

## NINE CARS OF FREIGHT TO BE MOVED WITH AID OF 80 VOLUNTEERS; BAGGAGE CAR AWOL

It seems that the newly arrived Jerome transferees will have no time on their hands until their nine cars of freight in Granada siding are unloaded and delivered to their respective owners. Approximately 80 Jerome volunteers are assisting in the transportation of their property,

announced Ralph J. Mitchell, property and warehouse officer, yesterday.

Transferees may store excess freight or household goods in the WRA warehouse in Lamar by making an application in duplicate through the block manager and taking it to the property and warehouse office.

The fourth baggage car carrying checkable baggage was reported as "still missing," but it is believed to be on its way. This car was equipped with freight wheels and could not accompany the transfer train. Mitchell added that the "a.w.o.l." car should arrive here not later than Monday.

## GRANADA PIONEER

I'd bet my best brown derby hat (if I had any) to anyone that there are many untold true tales of brave men having wept on the far-flung battlefields in the present tragic, global war. They didn't cry like most of us have. They cried because they were forced to part from someone or something we never had the privilege of knowing or possessing. It's very rare to experience this "something" unless it's under trying or adverse conditions--like in a stinking foxhole or on a choking, dusty desert.

Illustrative of this is a story related to me by Pfc. Thomas Higa, veteran of Salerno and Cassino battles who suffered serious shrapnel wounds, and a recent visitor to Amache on his convalescent furlough. The down-to-the-earth tale is about the 100th Infantry Battalion and their commanding officer, Lieut.-Colonel Turner.

Lieut.-Colonel Turner won his way into the hearts of American soldiers with Japanese faces of the famed 100th Battalion ever since they arrived to the States from the Islands, according to Pfc. Higa. They trained together--shared their ups and downs like brothers. Finally, on their memorable date, Sept. 23, 1943, they embarked for North Africa and then sailed on to the bloody battlefronts of Italy.

During the next thirty days, the battalion of nisei doughboys led by their courageous officer fought the Nazis. They loved their leader--carried out his orders to the last "letter."

And on Oct. 28, 1943, their commanding officer received orders from his superiors to transfer from his present headquarters. This news buzzed among the nisei yanks like busy bees. They regretted deeply for the time had come for separation from their leader whom they would follow thru 'hell or high-water.'

## RETURN OF NISEI IRKS CALIFORNIA

WASHINGTON--Representative Phillips (R. Calif.) filed a petition with the house today signed by 489 persons in his district protesting against "the apparent beginning of a return of the Japanese to California."

Phillips, in a house speech, said he called attention to the petition "because this is a problem which should have the very serious consideration of the people in the east who do not understand the problems which California faces."

The petition also demanded "serious consideration" to the Japanese problem on the West Coast.

## —LOST—

Silver Eagle from Eagle Scout badge during Jerome reception. Please return to PIONEER office.

On that sad departure day, Lieut.-Colonel Turner stood before his men. The nisei in khaki and their leader faced each other while tears flowed incessantly down their bare and hardened faces. Turner cried because he didn't want to part with his obedient "children." The members of the 100th Battalion wept because their "father" was leaving.

"We cried because we were losing an American friend who always treated us as his equal," Pfc. Higa revealed. "And back here in America, I hear about racial inequality from my newly-acquired friends, but we must not forget that many Americans do not understand us," said the wearer of the Purple Heart. "Some are uninformed; others make prejudice a deliberate practice. The latter we must just pity," GI Higa sorrowfully expressed.

## DOUBLES OUTPUT FOR US NAVY

The production tempo for the Navy training aid posters took an upward jump last week at the rejuvenated Silk Screen shop, states Miss Maida G. Campbell, supervisor. Different crews running regular hours plus "grave yard" shifts make this possible.

In addition, the opening of a warehouse in the administration area for the storage of excess paper and supplies added more "elbow" room to the crowded production shop.

## DRAFT TRIAL FOR 63 NISEI CLOSES

CHEYENNE, Wyo., June 19 --The trial of 63 Japanese Americans on charges of failure to report for pre-induction Selective Service examinations was concluded in Federal court this afternoon.

All the defendants are residents of the Heart Mountain relocation center in northwestern Wyoming.

## EMMONS SHIFTED TO UNNAMED POST

## PAPER FEATURES YOSHINO COUPLE

"Mr. and Mrs. Bill Yoshino (former residents of Amache) are happier in their little cottage on the A. A. The argument for the democratic way of life is masterfully set forth in the character of a schoolmaster played by Charles Laughton, a timid cowardly soul, who becomes a figure of heroic proportions when, fully awakened to the Nazi villainess, he finds himself doomed for his love of liberty. Heading the all-star performers are Charles Laughton, Maureen O'Hara, Walter Slezak and George Saunders.

## "DEMOCRACY IN ACTION" CITED BY MRS. MACNAIR

Mrs. Jerome W. MacNair, member of the Friends of the American Way in Pasadena, Calif., made an interesting plea in a letter to all American communities. She entitled it, "Democracy In Action."

Mrs. MacNair wrote, "150 letters, lately sent to the War Department by individuals and families in and about Pasadena, promise temporary homes, aid in finding employment, and a spirit of genuine friendship when the Government permits Japanese Americans to return to the West Coast."

"These letters promise 50 jobs and 125 homes, temporary or permanent, to our former neighbors. A small informal group, trying an interesting social experiment, sampled the sentiment in one important California community; 150 letters were the response. Goodwill, inarticulate and underground, is thus rising to the surface. The plan was simple and should succeed in other communities."

"But--everywhere there is community feeling to be mended, vicious legislation to be defeated, many urgent jobs calling for attention from real friends of the real America. What is your community doing?"

## POITPOURRI

by Roy Yoshida

PLEASE ATTEND

FOR the past several weeks we've been carrying a story or two in every issue about the coming Jerome transferees to Amache and I daresay it isn't even a second rate open secret anymore.

This columnist being glutton for punishment will devote a few lines more on the same subject. This time it will be about tonight's big reception in honor of the Jeromites in the high school auditorium (gym). All newcomers from Jerome are urged to make a special effort to be on hand because it will be a very worthwhile event. Top officials of the appointed personnel as well as evacuee civic leaders will participate in the evening's program. But more than that it'll be one of those rare occasions when you Jeromites can gather under one roof and exchange tales as to how you are getting along in your respective blocks. It will be a grand reunion and it may also act as a moral uplifter for the trying adjustment period that is yours at present.

Due to obvious reasons this affair will be limited in the case of Amacheans to only those who are representing the various center organizations--to which invitations have been duly sent.

MANY THANKS

THIS column takes this opportunity and means to personally thank Ailene Hamamoto, Jack Ito, Johnny Tsuruta, George Hamamoto, Hank Kusaba, Allap Asakawa and George Morita of the PIONEER staff, and Shiro Abe of the public works for their super-aid in the successful publishing of the "Hi Folks!" pamphlets for the incoming Jeromites. Muchas gracias, as they say down south of the border.

BACK AGAIN

DID you see our friend Lewis Fanslan who returned on the transfer train from Jerome relocation center looking more fagged than the transferees? No doubt

the three-week sojourn down in Arkansas' "mild" atmosphere made him a wreck. There was a debate going on in the gym during induction as to whether he rode inside or outside the train. If he didn't ride the rode, he certainly was made up for the part.

Anyway, we're glad to see you back on your job again, Lou.

the pretense of checking over income tax returns and then prying into real estate dealings.

The JACL letter stated in part as follows:

"In view of the criminal elements involved, we believe that every resident who is to be interviewed should be informed that he cannot be compelled to testify or submit to any questioning by such investigators.

"Any violation of the alien land laws should be prosecuted. On the other hand, we believe that those who are prospective defendants to such criminal proceedings should not be compelled to testify and thereby furnish the evidence for their prosecution under false pretenses on the part of the investigators of the State of California."

All persons who are being interviewed on such matters should consult the project attorneys or a private attorney if residing in the "free zone."

Dr. W. E. Carstarphon's, chief medical officer, staff members made the medical check-up with Dr. Takeyama in charge.

Transportation of Jeromites and their baggages was handled by the motor pool crew. The Boy Scouts are to be especially commended for their fine work in helping to load and unload baggages and general all-round "good deed" service. # LOCAL ALL-STAR, DENVER BEARS TO CLASH IN DOUBLEHEADER TOMORROW

The much-heralded Clark Taketa's Denver Merchant Bears will invade Anache to tackle the local All-Star baseball aggregation in a doubleheader tomorrow morning and afternoon at the local ball park. Starting game times were not designated.

The invaders come here with an enviable record in the Mile High City area, having registered lopsided victories against their foes. A 20-man squad is reported to arrive.

According to reports on their past games, Tok Murakami, Chuck Nakauchi and Hank Takahashi are the sluggers on the Bear roster, while hurlers Yosh Kuwano and Tom Kawamata have handcuffed their opponents.

For the local horseholders, Co-coaches Asao Takata and Dick Yamachi will cut loose with plenty of baseball savvy in order to nab both games. The locals are loaded with a talented array of pitchers. In Bobby Umekubo, Jun Furuno and Hideo Noda, the All-Stars have a trio of portside flingers who are dangerous at the plate as well as on the mound. In addition, there is Jack Otani, Bob Shiro and Koichi Kimura, three top-notch right handers.

George Watanabe, Tom Shimazu, Roy Hatanaka, Tad Ono, Jim Otsuki, Mao Sakaguchi and Jack Hoshizu will furnish the heavy stick work for the All-Stars.

With many of the center's star ball players out on seasonal leave, the All-Star aggregation may not be the best the league can offer. And one outstanding player who will be sorely missed is Lefty Nishijima, who was injured a month ago.

## IT LOOKED LIKE 5,000 TRANSFEREES WERE INDUCTED. SAYS YOSHIDA

Anxious faces were eagerly waiting for familiar faces, all was in readiness for the newcomers, and appointed personnel and evacuee "officials" were flitting here and there for last-minute check-up.

At last the new Amacheans began filing into the high school gym to go through the induction routine after a semi-tiresome train ride. To say that the place "around the desks" was crowded would be putting it mildly and for a while it looked like, instead of 500, there were 5000 transferees. And the serpentine around the medical check-up table would have done credit to any football game.

All over the place the self-appointed welcoming

## AMACHE MUST GO "ALL-OUT" TO COMBAT POLIOMYELITIS

Last year over 10,000 cases of poliomyelitis appeared in the United States--largest number since 1931.

Amache had four cases. During the epidemic all activities and shopping in nearby towns were curtailed. That was a tedious and restless period for all of us who were in camp.

This year Amache must go "all-out" to take preventive measures against this much dreaded disease.

"There is much we still need to know about the disease," said Basil O'Connor, who is the president of the National Foundation for Infantile Paralysis and who is now on tour of National Foundation chapters in 12 Western and Northwestern states.

"For instance, what do we know about the cause of infantile paralysis, other than it is a virus too small to be seen by the most powerful microscope?"

"How does the virus spread from person to person? How does it span mountains and rivers to invade isolated communities where there has never been a case before? How can we control this spread?"

"Why does it usually pick out the strongest, healthiest, most active children, often completely sparing those who are weakened by other disease or are undernourished?"

"Why does the paralytic form of the disease attack more male than female children?"

"There is much we need to know about diagnosis and treatment, too. Only scientific research can give us that."

"But our ultimate aim--the aim that transcends all others--is prevention. When we know how to prevent infantile paralysis, as we do smallpox and typhoid and diphtheria, then we will no longer have to worry about curing poliomyelitis cases and the problem of treatment will no longer be important."

## WONDERS ABOUT DUST STORMS

(ed. note--This article was written by Hiroshi Mayeda, former managing editor of the Denson Tribune, and now a member of the PIONEER staff.)

With two-fold feeling--sadness and happy anticipation of new adventure in Colorado--we bade farewell to Jerome on the very hot afternoon of the 19th.

The trip was uneventful and no joy-ride for we experienced the unwelcome privilege of sleeping two in a chair. Mile after mile, our train thundered onward as we flashed thru Arkansas, Tennessee, Missouri, Kansas and then into Colorado--and our new temporary home, Amache.

Arriving in Granada, the first cry that was voiced by everyone was, "It's cool here". And even during the hottest part of the day all agreed on that point. That Arkansas heat is something we did not regret leaving.

After two days' observation, including housing, food, facilities and other things, we find everything as good as in Jerome. Most important of all, the people of Amache are very cordial and friendly. That counts, and makes this a swell place.

Our first evening, we experienced quite a dust storm (we thought), but according to reliable sources that was a mere preview. Now we wonder what we're in for.

The light-colored buildings of Amache are easy on the eyes after staring at the black barracks of Jerome for nearly two solid years. In addition, the brick floor of our apartment is something novel to us and after using the soft water of Arkansas, the hard water seems very sticky.

At any rate, Amache seems very favorable, but our opinions may change after one of those much talked-about dust storms.
