VOICE OF AN ISSEI

AN ADULT EDUCATION PROGRAM

The biblical teaching has it to say that the human beings were so wicked that God caused many different tongues among the tribes of men so they might have a terribly hard time to understand each other. It appears that it was meant as a method of punishment for what evil men did ages ago.

Since we are here in this terribly messy world anyway, we've got to take what's coming to us and go even as far as worrying our poor little heads off in trying to learn somebody else's lingo. And that is where the Adult Education steps in.

Language is the conveyance of thought. We must acquire a sufficient amount of basic knowledge of any language if we want to make any use of it as the medium of expression. Back home, we used to say that an urchin in the habit of standing by the temple gate recites the chants of the priest within and that without learning. It is true, and so the acquisition of linguistic knowledge largely depends on the habit of attentive listening and the constant exercise in using the language.

Years and years ago, I was told that I should know at least three thousand English words before I would be able to express myself in it and I was scared so stiff that I really hated to take up another English lesson thereafter. To a Japanese of old school days, English language was a nightmare and the total inability to pronounce right any word beginning with an I, was simply a torture. And since there is no semblance between these two languages, to master English was a thing extremely difficult for us of the older generation.

All these troubles, however, seem to have happily ended now. An American scholar by the name of Dr. Iver A. Richards, a professor at Cambridge, Mass., we understand, is an expert in the art of talking and writing intelligently with the use of some 850 basic words together with 19 plainest verbs. It surely is a very big break for those who wish to study English in short time and especially for foreign-born. The practical application of this vocabulary of 850 words, according to this professor, would be quite sufficient for anybody in the midst of an English speaking public.

When the Board of Adult Education met last Saturday, they discussed this new and speedy way of acquiring English knowledge and they have decided to introduce this hurry-up tutoring method in conduction various English classes, mostly for issei and kibe people.

Speed and efficiency should be our motto in the post-war reconstruction period and we must be prepared to get in on it. Then the need of English for issei will be much greater than the Japanese language for nisei unless for some special vocational purposes. And we, as a people, must accomplish so much in the shortest possible time and for a little while longer, we must forego the most elegant, flowery and sophisticated English which is prevalent

CRAWFORD LAUDS
SCHOOL WORKERS

James D. Crawford, Unit II Administrator, expressed his appreciation to the many people who have been continuously volunteering to work on the school building project.

His praises were especially stressed to the mothers and fathers and those with such deep interest in the children's welfare, to make it possible for the young boys and girls to soon move into the high school and elementary buildings.

Mr. Crawford believes that the Unit II residents will be further rewarded in the advancements of the young people of the unit through the new school building.

FRIDAY, NOVEMBER 5, 1943

HIRONAKA SHUTS-OUT UNIT III TRANSPORTATION 5-0

Deprived of a shut-out in his last appearance against the Mutineers the previous week, "Toots" Hironaka, hardball artist of the Sacramento Panthers, repeated his masterful performance by holding the Unit III Transportation scoreless, allowing only three bingles.

"Gordie" Miyamoto ace rookie hurler for the Unit III aggregation equaled Hironaka's pitching as he held the Panther batsman scoreless till the fatal seventh.

G. Miyamoto opened the inning by issuing a walk to J. Namba who stole second base and advanced to third on a wild pitch. H. Menda

followed by beating out a easy roller to the mound but failing to score the runner. Pitcher Miyamoto a bit upset by the sudden turn of events attempted to catch the runner on first, but this proved costly as the baseman made an error allowing the runner from third to cross the plate for the initial tally of the game. A sacrifice and series of errors accounted for two more additional runs. The Panthers scored two more in the final stanza to quench the contest.

Paul Kuwabara led with three bingles followed by teammates Shiz Yamada and Jun Namba with two hits apiece.

FIREMEN HAND DUKES SECOND TRIMMING

The strong Firemen nine from Unit III handed the Delano Dukes their second defeat in a practice tilt played Saturday afternoon to prove that their victory the week previous was not a fluke. With H. Kurokawa pitching a masterpiece seven hitter, the Firemen put the game on ice in the fifth when they rallied for seven runs on four hits. In the meantime the Dukes were never able to solve Kurokawa's offering for more than one hit an inning except in the last when Takaki singled and B. Yano poled out a circuit blow.

NISHIDA, FUJIMOTO BLAST OUT HOMERS TO SMASH DELANO DUKES 6-5

Two of the heaviest slugging teams in Poston crossed bats to prove the superiority between themselves on the Firemen Ball Park Sunday afternoon, Oct. 31. The 308 Globetrotters proved stronger before approximately 1500 rabid fans by smacking out two circuit clouts and taking the Delano Dukes for a 6-5 ride.

The Dukes scored and took a temporary lead

in the initial stanza when K. Yamaguchi crossed the home plate on couple of fielders choice. But the mighty 308 shortstop, R. Fukumura scored from 1st base on a ground ball and a error to tie up the count at one all.

The Delano Dukes came back with 3 additional tallies to total their count to 4 while the Globetrotters remained on the short

end of the 4-2 count.

In the 7th inning 308 came to life as Nishida with a man on, shot out a homer to left field to tie the score at four all.

Delano broke the tie in the 8th when E. Ike-miya singled and came in on a double by Okida to again surge ahead 5-4 only to have 308 come back with a double by Kuwada and a homer by Fujimoto to win 6-5.

Approximately 450 dozen eggs are distributed weekly to the Camp III kitchens.

SUBSISTENCE RULED TO BE STRICTER

More rules and regulations will be enforced in the Subsistence management since Poston is now under complete control of WRA and no longer under joint direction of Indian Service, according to Chief Steward C.E. Shelson.

Many of the rules which will be used here have been in effect for sometime in other relocation centers. The WRA has issued a new form "daily report of meal served" to the kitchens to assist in the Cost Accounting Division to make accurate cost of meals. Its store-keepers will check on the number of persons served during each meal and turn the list into the Stewards' office at the end of the day.

RELOCATION TO HONOLULU POSSIBLE

I. Motoki of Unit III, Red Cross Supervisor revealed that it is possible for residents to obtain indefinite leave grant for Hawaii from the Twelfth Naval District Command. Those residents applications accepted will be granted leave on the first transportation opportunity available.

In contrary to public opinion, communications by sea is still maintained from the mainland to the island of Hawaii. Priority on permit issued will be according to their reason of importance for relocation.

The Twelfth Naval District Command today have accepted the lone applicant from Unit II.

Financial aid and other matter may be discussed with Mr. Motoki at the Red Cross Office in Ad. 2.

in operation, center residents may choose a lawyer to represent them from a list of 800 California attorneys who have agreed to handle legal matters for evacuees who formerly resided in California.

The plan was developed by the San Francisco office of WRA, in cooperation with the California State Bar Association. A standard fee has been agreed upon which covers all types of legal work and which is generally lower than fees ordinarily charged for similar services. Evacuees will be given a list of attorneys' names in the locality of jurisdiction from which to choose.

Residents desiring this service should contact Project Attorney Ted Haas for further information and assistance.

WHAT'S IN A NAME? CONFUSION

Private Roy T. Nakagawa, formerly of 6-6-A and El Centro, doesn't want to be in the Army. His reasons are valid, but it looks like he will be leaving the center for Camp Shelby, Miss. on Nov. 13. He was working in Preston, Idaho when he got his induction papers, and at the Fort Douglas (Utah) reception center he got his examination, reserve status, a 21-day furlough and orders to report for training.

Civilian Roy Nakagawa, once of 45-8-C and an Angeleno, is in Aberdeen, Idaho waiting for his induction papers. He volunteered in Poston before leaving on indefinite last June and he wants very much to be in the army. "Can't you speed it up?" he asks from time to time.

This sad and befuddled state of affairs developed because of the similarity in the boys' names. Private Roy is reluctantly trying out the shoes Civilian Roy should by now be contentedly filling.

Soldier Roy's brother-in-law, Tatsuichi Kishi, is trying to get him out of the army, while Aberdeen-armed Roy's brother-in-law Judge Seichi Nomura, is trying to get him in. Both brothers-in-law
