Shouldn't it be more appropriate to play some band numbers on departure day in the "graduation train" case or "Anchors Aweigh," anything but "Alabam' On You, Goodheart, Alabama." Efficiently, we appreciate these songs, but...good, we are good enough.

Turi Honda, who left for Lynchburg college in Virginia will travel the furthest of any college-bound student from Santa Anita. She will major in home economics at the coed school.

Tsunaye revealed her engagement to her fellow workers at the infant feeding units by passing candy around.

# WIN PLACE AND SHOW

BY RUDIE SHIMAN

An exciting sidelight on  
the foibles of horsemen  
realists, or Love Campers  
All:

A Fresno Grapeline re-  
porter goes to Merced to  
help clean up that Center  
and air mails a story back  
to the Grapeline.

Which is all right, we  
suppose, but we learned in  
our fourth grade geography in  
class that Merced is only  
fifty miles from Fresno.  
Flashin' and dr. America

and all the shipmates!

How's luck?

We sympathize with the  
fishermen at Porton who  
have been warned not to  
eat the fish caught in the  
slough because the water  
is highly contaminated.

Perhaps this is fortunate  
for the fishermen... they, at least, will not  
have to produce any fish  
to tell about the "big  
one" that didn't get away.  
Right off the boat!

To mention this just to  
show people that although  
we are not able to indulge  
in the same things that  
many on the outside are  
doing, we have not forgotten.

Talk that virtual pro-  
hibition is coming made us  
nostalgic for the old dry  
days when we were happy in  
a paralyzed sort of way.

We remember our 'doctor,'  
one 'Honest' John who always  
guaranteed his stuff  
but never touched a drop.  
He was honest as the day  
is long but--he only worked  
at night.

## One-man committee

This is on the serious  
side. John Ty Saito, the  
one-man committee and head  
of community activities at  
Santa Anita, who left Thurs-  
day for Bolmer was one of  
the hardest working men in  
the Center.

When we attend tonight's  
dance, we'll dedicate the  
first toe we step on to him.  
**Shoo! flies**

We don't know whether  
it's the shoe-grease we've  
been using to waterproof  
our boots in preparation  
for Arkansas or not but--  
damn these flies!

## RELOCATION VIGNETTES

**Fine People Once Lived There**

District VII, north of barracks 12, is a virtual ghost town today; its last resident, George Matsunaga, having been relocated to Granada, Calif., a week ago. Matsunaga was living alone in this deserted section, having been granted special permission to remain because of the tiny residence in that section were moved south of barracks 12.

In dark nights residents wandering through this deserted district could hear someone's shrill whistling whistling to keep up his courage.

Suddenly the spotlight from the tower would flash bucket in hand, returning from the side of a barrack. He would explain, "The evacuating San Jose residents left a lot of flower gardens behind and the flowers were left to die. So every night I go out to pick them."

On windy nights, cold black barrack windows shiver. A gust of wind will fling open a barrack door, revealing the empty insides.

Daytime, the district is deserted and quiet. The streets are empty of people and should one peek into one of the many empty barrack windows, all he will see is the clean swept floor with the sun slanting in from an angle.

Today a fence encloses this area and whenever one looks at the long lines of empty barracks, he is reminded of the fine people that once lived there. --J.O.

## 'Everyone Has Been So Kind'

The following excerpts from letters and postcards from Helen Matsunaga, former Santa Anita resident and talented violinist, now attending Rockford College and the relocation of students in Eastern and mid-Western colleges and universities.

"The 'welcoming committee' waited for me at the station but since I came in several hours late at the depot I missed them. I took a cab and got to the college. I'll have to admit that I was very frightened for a while.

"After arriving at the college, I made the 'rounds.' Everyone has been so very kind to me.... Rockford is really the 'forest' city. It's very beautiful. It typifies this part of the country. Unlike Los Angeles there are no mountains--just beautiful rolling hills. The whole city of Rockford is just like a typical picnicking ground--trees, lakes, streams, and gorgeous flora. I'm learning the different kinds of trees--oaks (nothing like California oaks), elms, etc.

"Wisconsin is just a 30-minute drive from here--Chicago is very close (hour and a half)... but I miss 'exciting' Santa Anita so much.

"I just want to see someone from home--I guess the gangs of homesickness are really getting me.

"What's everybody doing? I try to imagine I'm home with all of you, picturing what each of you is doing."
