#### This is the Army, Mr. Sato

With an Army staff here to recruit men for the Camp Savage Military Intelligence Language school, it is intoresting to note how volunteers from other conters have fared.

Here are impressions of a nisel recruit who recently arrived at Savage from another relocation center:

"Today is Sunday and we have the afternoon off.
Usually on Sundays we have the whole day off but this
morning we had baccalaureate services prior to the
graduation exercises tomorrow. Yesterday I went into
Minneapolis, about 20 miles by bus, to take in a couple
of shows and stuff. . . .

"People in Minneapolis and hereabouts are very

friendly and sociable. . . .

"So it's pretty soft here compared with other posts. At Ft. Snelling, where we were first sent for five days, we were kicked out of bed at five in the morning and four when on KP duty. Light's off at 11 p.m. with a nightly bedcheck at midnight. . . .

"The barracks here are pretty much the same as those you find in centers except they are not partitioned. Stoves are the same except we got all the coal we need. Food is about what you get in camps, maybe worse. Ft. Snelling is the place where grub was really tops. I put on about a pound a day there. . . .

"The early part of this week they were drilling us hard and giving us a lot of basic training but it's not so bad. School, which of course will be our chief work, doesn't start until the middle of the month, but one thing I'm looking forward to is payday. . . And it is wonderful to be on the outside again."

It is apparent that life in the Army is tough but it should prove valuable in the post-war world.

Letters to the EDITOR.

TO THE EDITOR:

The major objective before America and our allies is to win the war. However, we must continuously think and act in view of winning the post-war period. Upon the young people in America will fall much of the responsibility to decide important issues when the war is over. The experiences that you and your associates are having in publishing the Granada PIONEER will help you to understand and prepared to meet some of our post-war problems' and issues.

I wish for you and your associates continued success

in the important work you are doing.

RE: CLOTHES

Talk about the riotous colors used in wimmin's clothes...take a good look at the screwy color combinations in some of the knitted caps worn by our masouline friends. And then, quick-like-a-flash, reach for your dark glasses. SO ON....

That the center clothing store sells many, many more articles of clothing to men and boys than to wimmin and girls, we announce with pride and considerable satisfaction after too many years of bad jokes about feminine extravagance.

What's a dissertation on wimmin's clothes without some mention of wimmin in slacks? The combination makes strong men shudder and weak men wonder what it's all about. But we gals like 'em. Period. SECOND CALL

DISTANCE MEANS LITTLE

Granada may be over a mile from the center, but the distance didn't keep hundreds of the center's casaba fans from going to see the basketball played there Wednesday night. Some walked and some rode, but they all got there for the game.

We think this kind of enthusiasm proves beyond doubt that the fans have not forgotten the days when they were part and parcel

of sportsdom.

We've never seen a more appreciative crowd than the one that packed the stands that night. The game was being played under abnormal circumstances, but this was soon forgotten as the scoring got underway. It wasn't very long before each spectator was straining his lungs for his home team.

HARD AND CLEAN Although our two teams went down to defeat, no one can deny the players of not having played hard and clean. The spirit they showed as they fought to last minute had each jam-packed fan on his feet most of the two and onehalf hours. MORE SCHOOL SPIRIT

Every school we can think of has an emblem, can school colors, and a team name; yet as far as we know, the Amache schools have none of these. We have been wondering if three months have not been more than enough to act upon and select these and other items which we believe add greatly to tradition and pride in one's own alma mater.
