In a letter to the project director, Harold M. Routh, relocation officer located in Grand Junction, Colo., expressed appreciation for the help of the seasonal workers to Western Colorado farmers, fruit and canning companies.

Employers generally expressed satisfaction at the work done, and the crops and prices were above average, the letter said.

Not only did these evacuees help the nation to save a much-needed food supply but they helped themselves and the cause of relocation by getting a taste of the outside and acquainting outside employers with the Japanese-Americans, Routh added.

### PROJECTS REQUESTS AMBULANCES

Three late model vehicles suitable for use as ambulances in Poston were requested from Washington, early in July, W.A. Barrett, dispatcher, said yesterday in response to a request from the Unit III Community Council for a more suitable ambulance for their unit. All possible is being done to hasten their arrival on the project.

Mr. Barrett also pointed out that vehicles provided for use as ambulances must be used for hospital business only. Reports received by him indicate that the present ambu-

### TWO CENTERS TO CLOSE NEXT YEAR

POSTON NOT ONE OF TWO CENTERS, HEAD

"There is no possibility that Poston will be one of the two centers which will be closed," Project Director Wade Head said last Friday, commenting on the address made by

Dillon S. Myer, national WRA director, during a visit to Topaz in which he voiced the probability that two of the projects would be closed by the end of the present fiscal year.

In the address, which was made to Topaz community leaders, Mr. Myer "reiterated that relocation is still the principal objective of the WRA, and its main administrative function is the maintenance and operation of the 10 centers," the Topaz Times, center newspaper, reported.

Mr. Myer emphasized also the temporary nature of the WRA but said that relocation would not be forced, either by direct or indirect measures. 22,000 evacuees are now on indefinite or seasonal leaves, he stated while an additional 15,000 are in the indefinite leave category.

### 20 DIVORCES GRANTED IN CENTER

The Law Department of Unit I handled 4993 matters in the one-year period between Oct., 1942 and Sept., 1943, Ted Haas, Project attorney, disclosed last Saturday.

Of these 2635 were non-notarial matters and 2458 were notarial. A breakdown of the former figure reveals that tax was the most brought up problem, totalling (Cont. on Page 3)

lance has been put to other uses.

K.J. Takushima, H. Nakaji and Dr. Namiki have been appointed by the Unit III council to work with project transportation officials toward prompt provision of a new ambulance, for that unit.

### TWO PAROLEES ARRIVED FRIDAY

Two parolees from the internment camp in Santa Fe, N.M., arrived in the center last Friday to live with their families here. They are Tiju Koide of 328-8-D and Yoneimon Marui of 18-8-C.

### 771 ON LEAVE FROM UNIT II

Scattered throughout the nation from Denver, Colorado to Hattisburg, Mississippi in the south, to Boston and New York City in the east, 432 indefinite and 339 seasonal workers departed for outside employment from Unit 2. The midwest observed most of their relocatees mainly in the cities of Chicago, Cleveland and in Detroit, where relocatees (Cont. on Page 3)

## EDITORIAL

Voice of an issei

## DO YOUR SHARE

The segregation is over. And theoretically speaking, those of us still remaining here in Poston as well as in all other Relocation Centers, are now supposed to be unquestionably loyal to this country and as such, we are being expected to do our part in the great stride of the War effort.

The seasonal workers now coming back from the various fields of industry tell us of an extremely busy atmosphere outside and everyone in the home front is doing his utmost and that an indefatigable effort is being exercised by individuals engaged in all branches of industry. In a word, the complete unity of the people can be glimpsed wherever you happened to be and the indomitable spirit of the people pervades the country. Naturally, we expect such an atmosphere outside our boundary. We cannot help but reel keenly that to remain inactive--like some of us--when the national honor is at stake, is a crime unpardonable from any conceivable point of view. We must work in parallel with others and we can do it if there is a will.

But, man is a creature of environment. Having been long accustomed to a peaceful living and surroundings in a place like this, one becomes too easy-going both mentally and physically, and is apt to forget what's going on outside and thinks that everybody else is taking it easy like himself. A pool of water which remain undisturbed becomes stagnant and so it is with man. One must be aware of the fact that making life too easy will make him mentally inactive and inefficient. Idleness in time of war is a crime and crime does not pay. Therefore, no one should remain idle and leads too easy life of it if he doesn't want to get rotten in this peaceful desert town and be planted on the hillside as his inevitable reward.

We have long been hearing cries about the shortage in manpower. But it appears that the mobilization of manpower in here has not been in full swing, for we see quite a few people still remain lying idle, eating three meals a day as a matter of course and spending their otherwise much more valuable time in useless gossip. Apparently, these people think the course of life is an easy streamline affair as long as they hang onto the apron-string of good old Uncle Sam and nothing else matters to them.

The Voice here wants to appeal to the patriotic sense of honor of issei and the decency of issei to join the multitude of people in the war effort and do your own share so you would be conscience-free and say to yourself that "I am doing my share in this titanic world struggle so that the time-honored democracy might survive!"

REP. EBERHARTER  
DEFENDS NISEI

Rep. Herman P. Eberharter, in a speech before the House of Representatives on October 11, denounced congressional critics of Japanese Americans in reply to the charges made by Rep. Alfred Elliott of California. Congressman Elliott charged that evacuees were being permitted to relocate in the evacuated areas of the West Coast, and warned that unless this movement ceased, violence and bloodshed were sure to follow.

Rep. Eberharter stated, "There are 70,000 American citizens of Japanese descent who have proven themselves absolutely loyal to American principles. There has not been a single disloyal act of espionage or sabotage on the part of any American-born Japanese."

Congressman Eberharter praised the record of the Nisei combat team now engaged in the battle for Italy and stressed the loyalty of the vast majority of evacuees.

## STRAY BULLET HITS RESIDENT

He was immediately taken to the hospital

where Dr. George Wada treated his wound and permitted him to return home.

While there is no reason to suspect anything other than that the wound was caused by a stray bullet from a hunter's gun, project officials and Yuma county authorities are making a thorough investigation.

The Cuneo Press prints and binds magazines and books and employs 5,600 people, some of whom are Japanese Americans. So pleased are they with the work of those they now have that they are anxious to have others.
