visited the Pross Adobe building about 11 p.m. last Tuesday night, June 29, and "walked off" with the hard-to-get water faucet located on the east-side of the adobe building, leaving the yard flooded with water from the pipe.

This was the third time that the thief or thieves visited the Pross building the other times stealing the fuse box and a bench.

The Chronicle requests the return of the faucet.

ORDER OF MERIT AWARDS TO BE ESTABLISHED BY MERIT BOARD

Since the arrival of the first group of unitary workers to Poston over a year ago, they have rendered their utmost abilities toward improving the community, morally and politically, and making this unit one of the outstanding in the center.

To bring recognition to these worthy individuals, the Merit Rating Board is establishing this Order of Merit, and is considering special awards for these qualified members. Any employee who has worked three consecutive months under the same division is cited eligible.

Administrative Instruction Section of Rule 27 states, quote: "Upon the completion of three months employment, by the evacuees enlisted in the War Relocation Work Corps, if the conduct and the quality and quantity of his work for that period are certified to the Project Director or as outstanding by the Merit Rating Board an evacuee may be cited by the Project Director for special recognition and be made a member of the Order of Merit which is here by established as a unit within the War Relocation Work Corps. The Merit Rating Board may recommend that such merit recognition shall be withdrawn for membership of an evacuee in the Order of Merit."

Individual survey is being taken by each division on the Confidential Rating Sheet to be turned in to the Merit Rating Board. Each worker will be rated according to their work habits, responsibility, influence on others, seriousness of purpose, punctuality, attendance, open-mindedness, and other merits.

COURTS TO BE CONSTRUCTED

The Planning Board of the Unit II Community Council, at their recent meeting with Adm. James A. Crawford mapped out definite plans for construction of concrete tennis courts and a dance platform adjacent to the swimming pool.

This centralized site will be convenient for all unit tennis enthusiasts, as the private courts are located at 208 and 229, the two extremities of the unit.

Tuesday morning, the Recreation Department staff and volunteer help were en route Parker to haul 300 bags of cement to be utilized on this proposed project.

NOVEL HUT NOTES

With Kaz Ikeda as story teller, the Novel Hut now features a story hour for the kiddies every Saturday morning starting from 9:30.

An Art Exhibit featuring water colors and lumi printed cards by Gus Nakagawa and Harry Yoshizumi are on display.

New magazines now subscribed to by the Novel Hut are AMERICAN COLLIERS, ATHLETIC JOURNAL, ART NEWS, SCREENLAND, WEE WISDOM, and GLAMOUR.

For the Issai are 14 new Japanese books received from friends in New York.

4TH OF JULY CELEBRATION PLANNED

In celebration of the Fourth of July this Sunday, various divisions are currently occupied in formulating plans for an all-day program which will probably begin with opening ceremonies in the morning at the Cottonwood Bowl Swimfest and other water events at the community swimming pool, under the auspices of the Unit II Red Cross will be the main feature of the afternoon, with contestants from all the units. It was disclosed

Of interest to the shibui-loving group, entertainment of the old country will be staged at the Bowl in the evening.

With James D. Crawford, Adm. honorary chairman, other division heads will be George Nagano, in charge of opening festivities; I. Motoki, athletics; R. Tazumi, shibui; K. Ueyeno, council; J. Kubota, block managers; and K. Maeda community activities.

A complete program with more details will be released at a later date.

OFFICIAL SUPPLEMENT

Thursday, July 1, 1943

Statements on the new instruction reducing Project employment were issued today by Mr. Head, Mr. Zimmerman and the three Unit Council Chairman, as follows:

MR. HEAD'S STATEMENT

To the Residents of Poston:

The following teletype, dated June 26, from Lailon S. Myer, Director of the War Relocation Authority, will be of interest to you:

INCOMING TELETYPE 6/26/43
WADE HEAD
POSTON, ARIZONA

A FORTHCOMING ADMINISTRATIVE INSTRUCTION ON PROJECT EMPLOYMENT TO BE EFFECTIVE JULY 1 ESTABLISHES EMPLOYMENT QUOTA FOR EACH PROJECT ON BASIS OF MAXIMUM NUMBER OF EMPLOYEES NECESSARY TO PERFORM ESSENTIAL TASKS. STATISTICS INDICATE COLORADO RIVER RELOCATION CENTER MAXIMUM FOR ORDINARY PROJECT OPERATIONS INCLUDING SUBSISTENCE PRODUCTION etc.....

The residents of this Project through the Manpower Commission of Unit I, the Merit Rating Board of Unit II and the various Councils of all units have realized for some time that considerable improvement should be made in Project Employment. They have already made a contribution by evaluating the work, eliminating unessential work and improving morale. I know that they will assist me in carrying out Mr. Myer's directive in the best possible way.

Many parents have been concerned about the work habits acquired by the young people. Their future careers on the outside, as well as the type of service they render to the people of Poston, are affected by their work practices.

It is essential that your reputation for industry and efficiency, gained by many years of hard work, shall not be jeopardized. It is also vital that persons leaving for the outside shall create a favorable impression, improve the attitudes of the rest of the population toward evacuees and thus increase the number of work opportunities for others.

Let us jointly try to make the necessary employment adjustments so that we can promote both resettlement and the best kind of life for those remaining at Poston.

W. Wade Head
Project Director

STATEMENT BY COUNCIL CHAIRMAN

A combined meeting of representatives of the three labor commissions was held together with the following representatives of the appointed personnel:

L. L. Nelson John Powell
M. Burge Giles Zimmerman
J. D. Crawford R. Rupkey
H. Mathiesen Mary Hayes
J. W. Sheppard

The purpose of this meeting was to find the solution to meet the drastic cut in project employment effective July 1 as the teletype received from D. S. Myer, WRA Director reads.

In view of this directive from the Director, and the basic WRA policy to resettle the greater must face the facts as fact.

There will be no more workers for the whole Poston than 5600 of evacuee paid employees and furthermore the \$19-group will be cut from present 50% of work corps to 10%.

5600 total work corps simply means a cut of about 30% evacuee workers for the three projects. According to the directive, this 30% cut is inevitable.

In order to cut down the work corps in the most wisest manner, this representative body has appointed a group of seven will meet with all the departments of respective units in order to submit the minimum number of workers required to operate each department with (1) efficient management and distribution of labor (2) every employee to work full eight hour day with same standard of efficiency as in private employment.

Let us not consider our employment in terms of \$16.00 and \$19.00 but in the light of usefulness for the benefit of the community.

Wherever the ax may fall, let us cooperate and condier this first step toward re-relocation.

/s/ S. Nomura, Chairman
Local Council, Unit I

K. J. Takashima, Chmn. Local Council, Unit I & II; K. Uyeno, Chmn., Local Council Unit II.

STATEMENT BY MR. ZIMMERMAN

The teletype message instructions issued June 26 by Dillon S. Myer, Director of the War work prevailing throughout the United States today. All over the country employment is geared to the task of placing essential men into essential jobs as quickly and as effectively as possible. It is only fitting that the efficient operation of this project be readjusted on this basis.

Director Myer has recently said "At one time we were under obligation to furnish employment on the project to all who were willing to work. This is not longer the situation. The ease of securing indefinite leave by all those whose records are clear, and the large number of jobs being submitted through Relocation Offices and otherwise, largely takes away that obligation. Instead it becomes our obligation to secure from every able bodied evacuee on our payroll an honest day's work in necessary employment."

This action is therefore taken with the best interest of the evacuees at heart. We strongly endorse the national policy of building for relocation as we feel it is vitally essential that all persons qualified to leave the center find their logical place in the American scene as quickly as possible, in order that they may contribute to their own and to the nation's welfare. Dependable work habits must be developed and the efficient operation of the project is vitally essential to all concerned, so we welcome these new regulations as a definite forward step in accomplishing these aims.

From the beginning, the project were intended as temporary way-stations to relocation for the evacuees. It has been the policy of the War Relocation Authority to do everything possible to stimulate this action and at the same time protect the life, health and safety of the evacuees. This policy is not intended to force discomfort upon the individuals but it is important that as many persons as possible relocate as quickly as possible. May we emphasize, however, that if a person is unsuccessful in his relocation attempts, he may return to a project when it is necessary.

The job that lies ahead in adjusting the present project opera-

WRA DIRECTOR'S MESSAGE

A forthcoming administrative instruction on project employment to be effective July 1 establishes employment quota for each project on basis of maximum number of employers necessary to perform essential tasks. Studies indicate Colorado River Relocation Center maximum for ordinary project operation including subsistence production and Community Enterprises will be approximately 5600 employees. In addition 15 percent overage will be allowed to meet emergency needs. Not more than ten percent of employees may be classified supervisory or professional at \$19. At Project Director's discretion, same rate may be paid to employees performing unusually hard or disagreeable tasks up to 5 percent of total payroll. Budget allocations will be made accordingly. This policy assumes (1) efficient management and distribution of labor and, (2) that every employee will work full eight hour day with same standards of efficiency as prevail in private employment. Project Directors will be allowed three months beginning July 1 to come within quotas. Standard job descriptions and detailed suggestions will be issued soon but this is your authority to proceed immediately with necessary adjustment. Allocation of first quarter funds will contemplate achieving one-third of any necessary reduction of force by July 31 and quota limit by Sept. 30. Strongly recommend that evacuee community be fully informed of principles and purposes of this policy particularly the importance of efficient work and maintaining good work habits. Normal outlet for persons desiring employment is relocation and WRA will furnish project employment only to such persons as are genuinely needed for essential project operations.

D. S. Myer Washington D. C.

tions to these instructions is a large and complicated one, but still a possible one. With efficient cooperation of all parties concerned, these changes can be worked out on a fair and equal basis, and it is my feeling that the many advantages to be accomplished through this move will offset any disadvantages that may occur.
