## 6 Leave For Phoenix Induction Aug. 30, 31

They were: Masaru Shinn, 2-12-B; Teruo Takemoto, 53-13-D; Tamio Fukumura, 30B-5-B; Hiroshi Hirai, 322-6-A; George Masanobu Nishigaki, 322-8-A; all of whom left on Aug. 30, and James Hatano, of Porterville, Calif., and 226-9-A, who left on the 31st from Poston.

### DIFFICULT TO LOCATE FARMS IN VALLEY IF RELOCATION IS DELAYED

El Centro, Calif.-- Evacuees who are waiting until the last to effect resettlement may find it hard to locate suitable farms and farm leases in the El Centro district, according to WRA El Centro. Most farm operators are changed before planting seasons and vacancies are scarce in October for quick money crops.

The district officer states that alien evacuees expecting to operate farms should confer with the project attorney regarding the new Alien Land Law amendments.

It is necessary that all lease and rental agreements be made by a citizen.

## LAND LAW TO BE TESTED IN STATE SUPREME COURT Farm Order Escheated By San Diego Judge

Los Angeles, Calif.-- immediately following the ordering of the small Chula Vista farm of Fred Oyama and his father, Kiyoshi Oyama, escheated to the State of California, by Judge Joe Shell of the San Diego Superior Court last week, A.L. Wirin, the Oyamas' attorney, announced an appeal to the Calif. Supreme Court, said the A.C.L.U. Open Forum, Sept. 1. The question of the constitutionality of the California Alien Land Law was left for decision by the higher courts.

This order was made in spite of the father's taking out guardianship proceedings in connection with the property. As explained by Judge Shell, he made the rulings because of the provisions of the California Alien Land Law, which not only prohibits Japanese aliens from owning land, but also sets up a legal "presumption" that land taken in the name of a minor by a Japanese alien, is presumed to be in violation of the Alien Land Law.

With a decision as to the constitutionality of the law by the California Supreme Court now assured, it is expected that the case may go to the Supreme Court of the United States, in the event of an unfavorable ruling. It is planned that the Oyama case will be used as a test case to secure a decision from the higher courts as to the constitutionality of the

Alien Land Law, and thus the case will indirectly affect about 30 escheat cases filed by the Calif. Attorney General against Japanese in numerous counties in California.

It will be urged in the higher courts that the law was adopted and has been enforced as part of a program of discrimination because of race prejudice against orientals in general, and persons of Japanese descent in particular, and that such discrimination violates "due process of law" and the "equal protection of laws," as guaranteed by the 14th Amendment.

Other questions to be decided by the higher courts in the Oyama test case include: 1. Whether the "presumption" section of the Alien Land Law, that property taken in the name of an Nisei by an alien Japanese is presumed to be in violation of the Alien Land Law, is constitutional. 2. Whether suits to escheat property are "outlawed" -- i. e., cannot be filed -- after the lapse of a certain number of years, as are all other suits filed in the California courts. In the Oyama case, the suit was filed more than ten years after the property was taken in the name of Fred Oyama, son of Kiyoshi Oyama. 3. Whether the filing of the Oyama case was so unreasonably delayed so that the courts will not consider the suit in the interests of justice and "good conscience."

**ARMY APPEALS DECISION CONSTITUTION VIOLATED**

LOS ANGELES--Generals Charles H. Bonesteel and H. C. Pratt, commanding generals respectively of the Western Defense Command, filed a notice of appeal from the permanent injunction issued by Federal Judge Pierson M. Hall, restraining them from enforcing by military or physical force, the exclusion of Japanese Americans from the Pacific Coast, under individual exclusion orders issued by the Western Defense Command, reported the Aug. 21 Colorado Times.

Without passing on the validity of the exclusion orders, Judge Hall, after an extended trial, ruled in a lengthy opinion, that the military leaders acted beyond their constitutional powers when they used military force to enforce exclusion orders.

The appeal, filed by U. S. Attorney Charles H. Carr, takes the case to the Circuit Court of Appeals for the Ninth Circuit of San Francisco, and from there it will go to the Supreme Court.

**A.C.L.U. LAWYER OPPOSED ISSEI DEPORTATION**

LOS ANGELES, CALIF.--Deportation of the Issei to Japan was opposed by A. L. Wirin, attorney for the American Civil Liberties Union, before the house subcommittee on immigration at the Federal Building, said the L. A. Daily News, Aug. 29.

The committee, who concluded its sessions Aug. 28, was told by Wirin that the Issei should be treated as any other alien in the country, that there should be no discrimination.

Wirin said, however, that the A. C. L. U. was not interested in any American born Japanese who had renounced his citizenship and had professed loyalty to Japan. He also said that these persons should be deported as quickly as possible.

The Issei should eventually be allowed to become naturalized citizens, Wirin stated, and proceeded to take sharp issue with the native Sons of the Golden West, who are opposing any changes in immigration laws with respect to Orientals, charging that the NSGW and several other organizations are inclined to judge people by their race, color and skin, rather than as human beings.

Any person, he concluded, who has been law abiding and loyal should get the utmost consideration.
