PERSONS WHO REFUSED INDUCTION ELIGIBLE FOR PROJECT JOBS

Information was released by Philip J. Cassilly, Personnel Officer, on Tuesday that persons who refused pre-induction physical examinations or induction into the armed services were eligible for project employment under the provisions of Section 50.5.9. of the Project Employment Handbook with the following limitations:

1. Return of a former employee to the job which he formerly occupied is not guaranteed where this procedure is considered detrimental to project operations.

a. Employment of the

PROPERTY OFFICER ON TRIP

R.W. Schmitt, evacuee Property Officer, left the Project Tuesday morning, July 25, for Oakland, Calif., to attend the funeral of his brother. He stated he expected to be back the first of August.

MANPOWER COMMISSION MAKES FOUR RECOMMENDATIONS

Four decisions for submission to the Project Director were made by the Manpower Commission at the last two meetings July 7 and 24, according to F.W. Haverland, Supply Officer. The first recommendation was that Community Enterprises workers be paid according to the job titles and pay rates used for other Project employees. The second recommendation was for two additional cooks in the hospital and \$19 pay rate for the cooks and one storekeeper. The

persons described above (or of any other selectees who have or may hereafter refuse pre-induction physical examinations or induction in Internal Security, Postal or Express work, or in Office Services, is prohibited as being contrary to the best interests of center administration.

b. Such persons should not be employed in work which would require them to leave the center.

c. In considering the advisability of returning a person to his former job, the possibility that his tenure will be terminated by legal processes within three months is a factor which should be considered in the light of its effect on the continuity of Center operations.

2. As is true of all Center employees, tenure of employment is subject to budgetary limitation and to the requirement of satisfactory service.

third was that all boys returned from Phoenix on bond because of selective service action be made eligible for employment on the Project. The fourth was that salary rates for six dispatchers in the Motor Pool be studied by P.J. Cassilly, Personnel Officer, with a view to rewriting the job analysis.

It was also reported at the meeting that the WRA Washington Office had turned down Projects request for providing work pants to tomato pickers.

KOBAYASHI-ISHINO WED IN NATION'S CAPITAL

Washington, D. C., July 22.—The most recent of nine weddings of evacuee couples which have taken place in the Nation's capital since early last year was celebrated here on June 18, when Mary Kobayashi, formerly of Santa Ana, Calif., and the Colorado River Relocation Center, became the bride of Iwao Oshima, formerly of San Diego and Colorado River.

This is the first wedding between relatives to result from a romance that began in Washington. Eight other marriages united pairs of young Nisei who had become friends at the various centers and, in some instances, on the Pacific Coast prior to evacuation.

The Kobayashi-Ishino wedding was held in the garden of Mrs. Bancroft Davis' home, in which Mrs. Ishino has been living for some time. The bride is attending business college here and the bridegroom is employed by the Office of War Information.

In five of the local weddings, a Nisei soldier now overseas is the bridegroom. Robert Shimaseki, formerly of San Fran is, and Central Utah Relocation Center, became the wife of Saburo Kuboza wa.

APPRENTICES TRAINED IN BEAUTY SHOPS

An apprenticeship training program in beauty shops was started on June 1, to train girls as cosmetologists, according to David Conlin, Acting Head, Ta-San. The requirement of training 600 students of training in beauty shops extending over a minimum term of six months. Requirements are particularly severe

also from Central Utah and now in Italy with the 442nd Combat Team, while he was in Washington on furlough in May, 1943. More recently wedded husbands who are now overseas with the 442nd Combat Team are George Tsujimoto, of Gila River, who married Miss Sally Kawamoto, from Manzanar; Hiroshi Sumida, a volunteer from Minidoka, whose wife is another Miss Mary Kobayashi, also from Minidoka.

Two bridegrooms in a series are still in training in the United States. They are Paul Matsukai, now at Camp Savage, whose wife is the former Katsuhiko Kagayama—both from Central Utah; and Robert Ora, a recent inductee formerly of San Francisco and Tule Lake, who married Tohiko Menda, of Sacramento and Tule Lake.

Dust and Desert

A small lad at the movies one night was heard to remark to an even younger boy, "After seeing a film of a patriotic nature, "You know what that is? That's propaganda", to which the second boy piped, "What's that?" Replied the first boy, "Lies, boy, lies." The older child's first statement was surely correct, for much of what we read or hear in any nation at war is written to sway public opinion and this is Propaganda. But unless all nations are always wrong, some of that propaganda is also true. It is for us of Poston to add to our understanding and knowledge the wisdom that comes of open-mindedness and clear, deep thinking, in weeding the false from the true.

For the many of us confronted today with questions of choosing the East or the West, as our future home, we face the question often. Are my chances better in a country which offers me...if still in high school...school boy jobs that I may finish my education outside; or, if a high school graduate, scholarships and opportunities to go to college without a cent to my name...or if ready to work...abundant jobs in all eastern regions of the United States; and finally...a land which offers my parents the great joy of seeing their children happy, and the great achievement of watching their children succeed...or are my chances greater in a country I have never seen...in which my parents have not lived for several decades, which is at

SERA, YABUTA CROWNED

Judges for this contest were Mrs. Morris Burge, Mrs. C.A. Popkins, and Miss Alice Grube.

Incidentally, Tomiko was chosen "Personality Baby" at a Baby Show at the last Nisei Week held in Los Angeles in 1941.

wat with the economy which I know and of which I am a citizen; which has suspected as spies. Nisei of America who have traveled there, a country which I could not reasonably hope to reach until some time after the war, while I, in the meantime stagnate, as I have found myself tending to do already?

And when we answer squarely and thoughtfully we shall be propagandizing...but it shall not be "lies, boy lies". It will be TRUTH.
