NO. 31

PAY DAY STARTS TODAY FOR UNIT I

Some of the residents of Poston will see their pay, when the first cash advances will be paid to the Unit 1 group, today, July 17, at 1:00 P.M., according to the official notice issued by A. W. Empic, Chief Administration Officer.

Payments will be made to the selected list at the western side of the south Administration building where a special paymaster's office is opened and will continue for a number of days thereafter. It is reported that all payments will be made in cash.

293 EVACUEES ARRIVED YESTERDAY

293 evacuees from Sanger and Cloves, lower San Joaquin Valley, arrived at Camp 2, Intake Center, yesterday, July 16, at 12:30 P.M.

The arrival of the new group increases the population to 12,790.

The evacuees arrived in Parker, by train, at 11 A.M., and were transferred to Camp 2 in four buses.

GUAYULE PROJECT PROGRESSES

Frank Kuwahara, director of the Guayule project, announced yesterday the arrival of 13 different strains of Guayule seeds from Caltech.

They will require special care, each seed being handled separately. The toxic substance around the seed must first be oxidized with clorox, then washed off thoroughly. Transplanting will begin after the seed has been germinated in a moist chamber, pyrex ware being used for this purpose.

The seedlings that were first set out are coming along "good", it was reported.

MATHIESEN IN GOOD SPIRIT

According to Russell Fister, Store Director, Homer A. Mathiesen, Chief of Agriculture and Industries, was in good spirits, when he was visited by Mr. Fister at the Good Samaritan Hospital in Phoenix, Tuesday night. "He wants to write letters but has no means of writing because his forearm is in a cast," says Mr. Fister. Mr. Fister believes it will be quite some time before Mr. Mathiesen will be out of the hospital.

One Fourth Inch Rainfall Recorded Here

One-quarter inch rain fell Wednesday night with the heaviest precipitation in Camp 2, according to U.S. Engineers.

A slight damage was done to the new Administration Bldg. now under construction.

FISH CULTURE

Fish culture, one of the major project of Poston, is well under way, with the first farm being located on Tract 34, where a slue one-half mile long and 10 to 30 ft. wide, will be used to cultivate the fish. 20-100'x100' and 10-200'x200' ponds covering a 20 acre tract, are also being planned for the cultivation.

Mesquite trees are being cleared along the slue at the present for the public use as a playground and will be named "Fish Park."

Fishes to be cultivated at the farm will consist of bass, catfish, carp, sunfish and others.

SEEDS ARRIVE

With the arrival of a large variety of seeds from the Liefgreen Seed Co. of Phoenix, a large scale "Victory Garden" will be in the making as soon as these seeds are planted in the firebreak near the water tower.

Out of 30 lbs. of eggplant seed that arrived, 10 lbs. were planted between barracks in Blk. 42. On July 10, the following seeds arrived: Cukes, 10 lbs.; spinach 75 lbs.; green Hubbard squash, 20 lbs.; and swiss chard, 31 lbs.

To Mr. & Mrs. Hitoshi Nakatsukasa of 44-4-C, a girl, July 15.

To Mr. & Mrs. Louis Ritchie of 36-4-C, a boy July 15.

To Mr. & Mrs. George Osumi of 11-11-A, a girl, July 15.

ACKNOWLEDGMENT

---o---

W.T. Honda and family of Blk. 4-5-D, wishes to express their thanks to the Salinas youth of Camp 2, who saved the life of his younger brother, Gen Masuda, at the Colorado River last Wednesday afternoon.
