AXIS SOLIDARITY FALLS. IN MONTANA

MISSOULA, Montana: Despite the show of solidarity among the Axis nations, there seems to be complete breakdown when some of its members actually confront each other. At Fort Missoula; Montana, for instance, where Japanese and Italians are interned in the same camp, members of the two nations do not even say "Good morning" to each other.

It was soon found out they would not eat together, so the two groups were housed in separate buildings. Dining rooms and kitchens are separate, and even moving picture shows are reported to be shown to the two groups separately.

While the Italians are said to be poor housekeepers, the Japanese keep their room immaculate.

RURAL POPULATION TO BE INCREASED

WASHINGTON: According to a German newspaper, the Cologne Times, the Japanese Government is concerned about the present tendency of its population to migrate to the cities because of the resulting shrinkage, in agricultural production.

The Government has decreed that 40 percent of the population must remain rural, so that the home islands will never be too heavily dependent on outside sources for food supplies.

EDITORIAL

...of clarification might be in order in regards to Project Director W. Wade Head's announcement as reported in yesterday's Press Bulletin concerning the new wage scale.

For the possible particular interest of those who were affected by the order, the new wage scale re-allocating the level at \$16 per month was the direct result of efforts expended by the Poston Administration during the past two weeks.

The Administration had been considering the adoption of a uniform wage scale before the "requests" of the Poston 2 subjugation and adobe workers, in the form of a walk-out was presented to the officials here for an equitable wage scale.

That was one reason which motivated Director Head to go to San Francisco a week ago... to discuss the matter with the Regional WRA officials.

But that's so much "water under the bridge" now. Let's consider that as another barrier to progress hurdled. We've still got a long row to hoe before attaining our common goal of a great or Poston.

Let's buckle down and really get to work!
