Now that spring is here again, the boys will be putting their basketballs away and the remiliar cry of "Play Ball" will fill the air. The Coast and Major Leagues have started recently, and Poston will begin its softball League here on May 8.

Reminiscing the last Hardball League as a fan, player, coach and \*umpire, the writer would like to pay special tribute to one of the local players. On the mound, he was one of the best pitchers in the league, peing the master of both seed and control, would say irom observation that he nad the most strike-outs to his credit with the smallest number of iree nasses issued

On top of that, regardless of the fact that he was a pitcher-players noterious as weak nitters, he was one of the leading hitters in the league also, once on the base he was considered one of the most dangerous base runners, being credited with at least two stolen bases per game.

To top it off the writer considers him to be one of the best fielding pitchers ever seen, bar none. I believe he played the entire season without a fielding error I have personally seen him throw out three runners nome plate while the attempted squeeze play was on, That is fielding par excellence in any lea-

of the Hardball league. Yes--you have probably guessed his name--Pit-cher HARRY SAKAMOTO of the MUTINEERS. Undoubtly, he deserves the title of most valuable player of the league.

While on the subject of baseball, the writer has often wondered why an MALL-STAR team of the Poston Baseball League was never selected for publication. The faninterest in the league was exceptionally high with many of the games turning out from 1,000 to 2,000 fans or practically one-half of the camp's population.

The writer picks the following as the Poston ALL-STAR Team. picked from local players only and based on performance their throughout the season: c -Jay Nishida -308 Globetrotter; p. Harry Sakamoto -- Mutineer; p. Cordy Miyamoto -- Transportation; lh Tak Naito--Firemen; 2b. Sakai -- Riremen; 3b, F G. Tanaka -- Firemen; 55 Roku Fukumura, 308 Glooctrotters; li, Frank Fujimoto, --- 308 Globetrotter; cf, Tom Fukumura -- 308 Clobetrotter; rf, Hideo Higashi -- Mutineer.

MOVIE TONIGHT "CLAUDIA" FOSTON SQUARE GARDEN (30) LET'S KEEP PSG AMPHITHEATRE NEAT

It wasn't an easy task. It took over a year to construct the beautiful and well-equipped amphitheatre in Unit III and it is taking the toil and sweat of many parents to mold the adobes to make the wall around the audience grounds.

Recently during the movies held there, small children were seen marking the walls and destroying the yet unfinished well by scraping the adobe squares.

Young people should also take in consideration that they are setting the example and it is asked that they use their chairs instead of the walls to sit on.

Parents are asked to especially educate the younger chilaren on the value of property and its importance to community as the their destruction and marks will hinder the appearance and completion of this amphitheatre. -000-

### DIRECTOR DILLON MYER COMMENTS ON MATSUBARA-HONDA CASE

In a recent letter to Duncan Mills, project director, WRA Director Dillon S. Hyer comments on the problems raised by the case of Thomas Matsubara, and William Honda. Hatsubara and Honda were reinstated as Poston residents when they returned here last month after encountering adverse sentiment in Leves, Sussex County, Delaware.

On the question asked by the two men of wheher or not the area had been sufficiently investigated before evacuees were invited to relocate there, Director liver says that Robert Cronin, Baltimore area supervisor, had visited the Lewes area. While the latter had found no "widespread enthusiasm," about the idea of evecuee workers, he had met nothing resembling"active opposition."

Mr. Myer cites another case in another area, where the evacuees protested that opposition to relocation had been created by the Ma lay-

ing too much groundwork beforehand.

"Prior to approving a relocation opportunity to be forwarded to a center," the letter from lir. Hyer declares, "our relocation officers are expected to talk to representative homessmen, other community leaders, and local officials. In this way we try to determine the probable reaction of the community and prepare the way for the arrival of any evacuees. We attempt to assure favorable community sentiment, but naturally we cannot attain unqualified success in all instances. There are sometimes unknown factors which upset the predictions of the relocation officers."

In this case there were two such unpredicable factors. The first was that Roland Harsh, who lead the minority opposition, was an enemy of Charles Mills, the employer of Matsubara and Charles The second was that Ray Richards, bit-Honda. terest of WAA critics among newspapermen, had somehow picked up the scent of the story and proceeded to exaggerate the incident. "Richards has frequently written stories which are completely untrue or are unqualified exaggerations," In. Hyer recalls. "This should be tions," Mr. Myer recalls. "This should be known to the residents of the Colorado River Relocation Center since many of his articles have appeared in the Los angeles Examiner and have concerned activities of Poston residents."

"The great protest meeting" about which Richards wrote was actually attended by about 70 people, about 61 of whom were farmers. This was hardly a representative group out of a possible 5000 Sussex County farmers, and "not con a sizable portion of 400 to 500 farmers in the

Lewes-Rehoboth area."

Trany case, the letter emphasizes, "It is unrealistic for evacuees to enter any new comnunity with the expectation of immediate accep-

tanco by everyone."

"Our experience has shown that, even in the East, relocation in rural areas sometimes moets initial opposition from a minority of the famers. The breaking down process requires a cortain amount of patience and effort on the part of the evacuous as well as the relocation officer supervising the district."

TREATIENT VONDERFUL SAYS MISEL LIEUTEMANT

Denver, Colo., April 29--First Lt. Isamu Lt. Ozamoto, former Donver sur con who has been attached to the medi-cal corps of the Japanese American combat tean at Camp Sholby, recently deslliss., cribed his treatment in the army as "nothing ful." loss than wonder-

Lt. Ozamoto said that in his opinion the amy policy of placing Japanese Americans in soparate units was good idea. It operates for the protection of Japanese imericans and it improves esprit de corps."

Referring to the stand of a small minority of Japanese Americans who refuse to be drafted except on the same basis as Caucasians, Lt. Ozamoto do-

clared:

"If I were weak-minded I might agree with their stand. any Japanese American who resists the draft is strpid--he hurts not only himself but the great majority of his kind who are loyal to the United States."

Lt. Ozamoto said he expected to be sent

overseas soon.

"I don't care where I'm sent," he added. "One combat zone is as good as another so far as I'm concorned."
