American citizens of Japanese ancestry are not at the present time being considered under the Army Specialized Training program by the War Department, a report from WPA Washington revealed today.

The information was an answer to a query by Giles L. Zimmerman, chief of the Employment Division, requesting details on the possibilities open to Negroes in the specialized training program.

Craft left WAG to accept an offer in New York along academic lines.

Due to the segregation program which is scheduled to start Oct. 4 with approximately 1400 residents leaving for Tulsa, Okla. Takashima, acting chairman of the Community Council.

Mr. Takashima stated that it would be impracticable and lead to a great deal of confusion if the election were to be held in accordance to the Boston charter.

The same date applies to this year's elective only, Mr. Takashima said.

The regulations for the annual election will be published in the next issue.

SEGREGATION PLANS DISCUSSED AT ADVISORY MEETING HELD LAST WEDNESDAY

DR. WEBBER IN CENTER

At the meeting of the Advisory Committee on Segregation held Wednesday morning, Ralph Drannen told of the provisions being made for the crating of household effects, and the train schedule; while Ted Haas reported on the leave clearance hearings.

The board for the hearings was appointed by the Project Director about a month ago, and since then has been gradually taking care of the hundred-off cases which WRA Director Dillon Myer in Washington has recommended for hearing. In a few cases, recommendations have been made to Mr. Head.

Two members of the board sit in at each hearing, unless it is a doubtful one, in which case all members of the hearing board are present. If a recommendation is made to Mr. Head, he sends his recommendations which may or may not agree with that of the

gregated to Tule Lake during the period mentioned. The first group from Poston affected will be that leaving on Oct. 4 by special train, according to the Segregation Office.

Dr. Perry Webber, relocation officer in the Salt Lake City area, is in the Center today and will remain here for approximately two weeks, discussing problems in relocation with the residents.

Dr. Webber was in Tule Lake in August as a member of the relocation team. During his stay there, he acquired a reputation among some residents as the best speaker of Japanese in the Center.

He has had extensive experience with the Japanese people, having associated and intermingled with them, and having studied their customs, characteristics, and their ways of living. His knowledge of the Japanese language is derived from the years he spent in Japan as an educator. He was there from 1913 to 1927, and again from 1935 to 1939. He is credited with the founding of the famous San Iku Gakuen.
