# REINSTITUTION OF SELECTIVE SERVICE WILL AFFECT OVER 1000 PROSPECTIVE MISEL VANKS IN AMACHE

Thursday evening at 9 o'clock (EWT) the United States War Department made the most momentous decision for the American citizens of Japanese descent since evacuation orders—the reinstitution of selective service for nisei, according to a teletype received by Froject Director James G. Lindley, yesterday morning.

The War Repartment's announcement is as follows: "Under the War Repartment plans, Japanese Americans considered acceptable for military service will be reclassified by their selective service board on the same basis as other citizens,

and called for induction if physically qualified and not deferred.

"Last Pebruary the 442nd combat team composed of Japanese-American volunteers was formed. In a letter to the Secretary of War commenting on this unit, the President said: 'To loval citizens of the Chited States should be decided the right to exercise the responsibilities of his citizenship regardless of his ancestry. The principle on which this country was founded and by which it he slowers been governed is that Americanism is a matter of the mind and heart; Americanism is not, and never was a matter of race or ancestry.

"The excellent showing which the combat team has made in training and the outstanding record achieved by the 100th battalion, a former associate a tional Juard Unit, now fighting in Italy were major factors in the present plane"

# AT TERRY HALL RELOCATION TEAM TO ADDRESS MEETINGS FOR 4-DAY PERIOD

The WRA relocation team, composed of Dr. P. A. Webber of Salt Lake City and Harold Fistere of Cleveland, will visit this center for a four-day stay starting Monday, stated Oscar J. 2ut-tedahl, Mashington reports officer, yesterday. Elmer Shirrell of Chicago, the third member of the team, will be unable to come due to illness.

According to Buttedahl, who is here with Leo Simmons of the St.Louis relocation office to set up the program, Fistere will address the various moetings and groups on latest facts on relocation opportunities in different parts of the country. And Ir. Teber, who speaks Japanese fluently, will interpret Fistere's talks for the benefit of the isset.

This team will make no attempt to offer any specific job opportunities as their chief objective is one of education, whereby the relocation officers learn the wishes of the residents and they in turn gain useful information on resettloment. And interesting display materials—photos, charts and maps—will also be shown by Abe Fisch—

ler of the Washington reports office.

The team's program has been set as follows:

Community wide me ting each night, Konday through Thursday, at Termy Call at 7:30 o'clock. Relocation—continued on page 3—

# 42 VEHICLES ARRIVE FROM CAMP CARSON

A total of 42 vehicles were driven into Amache from Camp Carson by the local motor pool and Heart Mountian drivers Thursday, announced Clyde Shrader, motor pool supervisor.

The arrival of the vehicles does not mean an addition to the local motor pool as a greater number of old trucks will be turned over to the United States treasury. This will reduce the previous total of 140 trucks to 117, added Shrader.

Robert Smith, local equipment maintenance supervisor, left yesterday with Chief Mechanic Ritchie of the Heart Mountain center for Cmaha, Meb., to complete the tour to check vehicles for the latter project.

1944 ARE ELIGIBLE FOR ARMY SERVICE.

Jillon S. Myer, WRA director, made the following comment on the War Department's decision: "The announcement by the War Department that nisei are to be inducted into the army through the selective service system marks another significant step forward for American citizens of Japanese descent. It means that capanese - American soldiers now in the army have performed their duties with high skilland courage, and that the valuable services rendered by such soldiers have been recognized.

"The obligation to bear arms in defense of the nation is one of the essential elements of American citizenship. As increasing numbers of nisei are called upon to assume that obligation, I feel confident that soldiers of Japanese ancestry in the army will acquit themselves with distinction and that there will be widening public recognition of the status which all loyal and law-abiding residents of Japanese descent should enjoy in our national life."

President Roosevelt's proposed enactment of a national service law to Congress in his annual message on Jan. 11 calls for drafting of men from 18 to 65 and women 16 to 50 with a few exceptions. The bill which has already been introduced and is being debated by the committee members, if passed will undoubtedly affect the nisei and issei in relocation centers.

In a chat with Walter Knodel, employment officer, Wednesday, he revealed that during the course of a telephone conversation with the War Manpower Commission in Denver he inquired if the evacuees confined in relocation centers would be included in the proposed labor draft. Knodel was informed that there was no reason why they should not

The chances of a national service law being enforced are riding on a "fifty-fifty" proposition in the Nation's capitol. The greatest opposition is being encountered from organized labor.

Noted news commentators and analysts on Capitol Hill are expressing the opinion that the bill won't pass.

. Much will undoubtedly depend on the day-by-day progress of the global war and labor strikes popping up in this country.

If such drastic labor draft becomes a reality the employment offices of all relocation centers are well-prepared for immediate draft with up-to-date information filed on each evaquee from 18 to 65.

If and when this labor draft becomes a national law, and if the evacuees are affected, the problem voluntary relocation will be over--instead it will be relocation under government orders to jobs they doem us best qualified lapor situation exists.

of the appreximately 10,000 American civilians held by the Japanese in the areas under their control, including the Philippines. There was said to be "no immediate prospect" of obtaining the exchange of able-bodied members of the American armed forces who are Japanese prisoners of war.

One reason for the Japanese refusal to discuss further exchanges has been its insistence upon a report concerning the treatment of Japanese nationals held at Tule Lake, and other internment centers in this country. The Spanish Fmbassy, which is in charge of Japanese interests in the United States, has made an investigation, which it is understood is favorable, but the State Department had no official word concerning that investigation to announce.

LETTERS OF CREDIT

IF you are a "letter to the Editor" fan you must have read the two very interesting and worthwhile letters published in the Jan. 19 issue. Altho they dealt primarily with this column and in disagreement with one particular article therein, my reaction may be of interest to you readers.

I am grateful for their interest. I am grateful in receiving the wisdom their letters impart to me, which no doubt was gained thru their many years of experience. I feel that their sincere comments will give me a deeper outlook on life and, assuredly, blend my future articles with clearer understanding of our problems. If by their letters I am better able to interpret our plight towards some sort of solution, then a mutual gain has been accomplished.

SECOND: And this is a general reason. I am grateful for the position taken and expressed by two of our many staunch boosters. They have taken a stand on the role WRA must play in aiding the evacuees to find their place in outside life. They have stated that the relocation officials are fulfilling their obligation s towards relocation and they shall continue to do so. They also feel that relocation is a two-fold business: firstly, it is an evacuee problem and secondly, it is up to the WRA to present a sound solution for the evacuees. And the War Relocation Authority is ready and willing to make relocation a winning medium of evacuee rehabilitation.

Their statements clarify to an appreciable degree what the center residents may expect from our adminstrative officers and what they in turn expect from the residents. I firmly believe it is this type of "now, we're getting someplace" utterances that will enhance relocation.

SO I sincerely hope,

SO I sincerely hope, and there is no reason to

government. No matter how depressing the Japanese Americans' situation here in America may be, it cannot measure up to the suffering of nisei in Japan."

Thus stated Capt. Paul F. Rusch, director of personnel, Camp Savege, dinn., who spoke at a general meeting last week to a group of about 30 residents. Capt. Rusch, accompanied by two technical sergeants, was in the center Dec. 20 and Dec. 21, recruiting volunteers for the MIS language school.

"The downfall of the Japanese military machine would be due to the inability of the Japanese non-com to use their imagination; they inveriably follow a printed set of rules. The Japaneso soldiers are no pushovers; they can see and imagine suffering, hungor, starvation and death. But they cannot conceive of defeat. The time will come when they are faced with defeat; then the Japanose soldiers will lose respect for their officers. It will be a long, tough

war," he said.
"The question that has been asked me frequently is how can the Japanese midget industries supply their armed forces. The answer is: What the Japanese army needs, it takes, with no regards to individual rights.

Perhaps some of you have read 'My Japanese Wife' by Ray Cromelyin the American magazine. What he witnessed was one of the tragedies to befall a member returning to the States on the first Gripsholm exchange. At the time of the departure of the exchange ship, Cromely's Japanese wife, Mrs. Cromely, was violently shoved aside by guards while her husband and son were thrusted to the op-posite side of the fence. She stood a lonely figure by the side of the road, watching the departing car take her husband and son to America, while she must remain in Japan," Capt: Rusch concluded, relating from his own experiences.

FOOD 4 THOUGHT

"No points--no meat," says the butcher. "What foods these morsels need."

With the world at stear, how can a fella buy a stake? If Tender Loin and Sir Loin won't give me that T-bone, I'm going to start ribbing them. Do you think they could spare a rib?

The butcher now-a-days has to get right to the point. Che cwner painted his place black and was soon indicted for operating a black market. How I will never be able to meat him again.

If you are unable to purchase stakes—then go to the wood pile and have a chop. Remember, there's only 338 chopping days left until Christmas. should you desire chopsuey, eat it with a chopstick. Pork chops are delicious. but it's really difficult to find perk-u-pines.

It seems that every time I eat a tasty mutton, I put on a sheepish grin and it certainly gets my goat. If Norma shears the sheep then she'll be pullin' the wool over her own eyes. By the way, here's a new version of an old poem:

Mary had a little lamb She also had a bear How, Mary's lost her lamb But she still has her

bare.

And then they tell me that the government has frozen all hams. As yet, I haven't felt the coloness but I feel the draft. Incidentally, my favorite dish is hamlet with omlet.

omlet is tempting, but whenever I see eggs I usually beat it. Eggs should be peeled so that it will a-ppeal to the people. Always remember to remove the shells before serving-then no one will be shell-shocked.

Then, again, when I cut a chicken's neck with an axe, I have not committed a crime because it is axidental. Even if it's a mascot, never take a colored chicken to the basket-

CHAIPIONSHIP GALE?

The Dusters and Eight-Ballers will clash tomorrow afternoon in the feature game of the threeply casaba menu, but overshadowing it will be the curtain-raising tussle between the dazzling Shooting Stars and the Ramblin' Ramblerettes. Without doubt this bi-court casaba flareup should be the outstanding girls tilt of the season. Even an amateur oracle could just about predict the championship for the winner without fear of rebuttal.

Flu Inaba's Stars 'hold a 23-11 practice game win over their rivals and since have acquired the services of diminutive Babs Inamasu. But not to be outdone the Ramblerettes have bolstered their forces with Chizu Kanda, who held the individual one came scoring record (until Thursday nite). In statistics the Ramblerettes are better point manufacturers with 76 markers in two league games but the Shooting Stars rate the n.od on defense.

Individually, Sepol's Norma Hamamoto and Chizu Kanda have scored 34 points each, while Star's versatile Nammy Kinoshita has tanked 23 to be followed by Cowl Takao's 18 and Kimi Yagi's 15. The Deltanettes' slight defensive edge is formed arcund Momoyo Kinoshita, a strong contender for the league all-star honor, and Mary Wada.

It seems as tho each time this scribe sticks his neck out to attempt a prediction, some team clamps down to knock it off. Well, here I go again and with my fingers crossed --- the Sepol lassies to come out on top arregations on the coast, in a very, very "closie." ATHLETIC FIGURE.

### SEEK 2ND DUSTERS DELTANS VS RAMBLERETTES

lers, who have the unfortunate habit of coming out on the short and of the score, will face Brush Arai's high-flying Dusters quintet in tomerrow's feature court engagement.

The Dusters dusted off the Yoores last Sunday in a thrilling match to lead the "AA" division but if the Ei-ht-Ball five pulls an upset the unlimited circuit will swing into a three-way tie. With Scapy Mivashima . in the line-up. Brush Arai's team is a smooth-functioning outfit and with Al Kato and Miles Hamada in the backcourt --they are a team to beat.

On the other hand, Eight-Ball cager lanky Chick Furuye seems to have found his shooting eye in the last two games against the Granada Pirates which means that their offense will revolve around him. And not to be forgotten is that e ver-flashy Tosh Shimizu, who has yet to hit his stride. Both squads are capable of hitting the hoop with consistency so a high scoring fraces should be in store for the fans.
