REDUCTION OF MESS WORKERS DISCUSSED AT GILA CONFERENCE

The main topic of discussion at last week's project stewards conference at Gila relocation center in Rivers, Ariz., was the problem of equalizing the set number of mess workers in each mess hall in each center according to their quota, stated William Wells, project steward. Wells returned to the center Wednesday after attending the confab in Gila.

A complete organization chart to be released to every center in the near future was drawn up, Wells added.

Centers represented at

this all-important meeting were stewards from Manzanar, Poston, Gila and Amache with Frank W.Warding, chief of mess operations in Washington DC, acting as chairman.

ODT ORDER HALTS SHORT-TERM AND SEASONAL LEAVE

During the period of Dec. 1 to Jan. 10, no short-term or seasonal leave will be granted in order to comply with Office of Lefense Transportation's request that all civilians refrain from traveling.

Visiting between centers, with the exception of any travel necessary for those who have been granted the definite leave dufing that period, will not be permitted. This, however, does not apply to emercency cases, to soldiers who might wish to visit the centers or to evacues who wish to visit members in the armed forces.

All relocation officers in the various areas are ordered to discourage visits to the centers by the relocatees.

Has Spoken Somebody

Then "SOMEBOLY" speaks there must be credence and respect shown to that person's public utterances recardless of whether his statements coincide with yours

Especially if that "somebody" is well versed on the

topic for which he speaks.

Former Ambassador Joseph Grew's recent address to the Holland Society of New York carried some very timely commentary for every thinking American, nisei and Caucasians, to consider with gravity.

"I have too great a belief in the sanctity of American citizenship to want to see those Americans of Japanese descent penalized and alienated through blind prejudice," stated Grew.

How many Caucasian Americans can or will make that

statement without qualification?

Grew, now special assistant to the Secretary of State, further reiterated, "I want to see them treated as we rightly treat all other American citizens, gardless of their racial origin -- with respect and support, unless and until they have proved themselves unworthy of respect and support."

Nisei, isn't that a challenge to go out and make

something of yourselves?

Misei, let's prove that we are worthy of that "respect and support." --R.Y.

The Challenge We tace

Favorable news stories on fair treatment for nisei are not enough. But when various papers take a firm stand in their editorials it is encouraging. Powerful editorials are more and more using Tule Lake segregation center as basis for comparison.

Noteworthy of this fact is Monday's editorial in the Pueblo Chieftain entitled, "Those Are the Soum."

It said in impart:

"These few are important only as individual victims of a situation. The important thing is that we Americans should distinguish clearly between the Tule Take agoregation of traiters and the almost 100,000 good, loyal, American citizens who, by the accident of birth, have "Japanese blood" in their veins.

"The Japanese-Americans not at Tule Lake have every right to be considered and treated as plain Americans, without discrimination because of skin tone or cast of

features."

Editorials like this are heartwarming. They carry a challenge -- a challenge to return to the American life that we nise; cannot afford to overlook.

Scattered relocation offices glitter like the stars. They are the light that beckens us to come and make good. This is the challenge we now face. 'That are we going --S.S. to do about it?

I've often heard the expression, "Hiracles don't ever happen." But on Tuesday, my friend, Dr. George Nagamoto, head of the dental telephoned a big clinic, telephoned a big "scoop" that may stimulate the minds of some pessimists. It's a miracle when an alien-born Japanese, supposedly ruled out of taking any state board examination in medicine or dentistry throughout the United States, was accepted to take a test on Nov. 15.

This "believe it or not Ripley story" is about Dr. Joe Abe, dentist in the center dental clinic, who showed the "guts" that all nisei and issei admire.

While visiting friends in Salt Lake City, Dr. Abe. (who spent almost all of his life in this country, but only for the fact he was born in Japan) was urged to inquire whether an alien would be permitted to take an examination. Taking this advice, he approached the state examining board and inquired. The reply was that he may take the test!

With only two weeks of intensive study, Dr. Abe successfully passed the all-important examination.

EMPLOYMENT OFFICE FAMILY RESETTLEMENT TEMPO SPEEDING UP

Family resettlement is the thorn in the side of the employment department's relocation division and greater effort will be expended towards this problem from now on by the local placement officers.

The cause of early day reluctance for family relocation was due primarily to outside uncertainty.

Those days are over, stated Merio Vecchio, assistant placement officer, and tension on group resettlement has been greatly eased by the various relocation offices all over Middle-west and Eastern seaboard expounding nisei good-will to Caucasian employers!

James Yamanctos are of the more recent families taking advantage of resettling into normal selfsupporting life with their three children. Yamanoto passed his state barber examination and opened his own shop in Denver.

Further search into Vecchio's relocation records showed some notable examples of successful family placements that merit laudable attention.

For example, George Nakamuras and their five children are all employed at St. Anthony's hospital in Rockford, Ill. Two

children are attending school

Another angle to family pursuit of outside prosperity has been for one of its member to relocate and get things "organized" and then send for his parents or remainder of his family.

In this respect Mr, and Mrs. Toyazo Eirata left to join their son on Arlington Heights, Ill. farm and are happily settled.

Former PIONEER Editor Khan Komai followed the paper's relocation preachings and is at present employed by a battery company in Dayton, Chio. Ars. Komai and son have joined Khan and are new living in a Federal Housing Unit apartment.

Over 3000 persons cnowded to view the recent artificial flower and miniature garden show in the Hospitality house.

Yes, I was one of the beholders standing enmasse with the crowd. Patient spectators, gradually making inward trudge, were finally rewarded as they beheld before them handmade flowers with such radiated realism that one was tempted to obtain the scent.

Before our anxious eyes drifted rows of intermixture of tray landscapings, flowers of various varieties, miniature creations with precise, authentic reproductions--every one of them a true work of art in every respect.

It was about here that I came across some artificial fruits. A little boy ahead of me seemed also to be engrossed on their naturalness. The luscious looking, taste tempting delicacy allured him to the extent that he craved for them from his mother. A negative answer brought him much irritation and on the verge of tears.

Just a little incident picked up by a bystander, but it's a great one to show what a small, ambitious group can and has accomplished.

Hospitality House was the scene of this inspiring exhibit. It also stands as a center of many social functions and has for the past year operated with great success. During its course of existence, servicemen, visitors and residents have attended the doings there at one time or another.

Under the supervision of the YWCA, the Hospital ity House has contributed to this center and to our visiting soldiers much relaxation and comfort. These worthy deeds should never be underestimated.

DON'T BE A BLACK SHEEF!

First basketball practice at the gym Wednesday night was, well---so so. we went to the gym around 6,30, the girls had already taken the floor and was getting into shape (um, um). When their 45 minutes were up, like good girls, they "beat it" off the floor. Their cooperation is appreciated.

But when the boys took over, we found one thing that sort of rubbed us the wrong way. It kept the toys from making full use of the courts.

Yeah! What the heck did all the boys in the middle court think they were

East andwest courts are small enough as it is and the teams practicing don't want you guys in the cen-ter court "butting in" all the time.

Rec regulation for boys states only east-west courts to be used so let's stay off the mid-court as said before, and give the other guys, a cherce. You should know better.

So, at the next practice session let's observe this rule and keep off the playing court if it is not your turn. If this kind of stuff continues then the roc department may be forced to take stricter action against offenders.

No Ceiling Price?

High school student activity, tickets are going on sale Monday.

Such news ordinarily wouldn't create much interest, but this time it's different.

And the difference that makes this news "front pare" is the prices to be charged -- \$2.50 and \$1.

.. \$3.50 for student activity ticket is steep, it's Morganthau price on pauper's income. And \$1 price seems fair but if you scrape off several top layers you see some hidden plots to dig further into your pocket-bocks.

Cn \$16 pay-checks you can't support programs that are taxed on the maxim that "nothing is too good for us," that kind of idealism can't be subscribed to by the evacuees.

Assuming that high school activity heeds certain financial backing, let!s spread the budget load thinly over greater surface. With high school enrollment at 703 as of vesterday, why not set a more equitable price and let the student body majority share the load? Aside from financial consideration more students holding "shares" in school activities mean stronger school program.

ONE DOLLAR would be a satisfactory price for student activity ticket, which should entitle the holder to all activities -- games, dances and plays.

First cage practice ses- All the quintets in the various leagues are evenly matched with no organization showing any undue superiority, which is made-to-order for interesting flag chases this season,

Cnly one squad showed marked degree of preseason outimism of setting the pace and that strangely enough was in the girls' league. And the team in the favorite spot as of today is that group of feminine flashies sporting a four-bit · moniker--the Delta Shooting Stars.

But don't put your entire |le cn this tip because Blackie Imai's Royal rlusherettes will watching.

AMACHE Peys club dance on Thanksgiving night was a financial success, a nice crowd, but socially the affair was -- lacking.

Nice floor, music fair -but choice and response poor.

Solution: Little more dance-itis and little less sit-down-itis.

STACS well behaved. floor crowding and no reprimand naeded. In fact the thing was so quite it was "eerie" at times.

OH where, oh where, are the Amache jitter-buggers? Every time a fast jit music was played only few couples responded. Come on, boys and gals, strut your stuff next time. Never scare!

MI (ACLE! When the ARC boys were selling refreshments the booth was patro-. nized. When "Free" refreshment announcement was made nobody went near the booth. Can't understand it. Boys got desperate so they went E.round with the refreshme nt. Will wonders cease!

which clears all uncertainty and the managers may "rope" in more casabans without fear.

But the managers are forewarned, in order to elude any future headaches, that the recreation department will present only 12 nwards to the championship

PREPSTERS SLATE THREE FAST TILTS FOR TUESDAY NITE

First in the series of high school intramural basketball league games will be presented for the center cage fans this Tuesday night on the local hoop raladium with the Calibers and the Mercury quintets taking the floor at 7 o' clock.

Easy Aces will oppose the Rockets in the second game. Both tussles are in the A division.

Main attraction of the evening will feature two "AA" teams with impressive names that should prove to be ding-dong battle--Golden Avalanche versus 20th Cen-

25 cents admission will be charged.

NEW SCHEDULE FOR: BADMINTON

Arrangements for badminton playing on Sundays at the high school gym have been made and this new schedule will go into effect tomorrow afternoon from 1 to 4 o'clock, stated George Nincmiya of the recreation department athletic staff.

monday schedule for next week is set as usual from 6:30 to 10 p.m.

Due to various complications no definite badminton dates schedule willbe followed but a weekly program for the "bat the birdies" fans will be carried in the PIONEER sports page.

TRIANGLE' MEETING

An important meeting of the Eluc Triangle will be held at the Hospitality House on Sunday afternoon from 1:38 o'clock, announces wiss Hana Uno, Y secretary.

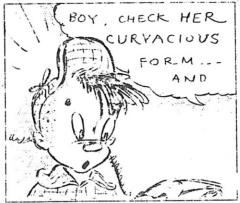

All presidents of the GR clubs and members-atlarge are urged to attend. Plans for Christmas will be made at that time, miss Uno stated.

DUMAS DINNERHOST

A Thanksgiving dinner was held at the home of Dr. E. Dumas, principal of the elementary school, for Misses Fraker and Groves and Mesdames Bender and Hoperaft, instructors at school, Games were enjoyed after dinner, stated Dumas.
